NEW YORK HOSPITAL.—BROADWAY, OPPOSITE PEARL STREET

Opened for Patients January 2, 1791

TO THE LEGISLATURE OF THE STATE OF NEW YORK

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1912, as required by law.

NEW YORK HOSPITAL AS IT APPEARED IN 1869

ANNUAL REPORT

OF THE

GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1912.

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III., the Governors of the Society of the New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the department for the treatment of mental diseases, known as Bloomingdale Hospital, and the Convalescent Cottages at White Plains, Westchester County.

The number of individuals who received care and treatment in all departments during the past year was 67,037 as compared with 64,677 for the year 1911, as appears in the statistical reports hereto annexed. These numbers may be classified as follows:

	1912	*1911*
TREATED IN THE CITY OF NEW YORK:		
In Wards and Private Rooms	17,790	15,591
In Out-Patient Departments	39,929	40,814
Treated by Ambulance Surgeons and not brought to the Hospitals	7,798	6,982
TREATED IN WESTCHESTER COUNTY:		
In the Psychopathic Department	535	498
In the Convalescent Homes	985	792
	67,037	64,677

In consequence of the increased amount of work performed, and the increased cost of supplies of all sorts, the expenses were largely increased in all departments of the institution. It has also been necessary during the past year to make some extensive renewals, notably at Bloomingdale, where the electric wiring system has been overhauled and other important additions and improvements are in progress.

On the other hand, the payments for patients' board, and the receipts from the out-patient departments and sundries, have likewise increased; and we have also (for the first time) received payments from the City of New York for our local ambulance service.

The following comparative table shows the totals of current expenditures and receipts from income:

	1912	*1911*	*Increase*
Expenditures	$705,924.96	$654,644.97	$51,279.99
Receipts from Patients, etc.	418,475.14	379,007.88	39,467.26
Operating Cost	287,449.82	275,637.09	11,812.73
Rents, Interest and Sundry Receipts	246,897.41	264,600.19	17,702.78*
Deficit	$40,552.41	$11,036.90	$29,515.51

* Decrease.

The Society during the past year has received the following gifts and legacies:

From Mrs. George G. DeWitt, for endowing a bed in memory of her late husband	$5,000.00
From the Estate of Catherine E. Daly, for endowing a bed	5,000.00
From Estate of Charles Bathgate Beck, final distribution of the residuary estate of the testator	20,282.08
From Mrs. Charles E. Sherman and others to constitute the Thomas Newbold Lawrence Fund, given by his nieces and nephews, the annual income therefrom to be used in the work of the social service of the New York Hospital, in memory of Thomas Newbold Lawrence of New York, son of John Burling Lawrence, who, from 1808 to 1845, was a Governor of this Hospital	10,000.00
From Mr. J. Woodward Haven (one of the Governors), to establish a Dental Clinic in connection with the Out-Patient Department	2,000.00

In addition, the Society received on the last day of the year the sum of $250,000.00 from Mr. George F. Baker, one of the Governors. This generous gift is intended to effect an affiliation between the New York Hospital and Cornell University Medical College, with the object of promoting medical research, aiding the care of patients in the Hospital and furthering the education of students in the College.

It is believed that by bringing to the study of the cases in the Hospital the aid of the facilities provided by the fully organized and equipped College laboratories, more accurate knowledge of the diseases can be gained and better treatment can be given to the individual patients; and the opportunities for the study of disease can be utilized by bringing to the aid of the attending staff the equipment and specialized training of the College staff in the Departments of Physiology, Pathology and Chemistry. At the same time the training of the students can be aided by their admission to the wards for observation of patients, under the direction of the Hospital staff.

Arrangements to carry into effect Mr. Baker's intentions have

NEW YORK HOSPITAL—West Fifteenth Street

Completed 1877

been made with the authorities of Cornell University, and it is expected that the plan will shortly be in full operation.

In the last Annual Report it was stated that the Society had acquired practically all the block between Fifty-fourth and Fifty-fifth Streets and Eleventh and Twelfth Avenues for a new site for the main hospital. The property, however, was not fully paid for until the early part of the year 1912, and these payments have necessitated the sale of income-producing property, which has caused a falling off in receipts of rents, interest, etc., as noted above.

The preliminary studies for the buildings intended to be erected on this property have been completed and tentative plans have been prepared. These plans exhibit a hospital of about four hundred beds with all the useful adjuncts of Out-Patient Department, laboratories, etc., which (by relatively small additions and alterations) can be easily expanded into a six-hundred bed hospital. The final development of the plans has been delayed, partly because of the uncertainty as to the action of the City authorities in regard to proposed changes along the water front in that neighborhood.

Early in the year Mr. Elbridge T. Gerry, one of the Governors of the Hospital, resigned after a service of over thirty-four years; and Dr. Frank Hartley, one of the Attending Staff, resigned on the 1st of December, after a service of over twenty years.

The Society has also lost by death Mr. George G. DeWitt, who had been a Governor since 1892; and Mr. William W. Hoppin, a Governor since 1878, who died on January 3, 1913—just after the close of the year. Resolutions adopted by the Board in relation to the deaths of these gentlemen are appended hereto.

Attention is called to the fact that the statistical reports annexed cover all the institutions under the management of the Society.

GEORGE L. RIVES,
President.

HENRY W. CRANE,
Secretary.

New York, February 4, 1913.

In Memoriam

GEORGE GOSMAN DEWITT

DIED JANUARY 12, 1912.

GEORGE GOSMAN DEWITT, a Governor of the New York Hospital for the past twenty years, died on January 12, 1912, at his home in this City, in the sixty-seventh year of his age.

After graduating from Columbia College and the Columbia Law School, Mr. DeWitt entered the law office of his uncles, and with them, and subsequently as the senior member of the firm which succeeded them, he continued successfully the oldest established law practice in the City of New York. His clients were numerous, and he represented with fidelity and skill for over forty years many large and complicated interests. He was a Director of several of the most important banking institutions in this City, and also a Trustee of Roosevelt Hospital and of Columbia College.

Elected a member of the Board of Governors of this Society in 1892, he served with diligence and fidelity upon the various committees of the Board and took an active interest, up to the time of his death, in the welfare of the institution.

No memorial of Mr. DeWitt would be complete without a reference to the kindly and genial disposition which has made his death felt as a personal loss in many and varied circles in this city.

On motion, it was

Resolved that the foregoing memorial be entered upon the Minutes of the Governors of the Society and that a copy be sent to the widow of Mr. DeWitt.

[*Extract from the Minutes of the Board of Governors, February 6, 1912.*]

In Memoriam

WILLIAM WARNER HOPPIN

Died January 3, 1913.

William Warner Hoppin, who died at his home in this City on Friday, January 3, 1913, was born in Providence on December 15, 1839. He graduated from Brown University in 1861 and soon afterwards entered the College of Physicians and Surgeons in this City, and obtained the degree of M. D. in the spring of 1864. He served as assistant surgeon in the United States Army during the last months of the Civil War and was also for a time an interne of this Hospital. He felt, however, attracted toward the legal profession and entered the Columbia Law School, from which he graduated in 1869; and thus his education peculiarly fitted him to be of service in dealing with the problems which must always confront those charged with the responsibilities of a large metropolitan hospital.

Mr. Hoppin was elected a Governor in the year 1877 to take the place of his father-in-law, Mr. James W. Beekman. During the period of more than thirty-five years, in which Mr. Hoppin served the Hospital as Governor, he was always keenly interested in its welfare, and his warm and sympathetic nature led him to look constantly upon the humanitarian aspects of its work. He naturally also took a profound interest in its educational work, and particularly in the training of nurses, in which this Hospital has been so preeminently successful.

The members of the Board of Governors will greatly miss his valuable and enlightening comments on the subjects under their consideration, and will always retain the recollection of his most sympathetic and kindly nature.

Resolved that the foregoing be entered upon the Minutes of the Board and that a copy be sent to the widow of our late associate.

[*Extract from the Minutes of the Board of Governors, January 7, 1913.*]

TREASURER'S REPORT.

RECEIPTS FOR THE YEAR 1912.

THE NEW YORK HOSPITAL AND ITS PRESENT SURROUNDINGS

REPORT OF THE SUPERINTENDENT OF THE NEW YORK HOSPITAL AND HOUSE OF RELIEF.

To the Board of Governors:

GENTLEMEN:—I beg to submit the following report for the year 1912.

The cost of maintaining the New York Hospital was $11,825.14 greater than in 1911.

The pay roll was increased $5,940 by the creation during the year of a number of additional salaried positions, including the following: assistant in clinical pathology, housekeeper in Nurses' Home, X-Ray technician, general mechanic, night operating-room nurse and anæsthetist. But owing to several reductions and changes the net increase in salaries and wages was only $4,850.38.

The amount expended for nurses and attendants increased $1,859.04.

The greatest increase was in the steward's department for provisions. The quantities purchased were not much greater than in 1911, but owing to increase in prices the total cost was $5,790 greater.

The prices paid for meat, poultry, butter and eggs were much larger than in 1911. The average price paid for meat was 21% greater, for poultry 7%, for butter 14%, and for eggs 17%.

Owing to the more general use of the X-Ray in making diagnoses the expense of this department is increasing rapidly. In 1912 the increase was $1,422.

HOUSE OF RELIEF.

The expenses of the House of Relief were $1,739 greater than in 1911. This increase was due partly to the increased prices paid for provisions and partly to larger expenditures for maintenance of real estate and buildings.

The receipts from patients and ambulance service were $3,592.12 greater than in 1911.

The roof ward has been occupied for over a year and has amply demonstrated its usefulness. Ten patients are accommodated in this ward.

AMBULANCE SERVICE.

The work in this department is increasing from year to year. In 1909 the total number of calls responded to was 4,286 as compared with 6,971 in 1912. As our ambulance district has not been increased since March, 1909, this is a remarkable increase.

A fourth electric ambulance was added to the equipment of the 15th–16th Street Hospital late in the year. At the House of Relief one electric and two horse ambulances are maintained.

The City of New York began during the year to pay the Hospital for its ambulance service. Up to this time the Hospital had received no assistance from the city in maintaining this service, which is entirely free. Practically all of our calls come through police headquarters.

The average daily number of calls at the Hospital was 19 as compared with 18 in 1911, 14 in 1910, 11 in 1909, and 8 in 1908.

ADDITIONS AND BETTERMENTS.

In order to lessen fire risk the shafts of the passenger elevator in the Private Patient Building, and the elevator in the House of Relief were enclosed with wire glass, and the outside fire escape at the House of Relief was extended to the roof.

Stand pipes were installed in the Nurses' Home, and in the buildings at Nos. 14 and 16 West 16th Street.

The quarters assigned the X-Ray Department becoming cramped another room was placed at the disposal of the department. It is equipped for storing plates and demonstrating radiographs. The work in this department is increasing from year to year and the space allotted to it is insufficient.

By heating the water used in the Hospital with exhaust steam instead of live steam, and by making other minor changes, a considerable saving in coal has been effected. It is estimated that the annual saving will be about 1,200 tons.

In order to make our private service more attractive telephones were installed in all the private rooms. As this department had ten more rooms at its disposal than it had last year the work in it showed a considerable increase.

A system for signaling officers and internes was installed during the year and has proved very satisfactory. It consists of fourteen annunciator boards located in the wards, laboratories, lounging room, etc. Each board has thirty numbered drops. Each official position is represented by a number. The drops are operated by a board located in the Hospital office. As a drop falls a slight clicking sound is produced, thus directing attention to the board. The numbers are large enough to be read at a distance of from 80 to 100 feet.

PATIENTS TREATED.

The number of admissions to the Hospital was 5,619, an increase of 11 over the admissions of 1911. The number of patients treated

in the Emergency Room was 9,022, an increase of 26% over 1911.

There was an increase of over 2% in hospital days. The number of days care furnished in the private rooms was 9,407, an increase of 17% over 1911.

There was a decrease of 124 in new patients treated in the Out Patient Department, but the total visits in this department was 2,609 greater than in the preceding year.

The total number of patients treated in all departments of the Hospital, not including those treated by the ambulance surgeons, was 31,882, an increase of nearly 6%.

DENTAL CLINIC.

Through the generosity of one of the Governors a dental clinic was established in connection with the Out Patient Department. A dentist is on duty three mornings of each week from 9:30 to 12 o'clock. Adults as well as children are treated in this clinic.

The clinic was started March 28th. The number of patients applying for treatment was 244. There were 26 oral surgery operations, 24 of which consisted of opening abscesses and removing necrosed bone, and two were on fractured jaws. There were 391 treatments, 324 fillings, and 411 extractions.

HYDRIATIC DEPARTMENT.

In this department treatment is furnished to ward, private room and out patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number of treatments in 1912 was 8+ against 7+ in 1911.

The number treated during the year is as follows:

	Male.	Female.	Total.	From Wards.	From O. P. Dept.	Total Treatments.	Average Day Treatment.
January	19	15	34	2	32	137	5+
February	12	17	29	2	27	128	5+
March	18	19	37	3	34	166	6+

October	15	26	41	1	40	232	8+
November	16	27	43	..	43	216	9
December	17	23	40	4	36	213	8+
Total	226	252	478	55	423	2,318	8+

HOSPITAL BUREAU OF STANDARDS AND SUPPLIES.

This Hospital retains its membership in the Hospital Bureau of Standards and Supplies. We feel that much has been gained through the standardization of the various commodities. Considering qualities, the prices obtained through the Bureau have been very satisfactory.

GIFTS.

This Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts, while ordinarily inexpensive, have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under obligations to the Employment Society of St. Thomas' Church and the Friends' Employment Society for a large amount of sewing done without expense to the Hospital. For statistics, see Statistical Report.

Respectfully submitted,

THOMAS HOWELL,
Superintendent.

HOUSE OF RELIEF—67 AND 69 HUDSON STREET

Completed 1894

REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1912.

To the Board of Governors of the New York Hospital:

GENTLEMEN:—The number of individuals who received care and treatment during the past year was 36,700 as compared with 34,368 for the year 1911.

Of the cases treated in the Medical Wards, some of the more important diseases are here recorded together with their numbers:

Arteriosclerosis	21
Bronchitis	69
Cirrhosis liver	14
Fever, rheumatic	94
Fever, typhoid	58
Fever, malaria	34
Myocarditis	30
Nephritis	110
Pleurisy	64
Pneumonia, lobar	160
Poisoning, illuminating gas	17
Stomach, ulcer of	26
Syphilis	32
Valvular diseases, chronic cardiac	83

Of the patients treated in the Surgical Wards, some of the more important injuries and diseases are here recorded together with their numbers:

Appendicitis	400
Cholelithiasis	31
Endometritis	71
Exophthalmic goitre	38
Extrauterine gestation	13
Fractures	115
Gunshot wounds	13
Hernia	136
Pleurisy, suppurative	25
Rectum	115
Salpingitis	132
Tumors, benign	108

Tumors, malignant	99
Ulcers of stomach	26
Uterus, displacement of	54
Varicocele	30

The operative work in the main hospital has increased during the past year. In 1911, 1,894 operations were performed. In 1912, something over 2,000.

The work in the several divisions of the Out-Patient Department has been performed in a satisfactory manner. The departments of Hydro- and Thermo-therapy continue to be most useful not only to out-door patients, but also to many ward cases.

The efficiency of the X-ray Department has been greatly increased. More and better work has been done, especially in the diagnosis of diseases of the stomach and intestines. The results of past work are now easily accessible for reference and study. The establishment of a room where X-ray plates can be examined and compared, with proper illumination, has been convenient and valuable. Dr. A. H. Busby is to be congratulated upon the results of his efforts in this department.

A chronic and well founded complaint on the part of the entire medical profession is that so few autopsies are permitted. The pathological changes found in the bodies of the dead have been expressed during life by groups of signs and symptoms constituting the phenomena of disease. Correctly to transpose these signs and symptoms into terms of pathological changes in the tissues, is the whole art of diagnosis. If young men are to become good diagnosticians, they must learn to know not merely the presence of certain signs and symptoms, but also what such signs and symptoms mean. Such knowledge can only be fully acquired by the study of gross pathology. An interne on a hospital staff learns more by the careful study of one obscure case followed by autopsy, than by the study of twenty such cases where he must accept merely a clinical diagnosis, often made incorrectly by someone else.

During the past year general anæsthetics have been given (on the public side of the Hospital) by two women physicians: Doctor Alma Vedin and her assistant; in some cases also by members of the House Staff. More than 2,000 patients received a general anæsthetic. Nitrous oxide followed by ether has been the routine method.

The open drop method of giving ether has been used during the later part of the operation. Chloroform has been used a few

times. Nitrous oxide alone and nitrous oxide with oxygen have also been given in a small number of minor cases. Novacain alone, or with adrenalin has been used as a local anæsthetic in a moderate number of cases, chiefly herniae. During the year the Janeway intratracheal-insufflation apparatus has been used in 42 cases with gratifying results. The anæsthesia has been quiet and easy, the patients regained consciousness very quickly, and the after sickness has been slight. In 25 cases naso-pharyngeal insufflation has been used.

Upon the whole the employment of women doctors as anæsthetists has been an improvement upon former methods.

The continued employment of graduate nurses in charge of the wards has been and must always be of great advantage to the service. The service in the operating room has been good; this is due in large measure to the employment of three graduate nurses in charge of the work, a plan which has abundantly demonstrated its great value.

The clinical instruction of students in the wards and in the operating room has been continued during the past year. Students from Cornell and Columbia Universities have been taught. The former by Doctors Conner, Downes and Hitzrot, the latter by Doctors Pool and Turnure. During the coming year it is expected that such clinical teaching will be carried on still more actively.

Of the cases treated in the medical wards at the House of Relief, some of the more important diseases are here recorded together with their numbers:

Arteriosclerosis	53
Bronchitis	37
Cirrhosis liver	19
Fever, rheumatic	57
Fever, typhoid	21
Fever, malaria	55
Myocarditis	32
Nephritis	38
Pleurisy	33
Pneumonia, lobar	81
Poisoning, illuminating gas	26
Stomach, ulcer of	3
Syphilis	25
Valvular diseases, chronic cardiac	43

Of the patients treated in the surgical wards at the House of Relief, some of the more important injuries and diseases are here recorded together with their numbers:

Appendicitis	35
Cholelithiasis	15
Endometritis	4
Fractures	414
Gunshot wounds	39
Hernia	92
Pleurisy, suppurative	5
Rectum	27
Salpingitis	21
Tumors, benign	16
Tumors, malignant	22
Ulcer of stomach	10
Uterus, displacement of	4
Varicocele	6

Roof Ward, House of Relief.—This ward has proven to be of great therapeutic value to the surgical as well as to the medical division. Although closed from May 27th to October 24th, 109 medical patients and 52 surgical patients were treated there during the balance of the year. Research work upon the effect of cold air upon the circulation and the composition of blood was also carried out. The value of this roof ward is to be measured by the results obtained from open air treatment and these must be seen and watched to be appreciated. Suffice it to say that the improvement shown in many cases has been little short of marvellous. In the opinion of the Medical Board, everything should be done to maintain this ward in the highest state of efficiency.

Autopsies.—There were 184 deaths at the House of Relief during 1912, and 76 autopsies, a percentage of 40+. This compares very favorably with the autopsy record of 1911, which was 30 per cent. of the deaths.

It is with profound regret that we are obliged to record the resignation of Dr. Frank Hartley from the Attending Staff of the Hospital. Dr. Hartley has served as Attending Surgeon since 1892 with untiring industry and great distinction. During this period he has performed, we believe, a larger number of difficult and dangerous operations than any other member of the Attending Staff and with results unsurpassed in any hospital. We feel that this tribute may be paid to his ability without fear of contradiction. His retirement from active duty is therefore a very serious loss to the institution.

ALEXANDER B. JOHNSON,
President.

REPORT OF THE SUPERINTENDENT OF THE TRAINING SCHOOL.

To the Board of Governors of the New York Hospital:

GENTLEMEN:—I herewith submit the report of the thirty-sixth year of the Training School for Nurses.

The Staff of the Training School on duty at the close of the year is as follows:

Officers of Instruction:

Superintendent	1
Assistant Superintendent	1
Clerical Assistant	1
Night Supervisor	1
In charge of Private Patients' Building	1
In charge of Out-Patient Department	1
Operating Room Nurses (day)	3
Operating Room Nurses (night)	1
Head Ward Nurses	9
Graduate Nurses in charge of floors of Private Patients' Building	3
Matron Nurses' Home	1

Pupils:

Seniors	35
Second Seniors	18
Intermediates	20
Juniors	22

The Training School consists of ninety-five pupils distributed as follows:

Hospital Wards, public and private	73
House of Relief	12
Lying-In Hospital	6
Sloane Hospital for Women	4

During the year 1,000 applications were received and considered with the following result:

Accepted and entered on probationary duty	69
Accepted as pupils in the School	44
Resigned	16
Declined	9

The total days of illness was 672. The room in the Private Patients' Building assigned to the use of the nurses during illness was occupied 587 days, of which 317 were by graduate nurses and 270 by pupils. And I take this opportunity, in behalf of the nurses who have enjoyed the privileges of this room, to thank the Governors of the Hospital for their generosity in donating it to their use.

Thirteen years have passed since death has occurred to a pupil of the Training School, and it is with heartfelt sorrow that I have to record the death of Jane L. Osborne, a member of the Intermediate Class, who died suddenly on February 23rd, at her home in Schenectady, N. Y., where she had gone for a vacation. Miss Osborne had endeared herself to all by her personal charm and earnest devotion to her work, and the sadness caused by her loss was deeply felt. A deputation from the School attended the funeral to pay a last mark of respect to her memory.

The graduation exercises were held on Wednesday, March 4th, in the Governor's Room in the Administration Building, at which thirty-two pupils were awarded diplomas. Mr. George L. Rives, President of the Hospital, presided. Reverend Charles L. Slattery, D.D., Rector of Grace Church, addressed the pupils, many of whom were known to him personally as regular attendants of Grace Church. The address was most interesting, and the high ideals depicted were an inspiration for the best endeavor. The exercises were followed by a reception in the Nurses' Home which was largely attended by the graduates and their friends.

On May 13th, a demonstration of practical work was held by the pupils of the graduating class in the Amphitheatre, and the large audience who witnessed it showed much enthusiasm while the different methods used in the Hospital were demonstrated.

A series of monthly lectures has been established for the benefit of the graduate nurses engaged in the hospital work. These are given by representative specialists and have proved a most successful undertaking.

We extend our hearty thanks to all those who have advanced the development and helped to maintain the efficiency of the Training School.

Respectfully submitted,

ADELINE HENDERSON,
Superintendent Training School.

NEW YORK HOSPITAL—Nurses' Home

Suite of Rooms

REPORT OF THE SOCIAL SERVICE DEPARTMENT.

The Social Service Work of the nurses connected with the tuberculosis and children's clinics, Out-Patient Department, was combined in August with the work done under the name of "Convalescent Relief," making one department, with a nurse in charge.

Miss Irene Sutliffe still continues her work and interest. The Association of Tuberculosis Clinics offered in October a nurse, temporarily, to reorganize the work for children of tuberculous parents. This offer was accepted and good work in that direction is being done.

An Auxiliary, with Mrs. Arthur Iselin, President, and Mrs. Cornelius N. Bliss, Jr., Secretary and Treasurer, has been formed to aid the work of this department. Its assistance has been most valuable. Funds for this work have in part been provided for this year by the Governors, and the rest raised through the Auxiliary by annual dues and donations.

Thanksgiving dinners were given to forty-five families, and Christmas dinners to forty families. Christmas Day a tree and entertainment were provided for the children connected with the department. Candies and gifts were distributed to about three hundred children. Clothing was also given to seventy-five needy persons.

The following is a statement of the work during the year, including all divisions:

Visits made to patients, institutions, etc		3,467
Referred to co-operative agencies		180
Sent to convalescent and fresh air homes		918
Sent to tuberculosis hospitals and sanitoria		61
Clothing given to		189
Eggs dispensed	dozen	2,051
Milk dispensed	quarts	8,688

Respectfully submitted,

HANNAH LOUISE JOSEPHI,
(*In Charge.*)

THE SOCIETY OF THE NEW YORK HOSPITAL.

REPORT OF THE MEDICAL SUPERINTENDENT OF BLOOMINGDALE HOSPITAL, WHITE PLAINS, NEW YORK.

To the Board of Governors:

GENTLEMEN:—The following report of Bloomingdale Hospital for the year ending December 31, 1912, is respectfully submitted:

BLOOMINGDALE ASYLUM—1821

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

ADMISSIONS.

The number of cases admitted during the year was 156, of which 80 were men and 76 were women. Twenty-five of the men and thirty of the women were received as voluntary patients. The number of persons admitted was 5 less than the number of cases, 2 men and 3 women having been discharged and admitted for a second time before the end of the year.

One hundred and twenty of the cases admitted of whom 65 were men and 55 women, were suffering from a first attack. Fifty-nine cases were admitted 3 months or less after the beginning of the disorder, 17 between 3 and 6 months, 12 between 6 and 12 months, and 68 more than a year.

DISCHARGES.

The number of patients discharged was 175, of which 80 were men and 95 women. Forty-five of the cases discharged had recovered, 16 were much improved, 29 were improved, 27 were unimproved, and 22 died. Thirty-six were transferred to other institutions for the insane.

Of those who were recovered, 22, of whom 8 were men and 14 were women, had suffered from a first attack; 6, of whom 1 was a man and 5 were women, from a second attack; 9, of whom 4 were men and 5 were women, from a third attack; 4, of whom 3 were men and 1 was a woman, from a fourth attack; 3, of whom 2 were men and 1 was a woman, from a fifth attack; and 1, a woman, recovered from a ninth attack.

The average duration of the disorder from its onset to discharge of the patient from the hospital recovered was 15 months and 23 days; the average duration of hospital treatment was 9 months and 19 days; and the average duration before admission was 6 months and 4 days.

Of the 45 cases who were discharged much improved and improved, eventual recovery seemed probable at the time of discharge in 6 cases, and 2 of these are known to have since recovered.

The percentage of recoveries based on the admissions was 29 per cent:—for the men 22 per cent, and for the women 35 per cent. Twelve of the men and 13 of the women who recovered had been admitted as voluntary patients.

The number of deaths was 22, 16 men and 6 women. This was 4.11 per cent of the total number under treatment during the year, and 12.57 per cent of the total number discharged. Autopsies were held on 13 of the patients who died, this being 59 per cent of the deaths. The causes of death were as follows:

Men:

of general paralyses	6

of diabetes and cardiac asthenia	1
of spinal sclerosis and colitis	1
of exhaustion psychosis	1

MEDICAL ACTIVITIES.

The medical staff was increased by two additional members during the year, and the facilities for treatment were improved. In consequence there was some increase in efficiency in the methods of study and treatment of the patients. In addition to the regular semi-weekly staff conferences, which are given up to the presentation and consideration of individual cases, a number of special conferences have also been held for the consideration of administrative questions, or for the discussion of set topics with frequently the reading of papers. To some of these conferences the physicians living in the vicinity of the hospital were invited, and a number attended. In May, one of the regular meetings of the Medical Society of the County of Westchester was held at the hospital, which was well attended. We are indebted to Professor Hoch, Dr. Dunlap, and Dr. Lambert of the New York State Psychiatric Institute, and to Dr. Kennedy of the New York Neurological Hospital for their aid in making these meetings successful and useful.

The laboratory work has been continued as heretofore under the direction of Dr. Amsden. In addition to working up the autopsy material and attending to the usual clinical work, systematic analyses of the drinking water has been made, and repeated examinations of the milk from the hospital dairy. Bacteriological examinations of the water and of the milk have been made at the laboratory of the New York Hospital. For these and for much helpful advice in regard to safeguarding the water and the milk supply, we are indebted to Dr. Elser.

BLOOMINGDALE ASYLUM, 1881

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

The sanitary condition of the hospital has been quite satisfactory during the year. There has been no case of epidemic disease. Two cases of tuberculosis were transferred to other institutions where special provision for the separate care of such cases was available, and, at the close of the year there is no known case of this disease among the patients. As an additional precaution against any possible danger from water-borne disease, arrangements have been made for distributing separately to all the dining-rooms, the kitchen, and to the ice-making plant the water from the deep-driven well, which is practically entirely free from bacteria of any kind. For furnishing sanitary milk, a small well equipped milk house has been erected in connection with the hospital dairy.

Ten serious surgical operations were performed on patients during the year. For the operations six of the patients were transferred to the New York Hospital or to the White Plains Hospital. Six patients suffered from accidents which resulted in fractures. Considerable minor operative surgery has also been attended to. The need of better facilities for surgical work at the hospital is clearly apparent, as it is not always advisable or even safe to transfer patients suffering from surgical conditions to other hospitals.

The tubs for prolonged baths which were installed during the year have furnished a useful addition to the therapeutic resources. The connection which was made with the White Plains Water Supply System rendered it possible to continue the use of the prolonged baths and other hydrotherapeutic measures during the summer drought.

The use of handicrafts and other occupations in treatment has been somewhat extended during the year. An assistant to Mrs. Amsden was employed, and her services have been devoted principally to instructing patients who are not well enough to go to the workrooms. The average number of women employed or under training in some handicraft daily was 125, being 77 per cent of the average daily number of women patients in the hospital. Workrooms for the men were also opened. An instructor was secured early in the year but after a few weeks he resigned to accept a position in the University of Porto Rico. He was succeeded by a Mr. R. Ellinger Blithe, who had previously been superintendent of the Preparatory Trade School in New York City. The rooms for the men are equipped for joinery, basketry, rug making, brass hammering and piercing, leather work, jig-sawing, broom making, and chair caning. Although they have been in operation since September 1st only, the average number of patients employed daily has steadily increased so that, at the end of the year, it is 25. The growth of the work in applying in the treatment of the patients,

the wholesome effect of employment at simple and interesting manual work has gone beyond the space available for workrooms for either the men or the women. During the fine weather a party of men, sometimes as many as twenty, has found pleasant and healthful occupation on the lawns and in the shrubbery.

The use of physical training as a treatment measure has been placed on a more efficient footing during the year. Instructors who devote their whole time to the work have been employed. For the women, Miss Gratia Eldridge, a graduate of the Teacher's College of Columbia University, was employed, and for the men, Mr. Peter Petterson, who had previously been an army officer. The work in the women's service has been carried on for a longer time and has been more fully developed than the work among the men. Measurements are made and records kept of the progress of the physical condition of the patients. The gymnasiums are used during the winter months and for the rest of the year the grounds furnish ample opportunities for outdoor games as well as for more formal exercises.

Disorders of the mouth and teeth have as heretofore been attended to by Dr. D. Austin Sniffen. The work has been more extensive than during the year preceding, as systematic examinations were made of all the patients and their mouths kept in sanitary condition. One hundred and sixty different patients were examined and 672 treatments were given.

THE NURSING SERVICE.

The average number of persons employed daily in the nursing service for the men and women patients was 136, half of the number being men and half were women. One hundred and twenty-three men and 60 women entered the service during the year and 121 men and 65 women left. Included in the nursing service were a number of persons who were employed only in domestic work connected with the care of the patients. Hereafter these will be placed in a separate group, as they can scarcely be properly regarded as engaged in the actual care of the patients. In September, the position of Superintendent of Nursing, for which provision had been made in the budget pay-roll adopted by your Board, was filled by the appointment of Miss Adele S. Poston. Miss Poston is a graduate of the Training School for Nurses of the Passavant Memorial Hospital of Jacksonville, Illinois, and for five years previous to her appointment at Bloomingdale Hospital had been Superintendent of the Training Schools connected with the State Hospitals of Illinois. Since her appointment, courses of instruction for all who enter the nursing service have been organized. The two years' course

BLOOMINGDALE HOSPITAL

DEPARTMENT FOR MENTAL DISEASES

WHITE PLAINS, NEW YORK

Completed 1894

has also been continued, and plans have been made for a three years' course, part of which will be spent in general nurse training and experience, and those who complete it will be given a diploma.

On May 20th a number of the Governors and some of the Medical Staff of the New York Hospital visited the Hospital and joined with the members of the Bloomingdale Committee in the closing exercises of the training school. Certificates were given to one man and four women who had completed the course and passed the examinations required. An interesting and helpful address was made by Dr. Stewart Paton of Princeton.

IMPROVEMENTS IN EQUIPMENT AND PLANT.

A special appropriation of $100,000 for extraordinary improvements and renewals, which was made by the Board of Governors, was apportioned by the Bloomingdale Committee as follows:

Two Nurses' dining-rooms	$20,000	
Laundry Equipment	12,000	
Electric Lighting	30,000	
Garage	5,000	
Milk House	3,000	
Kitchen Floor	2,000	
Improvement of Employees' Quarters	13,000	
Furniture and Carpets	10,000	
Extra Painting	3,000	
Alteration to balconies	2,000	$100,000

Considerable progress has been made in carrying out the work specified. One of the dining-rooms for nurses will soon be completed. This will serve an extremely useful purpose by providing a place for nurses' meals apart from the other employees of the hospital. The laundry has been re-equipped and has been increased in efficiency with a reduced labor cost. The electric wiring has been overhauled and any danger from fire due to defects has been removed. A new dynamo and engine have been purchased. The milk house has been completed. A contract has been placed for replacing the kitchen floor. The employees' quarters on the fourth floor are being plastered and in other ways made more sanitary and comfortable. Much painting has been done both inside and outside, and some new carpets and furniture have been purchased with a view to increasing the comfort and suitability of the patients' halls and apartments. The balconies of Halls 7 and 8 are being overhauled for the purpose of permitting more light to enter the rooms looking out on them and of opening them more fully to the air.

In addition to the improvements made possible by the special appropriation, several less expensive improvements were made out of the current funds. The fire protection of the hospital was improved by adding to the equipment a forty gallon chemical extinguisher on wheels, an additional hose cart, a large number of portable extinguishers and a hose rack for the standpipes. Fireproof doors for the elevators and in the basements between the different sections of the building have been provided for. The fire department has also been reorganized and frequently drilled in the use of the apparatus. The patients and employees are also exercised weekly in leaving the buildings in an orderly and expeditious way on signal. The front portico has been waterproofed and the terra-cotta railing renewed. The laboratory has been improved structurally and some new equipment added. A small psychological laboratory has been fitted up. The medical books are being brought together in a suitable room which is being fitted up as a library for the medical staff and for physicians living in the vicinity of the hospital who may wish to use it. A pipe line was laid connecting the hospital with the White Plains Water System. The hot water supply of the hospital was improved and made more economical. Five tubs suitably equipped for the administration of prolonged baths were installed. The transportation facilities were improved by increasing the efficiency of the automobile service.

FINANCIAL AND GENERAL.

The total number of patients who were under treatment during the year was 535. Forty-five of these were cared for without charge, and 182 paid the hospital less than the average weekly per capita cost of ordinary maintenance. These 182 patients constituted 43.8 per cent of the total number treated and the cost to the hospital for their care and treatment was $63,592.76, which was equivalent to the expense of maintaining 80 free beds at an average cost of $14.91 per week, which was the average weekly expenditure required for the care of each patient under treatment during the year. This per capita expenditure includes the cost of maintenance for the properties at White Plains and Rye Beach, salaries and wages, supplies, ordinary repairs, and all other ordinary expenses. It does not include the expenditure for extraordinary renewals and improvements which were made from special appropriations, nor does it include expenditures for special or exclusive nursing which was specially paid for by individual patients. This is the method which has heretofore been employed in figuring the per capita cost. If, however, the expenditure for special nursing, which was really a charge to ordinary maintenance, be included,

BLOOMINGDALE HOSPITAL

DEPARTMENT FOR MENTAL DISEASES

WHITE PLAINS, NEW YORK

Front, Showing Administration Building

the average weekly per capita cost was $16.57. The number of patients who paid less than this amount was 298, or 55+ per cent of the total number treated, and the cost to the hospital for their support in excess of what they paid was $83,917.53, which was equivalent to the support of 96 free beds instead of 80. The John C. Green Memorial Fund brought in an income of $7,697.25, which was used in accordance with the terms of the gift in the support of 46 women.

The income received from the patients who are fully paid for is of immense value in enabling the hospital to maintain a higher standard of treatment for all the patients than would otherwise be possible. In the application of its funds to the relief of those who are unable to pay the full cost or who must be cared for without charge, the highest good can be accomplished in the treatment of as large a number as possible of patients who are suffering from conditions in which cure or at least restoration to home and some measure of efficiency can be reasonably expected. This policy has been aimed at in carrying on the work of the hospital during the year. As room was required for new patients, the removal of many who were past the stage in which improvement could be expected was requested. In a number of instances the patients removed were transferred to the State Hospitals. The need of applying private benevolence to providing simply humane care for insane persons is not now as great as it was when the Society first undertook the treatment of this class of sick persons. There were then and for years afterwards, no public institutions for the insane, and the only place in the State where hospital treatment for persons suffering from a mental disorder could be obtained was the New York Hospital and later Bloomingdale Asylum. Now, however, there are fourteen State Hospitals where free care and treatment can be obtained by any citizen of the State who may be in need of it. What private benevolence can still do to good purpose is, however, to provide for a high grade of treatment for many cases in which the circumstances are such that private rather than public care is clearly indicative irrespective of the ability of the patient to pay for it either entirely or in part. In providing for this class of cases, the hospital is performing an important social service. There is also great need for the application of private funds to the solutions of the problems of cure and prevention of mental disorders, and private hospitals with liberal resources are needed to supplement the excellent work of the State Hospitals which is likely to be limited by the necessity of providing for mere numbers and by the changes and defects of public administration.

NEEDS OF THE HOSPITAL.

The needs of the hospital which were enumerated in the report of last year were, as shown by what has been stated in this report, in many instances promptly provided for by your Honorable Board. Among the most important of those which remain are the detached home for the members of the nursing force, a new gymnasium and work-shops for the men patients, and some new buildings for the separate treatment of voluntary and convalescent patients. Needs involving less expenditures have been from time to time brought to the attention of the Bloomingdale Committee and have as far as possible been provided for from the current funds. Many renewals and much overhauling are still needed to place the buildings and equipment in condition to meet the present requirements of institutional work.

The usual weekly dances and entertainments were given during the winter months. From May until October the cottage at Oakland Beach was open and parties went over daily by automobile. Suitable patients remained at the cottage for varying periods and much benefit was derived from the seaside life. The launch was in commission most of the summer. Religious services were conducted as usual by the Chaplain, Rev. Frederick B. Van Kleck, and his assistants. The death during the year of the Rev. William L. Evans, who had for ten years officiated at most of the services, occasioned much sorrow and regret.

The following changes in the Medical Staff have occurred during the year: Dr. Sanger Brown II. was appointed Assistant Physician on June 12, 1912. Dr. Evelyn Dickinson was appointed Medical Interne on June 13, 1912 and resigned on November 7, 1912. The position was filled by the appointment of Dr. T. S. Keyser, to take effect January 1, 1913.

I am much indebted to the members of the Medical Staff and to the officers and employees generally for the hearty and efficient co-operation which they have given in the administration of the hospital, without which all my own efforts would have been in vain.

The sympathetic and wise supervision and direction of the Bloomingdale Committee and the generous support which has been given by your Honorable Board has gone far to make the task of the Medical Superintendent comparatively easy and pleasant.

Respectfully submitted,

WILLIAM L. RUSSELL,
Medical Superintendent.

REPORT OF THE CAMPBELL CONVALESCENT COTTAGES, WHITE PLAINS, N. Y.

To the Board of Governors:

GENTLEMEN:—The following is the report of the women and children's service for the year 1912.

The number of children during the past year shows an increase over any previous year. There were many interesting cases and happy recoveries. Almost any city child would be benefited to some extent by a stay in the country, but the children we have received in the past have not been merely poor or pitiable, but physically in need, making the medical attention given them open to good result.

Dr. L. B. Chapman (New York Hospital), now resident in White Plains, was appointed to the position of Attending Physician, to succeed Dr. H. E. Schmid, who had resigned. Dr. Chapman's natural understanding of our own hospital, and his co-operation with it, add to the efficiency of our service in the Cottages.

Contagion occurred several times during the year. Arrangements have been made with the Board of Health by which we are permitted to transfer our cases of diphtheria and scarlet fever to the Willard Parker Hospital, and cases of measles to the Riverside Hospital, or to the Kingston Ave. Hospital, Brooklyn. The cases of chickenpox and of clinical diphtheria, which would not have been considered suitable cases for a contagious hospital, were cared for in our own isolation cottage.

While we have been more unfortunate in the matter of contagion than in former years, we have employed more minute precautionary methods than ever before. We are told that our system of examining and admitting children is more exacting than in other convalescent homes. Other institutions have reported more contagion than usual, and if ours appears to have had the largest share, it must be borne in mind that contagion is less active during the summer months, and ours is one of the few convalescent homes for children which are open the entire year. Also, our circulation of children is constant, many admissions being made every week.

In locating and preventing the spread of contagion, our pathological work is sometimes no small consideration. Our ordinary examinations are made by Dr. George S. Amsden, who has charge of the Bloomingdale laboratory, and who undertakes as much of our emergency work as possible, the remainder being sent to our own hospital laboratory.

CAMPBELL CONVALESCENT COTTAGES, PLAY GROUND—White Plains, New York

The summer season was protracted into the autumn months, so that the children have had long days of outdoor life. Basketball —on a mild scale—is played on what was the nurses' tennis court, and the flower gardens of the past were used to grow the children's vegetables, which matured and were used on the patients' tables.

The summer school is of a lighter nature than in winter, and during July and August includes nature-studies, hygiene and gardening. In connection with the hygiene, it seems well worthy of mention that a little girl of ten years, remembering what she had learned, was able to restore to life her young brother and sister, who were at the point of death from asphyxiation by gas.

The most important improvement added to the Cottages during the year has been the installing of a fire equipment, which included fireproof doors in the cellar, hydrants in front and rear of the Cottages, fire extinguishers, electric gongs, and connection with the Bloomingdale stables and the flats occupied by the farm hands.

While there have been fewer admissions among the women patients than last year, an increased number have remained longer than the specified two weeks. Many of the women require so much treatment, and spend so many days in bed, that they have barely begun to convalesce properly at the expiration of the fortnight. Others have improved very satisfactorily in the same time.

The women's convalescence presents obstacles unknown to the children. They are not so amenable to advice or instruction, and their ailments are much more difficult to treat. As for actual care and nursing, the women's department is a very busy one, many chronic cases requiring constant nursing and care.

The friends of the Cottages are increasing in number, and we wish to thank all those who encourage and assist us—particularly the Bloomingdale Committee, whose support and advice throughout the year, and whose kindness to our children at Christmas are greatly appreciated.

Respectfully submitted,

ALICE C. ELLISON,
Assistant Superintendent.

List of Donations for 1912.

Mr. Howard Townsend	$10.00 for Christmas.
Mr. Waldron P. Brown	$10.00 for Christmas.
	Yearly subscriptions for nine magazines for nurses.
Mr. Richard Trimble	Wire for court-yard fence.
Mr. Frank K. Sturgis	$10.00 for Christmas.
Mr. David B. Ogden	Christmas toys.
Dr. Wm. L. Russell	Easter plants.
Mrs. Frank K. Sturgis	Christmas cards for children.
Miss H. V. C. Ogden	Christmas toys.
Mrs. L. B. Chapman	Christmas toys.
Mrs. George S. Amsden	Clothing.
Miss Blanchard	Clothing.
Miss Hearn	Clothing.
Mrs. Longstreet	Woollen slippers for children.
Mr. T. F. Clowes	$10.00.

GOVERNORS

OF

THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the first of January, 1913, with the date of their respective elections and the length of time they continued in office:

Governors.	Elected.	Resigned.	Served the Institution.	
A.				
Charles Ward Apthorp	1770	1784	14 years	
William Axtell	1770	1784	14 years	
John Alsop	1784	1788	4 years	
Gilbert Aspinwall	1799	1809		
Gilbert Aspinwall	1811	1812	15 years	Died in office, 1819.
Gilbert Aspinwall	1815			
John Atkinson	1800	1809	9 years	
John Aspinwall	1814	1817	3 years	
John Adams	1818	1854	36 years	
Stephen Allen	1823	1830	24 years	Died in office, 1852.
Stephen Allen	1835			
Augustine Averill	1848	1857	9 years	
John Jacob Astor	1860	1864	4 years	
George W. Abbe	1877		2 years	Died in office, 1879.
William W. Astor	1879	1882	3 years	
James W. Alexander	1904	1905	1 year	
B.				
Gerardus William Beekman	1770	1777	7 years	
George Bowne	1770	1784	26 years	
George Bowne	1785	1797		
William Bayard	1777	1784	9 years	
William Bayard	1800	1802		
Robert Bowne	1784		34 years	Died in office, 1818.
Aaron Burr	1784	1792	8 years	
James Beekman	1785	1787	2 years	
Theophylact Bache	1785	1797	12 years	
Thomas Buchanan	1785	1800	15 years	
Francis Basset	1785	1787	2 years	
William Backhouse	1787	1792	5 years	
Nicholas Bayard	1794	1798	4 years	
John Barrow	1795	1807	12 years	
Samuel Bowne	1796	1797	1 year	
Walter Bowne	1800	1805	5 years	
Dr. Samuel Bard	1801	1802	1 year	
Rev. Abraham Beach	1801	1806	5 years	
Thomas Buckley	1802	1842	40 years	
John Bogert	1804	1817	13 years	
John L. Bowne	1810	1815	5 years	
Abraham Barker	1813	1816	3 years	
Robert H. Bowne	1815	1827	12 years	
William Bayard, Jr	1818	1823	5 years	
John L. Buckley	1842	1855	13 years	

Governors.	Elected.	Resigned.	Served the Institution.	
James W. Beekman	1850	1854	23 years	Died in office, 1877.
James W. Beekman	1858			
Nathaniel P. Bailey	1858		33 years	Died in office, 1891.
James M. Brown	1861		29 years	Died in office, 1890.
Theodore B. Bronson	1864	1868	4 years	
James H. Banker	1869	1876	8 years	
James William Beekman	1884		24 years	Died in office, 1908.
Cornelius N. Bliss	1885	1899	14 years	
Cornelius N. Bliss	1901	1908	7 years	
George S. Bowdoin	1887	1903	16 years	
Waldron Post Brown	1887		26 years	Continues in office.
Thomas H. Barber	1898	1903	5 years	
George F. Baker	1899		14 years	Continues in office.
Charles S. Brown	1904		9 years	Continues in office.
Henry G. Barbey	1909		4 years	Continues in office.
Cornelius N. Bliss, Jr	1909		4 years	Continues in office.
C.				
David Clarkson	1770	1777	7 years

PROPERTY
OF THE
NEW-YORK
SOCIETY LIBRARY

LEGACIES TO THE HOSPITAL.

The Hospital has been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following clause, however, may be suggested:

"I give to THE SOCIETY OF THE NEW YORK HOSPITAL the sum of.....dollars."

If land or any specific personal property such as bonds, stocks, &c. is given, a brief description of the property should be inserted instead of the words "the sum of.....dollars."

NEW YORK HOSPITAL.—Broadway, opposite Pearl Street

Opened for Patients January 3, 1791

TO THE LEGISLATURE OF THE STATE OF NEW YORK

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1913, as required by law.

NEW YORK HOSPITAL AS IT APPEARED IN 1869

ANNUAL REPORT

OF THE

GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1913

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III., the Governors of the Society of New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the department for the treatment of mental diseases, known as Bloomingdale Hospital, and the Convalescent Cottages at White Plains, Westchester County.

The following condensed financial statement shows the need of the Society for increased means, if it is to continue its charitable service to the public upon the same scale as heretofore:

Current expenditure, 1913	$709,265.82
Current income, 1913	670,650.35
Excess of current expenditure	**$38,615.47**
In addition, the Society has expended for necessary repairs and renewals and permanent improvements during the year 1913	**57,269.32**
Total excess of expenditures	**$95,884.79**

The corresponding figures for the two preceding years are as follows:

Total excess of expenditures, 1912	$86,602.34
Total excess of expenditures, 1911	96,270.72

The excess of expenditures over receipts in the three years amounts therefore, to $278,757.85.

The amounts which have been charged as above during three years to the cost of necessary repairs and renewals and permanent improvements, include some additions to the fixed plant of the Society—especially the purchase of an additional house in Sixteenth Street for housing nurses, and the summer cottage near Rye Beach for the use of inmates of the Bloomingdale Hospital. But the greater part of such expenditures has been made for the purpose of bringing the several hospital buildings up to modern standards. The main building on Fifteenth Street dates back to 1877; the Hudson Street Hospital and the Bloomingdale Hospital to 1894. These structures were among the very best of their day, but there have been vast improvements in hospitals since that day, and extensive renovation is a necessity in all buildings twenty or thirty years old. More thorough protection against fire, modern electric wiring, and better opportunities for fresh air treatment of the sick—both in Westchester County and in the City—are some of the objects on which it has been absolutely necessary to spend large sums; and still more must be spent in order to bring our extensive plant up to the requirements of the present time.

The ordinary current expenses of management also continue to grow, in spite of the most careful attention to economy on the part of our Superintendents. The increase appears to be due to a variety of causes—among which may be noted the growing cost of food and other supplies, and the greater amount of relief which is every year afforded by this Society to those who are sick in body or mind.

The number of individuals who received care and treatment in all departments during the past year increased to 67,490, the largest figure in the history of the Society. The cases may be classified as follows:

Treated in the City of New York:

In Wards and Private Rooms	18,484
In Out-Patient Departments	39,888
Treated by Ambulance Surgeons but not brought to the hospitals	7,753

Treated in Westchester County:

In the Psychopathic Department	504
In the Convalescent Homes	861
Total	67,490

It should be explained that the persons treated in Westchester County are largely sufferers from chronic mental diseases or are convalescents spending several weeks in the country. The number

NEW YORK HOSPITAL—West Fifteenth Street

Completed 1877

of days treatment would therefore show a much larger percentage in Westchester County than appears from the foregoing statement.

It is also proper to call attention to the fact that of the 67,490 persons cared for in all departments, 64,422, or 95 per cent., were treated free (persons in the Out-Patient Departments, however, pay a nominal price for drugs and dressings supplied).

Considering the vast number of persons cared for, the urgent necessity for extensive renewals in our buildings, and the constantly increasing cost *per capita* of meeting the needs of those who come to us for treatment, we are again compelled to urge upon the public the claims of this ancient charity. We shall probably again expend in the present year nearly a hundred thousand dollars more than our current income; and we repeat that if we are to continue to perform our full duty to the sick and needy, and are to improve to the utmost the many opportunities for public service which lie before us, additional means are imperatively necessary.

The Governors of the Society will welcome and gratefully acknowledge gifts in any amount, whether in the form of legacies or otherwise.

During the past year over 12,000 Ambulance calls were answered, the largest number of any Hospital in the city.

During the year, a donation of Five Thousand Dollars was received from Harrison E. Gawtry, for endowing in perpetuity a bed in the hospital in memory of his wife, Louise Brown Gawtry.

GEORGE L. RIVES,
President.

HENRY W. CRANE,
Secretary.

TOWNSEND AND DIX, *Accountants.*

NEW YORK, January 29th, 1914.

EDWARD W. SHELDON, *Treasurer.*

CORNELIUS N. BLISS, JR., AUGUSTINE J. SMITH, ARTHUR ISELIN, } *Auditing Committee*

REPORT OF THE SUPERINTENDENT OF THE NEW YORK HOSPITAL AND HOUSE OF RELIEF.

To the Board of Governors:

GENTLEMEN:—The cost of maintaining the New York Hospital in 1913, was $260,549.71 against $266,137.88 in 1912, a decrease of $5,588.17.

The cost of maintaining the House of Relief in 1913, was $54,-154.97 against $54,399.26 in 1912, a decrease of $244.29.

At the New York Hospital the total receipts from patients, special nurses, ambulance service, sales, etc., during 1913, were $1,229.37 larger than during the preceding year. The income from private patients fell off $1,946.70.

The activities of the Hospital during 1913 were greater than in any preceding year. The number of admissions to beds was larger than in 1912 by 343 or 6%, but owing to the shorter average stay—13 days in 1913 compared with 14 days in 1912—the total number of days' board and care furnished was 1,471 less.

In the Out-Patient Department there was an increase in visits of 2,245.

In the Emergency Department 9,812 patients were treated compared with 9,022 in 1912, and 7,135 in 1911.

The demands on the Social Service Department are becoming greater each year. There are now four paid workers in this Department.

There are now over 100 pupils in the Training School Department. This Department is doing excellent work and we are constantly receiving inquiries from other institutions for graduates to fill executive positions.

AMBULANCE SERVICE.

The work in this department again shows an increase. In 1909 the New York Hospital responded to 4,286 calls, in 1910 to 5,237 calls, in 1911 to 6,530, in 1912 to 6,971, and in 1913 to 7,509.

The ambulance work at the House of Relief continues about the same year after year. In 1913, 5,005 were responded to, and in 1912, 5,232.

We now have seven electric and two horse-drawn ambulances, two electrics having been purchased during the year from the Presbyterian Hospital.

The average daily number of calls responded to from the New York Hospital was 20+, and from the House of Relief, 14.

ADDITIONS AND BETTERMENTS.

As the laboratory, X-Ray and supplies departments were becoming cramped it was decided late in the year to take the necessary steps toward increasing and modernizing them. The plan adopted calls for the occupation of the first floor of the help's dormitory by the X-Ray Department, the second floor by the laboratory, and the third floor by the sewing, bandage making and record departments.

The supplies department will be transferred to the basement of the Nurses Home.

Two residences on the north side of 16th Street, opposite the Hospital, have been leased and will be used for housing nurses. Nos. 14 and 16 West 16th Street, and the ninth floor of the Private Patient Building, now occupied by nurses, will shortly be turned over to the female help now living in the help's dormitory.

In order to facilitate the transportation of clothing to and from the laundry two galvanized iron chutes were installed leading from the wards to the courtyard, and a bridge was constructed connecting the isolation ward elevator and the laundry building. Connection by means of doors was made between wards O and M and the laundry building. Not only do these changes render the work of transporting clothing to and from the laundry much more simple, but they would be of great service in case of fire in either the Hospital building or the help's dormitory.

A tile floor was laid in the waiting room in the office building.

A flight of marble steps was constructed in the operating room.

Part of the lobby between wards G and H was partitioned off to provide a teaching room for medical students.

A fire alarm system was installed at the House of Relief and a fire expert engaged to conduct weekly drills.

A room was built over the ambulance driveway at the House of Relief and is used by the nurses as a dressing room. The room formerly used for this purpose by the nurses was made a part of the private patient room, which was too small.

A large amount of painting was done both at the House of Relief and the 15th and 16th Street Hospital.

Two large metal washers, three over-driven extractors, and a small mangle are being installed in the laundry. The old equipment, which had been in constant service for about fifteen years, had become badly worn and unfit for further service. The equipment is now thoroughly up-to-date. The work of this department has increased greatly in recent years. At present about 7,000 pieces pass through the laundry daily.

It was noted in last year's report that by heating the water used

in the Hospital with exhaust steam, and by making other minor changes in the heat, light and power plant, a considerable saving in coal was anticipated. The results have proved the prediction well founded.

In 1913 our consumption of coal was 4,060 tons as contrasted with 5,521 tons in 1911.

INCLUDED IN CITY BUDGET.

The Board of Estimate and Apportionment of the City of New York has included the New York Hospital and the House of Relief in the Municipal Budget for the year 1914.

This means that the City will pay the Hospital for caring for certain sick and injured persons. The rates fixed by the City are $1.10 a day for medical cases, $1.25 a day for surgical cases, and 45 cents a day for children under five years.

HYDRIATIC DEPARTMENT.

In this department treatment is furnished to ward, private room and out patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number of treatments in 1913 was 8-|-, the same as last year.

The number treated during the year is as follows:

	Male.	Female.	Total.	From Wards	From O. P. Dept.	Total Treat-ments	Average Day Treat-ment.
January	16	24	40	1	39	252	9+
February	15	29	44	3	41	190	8+
March	11	26	37	2	35	198	7+
April	16	24	40	1	39	213	8+
May	8	20	28	..	28	175	6+

September	21	26	47	1	46	240	9+
October	18	25	43	1	42	166	6+
November	17	27	44	2	42	227	9+
December	23	26	49	..	49	283	10+
Total	193	299	492	20	472	2,542	8+

DENTAL CLINIC.

The dental clinic, made possible through the generosity of one of the Governors of the Hospital, is rapidly extending its work. A dentist is on duty four mornings of each week from 9:30 to 12 o'clock. Adults as well as children are treated. No charges are made. The number of patients treated in 1913 was 2,439. There were 33 oral surgery operations, 890 extractions, 801 treatments, 536 amalgam fillings, 214 cement fillings, 5 gutta percha fillings, and 162 cleanings.

GIFTS.

This Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts, while ordinarily inexpensive, have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under obligations to the Employment Society of St. Thomas's Church, the Friends' Employment Society, and the New York House and School of Industry for a large amount of sewing done without expense to the Hospital. For statistics, see Statistical Report.

Respectfully submitted,

THOMAS HOWELL,

Superintendent.

HOUSE OF RELIEF—67 AND 69 HUDSON STREET

Completed 1894

REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1913.

To the Board of Governors of the New York Hospital:

GENTLEMEN:—As will be seen from the figures given elsewhere, there has been during the year 1913 a distinct increase in the activities of the Hospital as shown by the gain in the number of patients treated in the wards and in the emergency and out-patient departments, and by the increased number of operations and of ambulance calls. In the House of Relief during the same period there has been a slight decrease in the number of patients admitted and in the number of ambulance calls.

Of the cases treated in the Medical Wards of the Hospital, some of the more important diseases are here recorded with their numbers:

Arteriosclerosis	31
Bronchitis	65
Fever, malarial	29
rheumatic	89
typhoid	73
Liver, Cirrhosis of	22
Myocarditis	23
Nephritis	103
Pleurisy	58
Pneumonia, lobar	236
Stomach, ulcer of	24
Syphilis	82
Tuberculosis, pulmonary	88
Valvular disease, chronic cardiac	128

Among the patients treated in the Surgical Wards, the numbers of the more important injuries and diseases are as follows:

Appendicitis	451
Cholelithiasis	66
Endometritis	65
Exophthalmic goitre	37

Fractures	197
Gunshot Wounds	15
Hernia	349
Pleurisy, suppurative	39
Rectum	72
Salpingitis	97
Stomach, ulcer of	20
Tumors, benign	139
malignant	114
Uterus, displacements of	53
Varicose Veins	21

The number of operations is as follows:

Operations in the main Hospital	2238
Operations in the Private Patients Building	442
Operations at the House of Relief	392

Clinical instruction in the wards and in the operating room has been given to the students of Cornell University by Doctors Conner and Gibson and their associates, and during a portion of the year these students served as clinical clerks in the medical and surgical wards. In addition, public clinics have been held for the profession in general by Doctors Murray and Gibson.

The records of the Pathological Department for the current year show a very considerable increase in almost every branch of its work and testify to the constantly growing efficiency and importance of this department of the hospital. The work has been accomplished under many difficulties because of the very cramped quarters of the laboratory and it is very gratifying to know that arrangements have been completed by which the laboratory is to be very greatly increased in area and in working facilities.

The total number of autopsies performed during the year at the Hospital and House of Relief is 158; which represents approximately 26% of the number of deaths of the two institutions.

The demands upon the Social Service Department are increasing steadily and the Medical Board welcomes the opportunity to testify to the great assistance rendered by that department in ministering to the needs of both the ward and the out patients.

Attention should be called also to the splendid results achieved in the convalescence and care of patients at the Campbell Convalescent Cottages at White Plains.

Among the cases treated in the Medical Wards at the House of Relief, the numbers of the more important and common diseases are as follows:

Arteriosclerosis	77
Bronchitis	58
Diarrhoeal diseases	37
Fever, rheumatic	48
typhoid	17
malarial	29
Gout	8
Liver, cirrhosis of	23
Myocarditis	45
Nephritis	47
Pleurisy	17
Pneumonia, lobar	71
Poisoning, by illuminating gas	25
Stomach, ulcer of	10
Syphilis	42
Valvular disease, chronic cardiac	49

Of the patients treated in the Surgical Wards at the House of Relief, some of the more important injuries and diseases are here recorded together with their numbers:

Appendicitis	43
Cholelithiasis	7
Diseases of the female genital organs	30
Fractures	463
Genito-urinary Diseases in the male	29
Gun-shot or stab wounds necessitating operation	8
Hernia	78
Intestinal Obstruction	10
Peritonitis, general	7
Pleurisy, suppurative	7
Stomach, perforated ulcer of	15
Tumors, malignant	6
benign	12
Typhoid perforations	2

The Genito-urinary clinic at the House of Relief has given 7,956 treatments, and admitted 1,267 new patients during the past year. This compares favorably with former years, although a number of night clinics for the treatment of Genito-urinary diseases have been recently organized. Since an additional room for endoscopic and cystoscopic work has been assigned to the clinic, more thorough and satisfactory work has been accomplished in all departments.

The roof ward at the House of Relief continues to benefit greatly the patients who are permitted to enjoy the open air treatment.

We are obliged to record with great regret the death of two of our most eminent consulting surgeons, Doctor Frank Hartley and Doctor Charles McBurney; both of them were distinguished and both of whom left their mark on the surgery not only of this city and country but of the world.

ALEXANDER B. JOHNSON,
President.

REPORT OF THE TRAINING SCHOOL FOR NURSES

The Staff of the Training School on duty at the close of the year is as follows:

Officers of Instruction:

Directress	1
Assistant Directress	1
Clerical Assistant	1
Night Supervisor	1
In charge of Private Patients Building	1
In charge of Out-Patient Department	1
Operating Room Nurses (day)	3
Operating Room Nurses (night)	1
Head Ward Nurses	9
Graduate Nurses in charge of floors of Private Patients Building	3
Dietitian	1
Matron Nurses' Home	1

Pupils:

Seniors	34
Second Seniors	20
Intermediates	22
Juniors	28

The Training School consists of 104 pupils, distributed as follows:

Hospital wards, public and private	81
House of Relief	13
Lying-In Hospital	6
Sloane Hospital for Women	4

During the year 953 applications were received and considered, with the following result:

Accepted and entered on probationary duty	61
Accepted as pupils in the School	50
Resigned	7
Declined	4

Five pupils resigned during the year for various reasons.

The general health of the pupils has been excellent. The total days of illness was 924, the increase over previous years being due to extended illness in three cases. The rooms in the Private Patients Building assigned to the use of the nurses were occupied 745 days, of which 480 were by graduate nurses and 265 by pupils.

The graduation exercises were held Wednesday, March 5, 1913, in the Governors' Room in the Administration Building, when thirty-five pupils were awarded diplomas. Mr. George L. Rives, President of the Hospital, presided. Mr. George P. Ludlam, Superintendent Emeritus, delivered an unusually interesting address, describing the development of the training school from its small beginning to the present time. Mr. Ludlam received a hearty welcome. His keen interest in the growth and development of the school has always endeared him to the former graduates, who were present in large numbers on this occasion. The exercises were followed by a reception in the Nurses' Home, which was attended by the graduates and their friends.

But little has transpired in the year that has just passed to differentiate it from the years that have preceded. And yet, as one looks back over these years and notes how large a place in the world's work has been filled by the pupils of our School who have finished the course here and gone out to face life' responsibilities, he cannot fail to be impressed with the thought of the potentialities resting in a body of one hundred and four intelligent, conscientious, efficient young women who are still under training and preparing themselves to meet the call to duty, from whatsoever source it may come.

Reflections like these have led to a study of the list of our graduates, with a view to classification, and the following table will answer the question so frequently asked as to what is to be the future of our pupils:

Total number of graduates	785
Died	69

NEW YORK HOSPITAL—Nurses' Home

Suite of Rooms

Those still in the work may be classified as follows:

Connected with hospitals or training schools:

Superintendents, teachers, head ward Nurses and social service workers	154

Not connected with hospitals or training schools:

Physicians	12
Heads of Social Settlements	2
Sanitary Inspector	1
State Inspector of Training Schools	1
School Teachers	3
Missionary	1
Deaconess	1

The remainder are pursuing their calling as nurses in private practice, except such as are living at home, having retired from the work, very many of whom are married.

Yet even these totals fail to carry an adequate idea of the greatly enlarged sphere of activity which awaits the trained nurse. A peculiarity of the training is that while it is primarily technical, it also exercises all the mental and moral faculties, and presents at the close a finished product in the shape of young women thoroughly competent to fill positions where expert knowledge, trained judgment, self-possession and a devotion to duty are essential qualifications.

It is gratifying to report that the dearth of applicants, so generally complained of, has not as yet been experienced by us, so we enter a new year with well grounded hopes and expectations of maintaining the high ideals and lofty aims which have ever characterized our School and contributed so largely to its success.

Respectfully submitted,

ADELINE HENDERSON,

Directress of Nurses.

AUXILIARY TO THE SOCIAL SERVICE DEPARTMENT.

Executive Committee.

ZAIDEE BLISS, *Treasurer.*

REPORT OF THE SOCIAL SERVICE DEPARTMENT

To the Board of Governors of the New York Hospital:

GENTLEMEN:—I beg to submit the following report of the Social Service Department, for the year 1913.

The past year shows not only an increase in the work accomplished, but also a growth in the co-operation between our Department and the doctors and nurses of the Hospital, which we believe to be very necessary in accomplishing the greatest good for the patients under our care.

Through the most valuable help of the Auxiliary, without which we could do very little, through conferences with them and by means of the relief fund which they furnish, we have been able to work towards, and to achieve many satisfactory results. The Auxiliary and the Department itself, strive always to work in close combination with the organized relief agencies, and from them too, we have had some splendid aid.

Considerable follow-up work has been undertaken at the request of several of the Physicians and Surgeons of the Hospital.

In January, the nurse in charge was provided with a much needed assistant. In the autumn, Miss Sutliffe took personal charge of the Social Service work at the House of Relief, filling a want long felt there.

On account of the expansion and rapid increase of the work of the Department, an additional member to the staff was provided last November, from a private source, for one year. We believe we should be forced to fall far short in both the quality and quantity of the work now accomplished in our office without the aid of this additional worker, and are therefore deeply appreciative of this generosity towards the Department.

The number of workers on the staff of the Social Service Department is at present six. This number includes the nurse at the House of Relief, the nurse of the Tuberculosis Clinic, and the nurse of the Children's Clinic.

Special dinners were given to the families of those whom illness had connected with the Hospital, at both Thanksgiving and Christmas. On New Year's Eve, a tree and entertainment were arranged for the children of the Out-Patient Department and for the children of sick patients in the Hospital. Over three hundred were present.

We wish to thank the Trustees of the Haven Fund for the sum of money given to the Superintendent of the Hospital, to be used

for cases coming for aid to this Department. It has been of invaluable assistance to us.

We wish, also, to express our thanks and appreciation to those friends of the Department who have helped our people with gifts of clothing, books, toys, etc.

The following statements of work done during the year, together with amounts of money received and spent, include all divisions of the Social Service Department:

Number of new cases		2,862
Visits made to patients, institutions, etc.		4,739
Accompanied to trains, homes		183
Referred to co-operative agencies		491
Sent to convalescent and fresh air homes		1,382
Sent to tuberculosis hospitals and sanitoria and preventoria		99
Clothing given to families		204
Eggs dispensed	dozen	2,297
Milk dispensed	quarts	9,912
Referred to hospitals and dispensaries		299
Surgical appliances and supports given to		34
Thanksgiving baskets given		43
Christmas baskets given		56
Letters written		778

THE SOCIETY OF THE NEW YORK HOSPITAL.

REPORT OF THE MEDICAL SUPERINTENDENT OF BLOOMINGDALE HOSPITAL, WHITE PLAINS, NEW YORK

To the Board of Governors:

GENTLEMEN:—The following report of Bloomingdale Hospital for the year ending December 31, 1913, is respectfully submitted:

GENERAL STATISTICS FOR THE YEAR ENDING DECEMBER 31, 1913.

	Committed Cases			Voluntary Cases.			Total Cases.
	Men.	Women.	Total.	Men.	Women.	Total.	
Remaining January 1, 1914	156	165	321	22	17	39	360
Admitted during year:							
First admissions	19	28	47	8	28	36	83
Readmissions	13	7	20	11	15	26	46
Transfers from other institutions for the insane	5	5	10	..	..	..	10
Voluntary cases committed	2	3	5	..	..	..	5
Total admitted during the year	39	43	82	19	43	62	144
Total under treatment during the year	195	208	403	41	60	101	504
Daily average population	137	153	290	21	22	43	333
Rated capacity of institution	200	200	400	..	..	..	..
Discharged during the year:							
As recovered	9	14	23	4	9	13	36
As much improved	8	6	14	3	7	10	24
As improved	7	6	13	9	3	12	25

Number at home on parole, December 31, 1913	6	8	14	4	..	4	18
Average number on parole during the year	14	8	22	1	1	2	24

ADMISSIONS.

The number of cases admitted was 144, of which 58 were men and 86 were women. The number of persons was 7 less than the number of cases. Nineteen men and 43 women, 62 in all, or 43 per

cent. of the total admissions, were received as voluntary patients. The total number of men admitted was 22 less than in 1912, and the number of women was 10 greater.

One hundred and twelve of the cases admitted were suffering from a first attack. Twenty-five cases were admitted 3 months or less after the beginning of the attack, 26 between 3 and 6 months, 17 between 6 and 12 months, and 43, or about 30 per cent. of the total number admitted, had been ill for more than a year before they were received. In view of the reluctance with which a mental hospital is utilized, some encouragement may be found in the fact that the proportion of cases received after the illness had lasted for as long a period as six months or more was 10 per cent. less than in 1912.

DISCHARGES.

The number of patients discharged was 154, of which 71 were men and 83 were women. Thirty-six of these cases were classed as recovered, 24 much improved, 27 improved, 12 unimproved, 17 died, and 33 were transferred to other institutions. Of those classed as recovered, 9, or 25 per cent., had suffered from previous attacks. The average duration of the disorder from the earliest symptoms observed until the discharge of the patient from the hospital as recovered was 11 months and 4 days. The average duration of hospital treatment of the cases discharged as recovered was 5 months, which is much less than 1912. Among those discharged as much improved and improved, there were at least 13 in whom at the time of discharge eventual recovery could be reasonably expected.

The percentage of recoveries based on the admissions was 25 per cent.—for the men, 22.4 per cent.; for the women, 26.7 per cent. The greater prevalence of general paresis among the men accounts in part for the lower recovery rate. The recovery rate was slightly less than in 1912. This is more than compensated for by the greatly increased number of cases discharged much improved and improved. In all 87 patients were discharged to their homes, and, in most instances, to some degree of social efficiency. This number is equal to 60 per cent. of the number admitted. In the treatment of the patients much attention is paid to establishing healthy interests and activities, and, in discharging them, to co-operate with the friends of the patients in finding an environment for them in which they will not be exposed to conditions which had formerly precipitated the attack or which will too much tax their powers of adjustment. In some instances patients have been aided and encouraged to find positions before they left the hospital. Discharged patients are also invited to visit the hospital occasionally or to call

BLOOMINGDALE ASYLUM—1821

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

at the New York office, and many do. This method of making the ultimate aim of treatment the readjustment of the patient as a social unit is in accordance with the Social Service methods which have been so generally adopted in hospital work, and present indications are that it can be still further applied, with advantage to the patients and to the usefulness of the hospital. The patients received at this hospital belong, as a rule, to the more intelligent classes of society. Nearly all the men are engaged in mercantile or professional work, and of the women received last year 35 per cent. were self-supporting workers. Their restoration to usefulness is, therefore, a distinct contribution to the welfare of society.

The number of deaths was 17—9 men and 8 women. This was 3.36 per cent. of the total number of patients under treatment during the year, and 10.36 per cent. of the number discharged.

MEDICAL SERVICE.

The number and character of the admissions and discharges is a fair guide to the medical activity of the hospital. The patients under active treatment require a great deal of medical and nursing attention. In no class of medical work is so much time required for the examination of a patient. The work of the medical staff has been especially hard during the year because of vacancies which could not be immediately filled. The cases have, however, been carefully studied and brought before the staff conferences, which have been held regularly twice a week and occasionally oftener. The evening conferences have been continued as during last year and have been well attended by the physicians of White Plains and vicinity. For contributions to the programs of these conferences we are indebted to Dr. August Hoch, of the Psychiatric Institute, Wards Island; Dr. Henry A. Cotton, of the New Jersey State Hospital; Dr. Arthur W. M. Ellis, of the Rockefeller Institute, and Dr. John A. Fordyce, of New York City.

Much work has been done in the laboratory during the year. In addition to the ordinary examinations of excretions, sputum, blood, etc., 1,342 Wasserman tests were made, and a number of cultures examined for the Campbell Cottages as well as for our own hospital. The water and milk have been examined as heretofore, for aid in which we are again indebted to Dr. Elser and the laboratory of the New York Hospital. Eleven autopsies were held and 580 slides made for microscopic examination. The percentage of autopsies to deaths was 64.7 per cent. The staff of the laboratory was increased by detailing one of the nurses, who also assists the dentist two days a week. For carrying on more active research in special problems

relating to mental disease, a special research fund would be of great service.

A few serious surgical operations were performed during the year, and considerable minor surgery was attended to. The more important surgical work has been done by Dr. J. Fielding Black, of White Plains. The more serious cases have, as heretofore, been transferred for operation to general hospitals. This is attended with additional expense and is not always entirely safe. A surgical operating room at the hospital would be extremely useful.

The only new treatment feature introduced during the year was the use of salvarsan by the intra-spinal serum method in the treatment of general paresis. The occupation departments have been further developed, and two men and four women now devote their whole time to the employment of the patients. The number of patients who received their attention during the year was 252, of whom 69 were men and 183 were women. The output of the departments is a guide to their activity but is not so important as the results with the patients, in whom the work may be a means of re-establishing healthy interests and activities. In the women's department 10,452 articles were made and 5,719 were mended. In the men's department 614 articles were made and 409 mended. Although many of the articles are sold, the receipts scarcely pay for the material used. In the printing shop, 5,604 pieces of printed matter were prepared. The men also did some work on the lawns and in the gardens. Some of the men and women cultivated small gardens of their own. The usefulness of the occupation departments in the treatment of patients has been fully demonstrated. The shops are, however, quite inadequate. The women's rooms are sleeping rooms which have been taken over from Hall 1. They do not furnish space enough and are not well lighted or ventilated. The men have two rooms in the gymnasium building, which are not sufficiently extensive for the growing needs. An additional workroom has, during the year, been fitted up on Hall 6. This is also a school room and is used in the treatment of a group of young patients who have been brought together in a specially arranged section of the hall for intensive treatment.

In the departments of physical education, the number of patients who received attention during the year was 271, of whom 146 were men and 125 were women. These departments have also demonstrated their usefulness. Some new equipment was added during the year. Two additional tennis courts were provided. The greatest need is for a new gymnasium for the men.

The dental work has been attended to, as heretofore, by Dr. D. Austin Sniffin, of White Plains. The individual patients attended

BLOOMINGDALE ASYLUM—1881

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

to during the year was 237, which was 77 more than in 1912, and a reduction of the number of extractions from 148 to 52 is an indication of the better condition of the patients' teeth, which has resulted from the systematic methods which were introduced last year.

The sanitary condition of the hospital has been satisfactory during the year. There has been no case of epidemic disease. The death-rate was unusually low. No case of active tuberculosis has been admitted, and the hospital has been kept almost free from this disease. The water supply has been further safeguarded by waterproofing the wells for six feet from the surface of the ground, and the water from the deep-driven well is now distributed to every dining room, to the kitchen and to the ice-making plant. The new milk house has furnished means of applying sanitary methods in handling the milk, and a bacterial count is made weekly to maintain the standard. The cows have been tested with tuberculin, and those which reacted have been disposed of. The brooks and pools about the property were cleaned and drained from time to time during the summer, and oil was spread on the lake, with a view to reducing the number of mosquitoes, of which there were, in fact, very few.

THE NURSING SERVICE.

The average daily number of persons employed in the nursing service during the year was 121, of whom 56 were men and 65 were women. Twenty-eight persons were employed as ward maids and men, pantry maids and men, and porters, in connection with the nursing service and the comfort and care of the patients and their quarters. The courses in the training school have been still further extended during the year. The affiliation with the New York Hospital training school has permitted the establishment of a three-years' course, nine months of which is to be given at the general hospital and three months at the Manhattan Maternity. Nine probationers have entered the course. The two-years' course has been continued, and at the end of the year there were 34 in the class. The school has been registered by the State Department of Education.

On May 22, the annual visit to the hospital of the Board of Governors was made, and the graduation exercises of the training school were held on the same day. Two men and 3 women were given certificates. The address to the graduates was made by Dr. William M. Polk, Dean of Cornell University Medical School.

IMPROVEMENTS IN EQUIPMENT AND PLANT.

The nurses' dining-room was completed during the year and is a source of great satisfaction. The nurses' quarters were also greatly improved by being almost completely remodelled and refurnished. The cement floor of the main kitchen was removed and replaced with tile, which is much more sanitary. The wooden tables and cupboards were removed from the kitchen and metal ones substituted. Some additional equipment was also provided. The sorting room of the laundry was enlarged. A new garage was erected. Work was begun towards remodelling the second floor of the carriage room at the stables, as quarters for the employees of the stables and farm. The iron guards were removed from all the windows of two halls occupied by patients and were replaced with fly screens, which were much more needed. The fence dividing the hospital property from that of the Burke Foundation was completed. Considerable interior and exterior painting was done during the year.

FINANCIAL.

The total number of patients who were under treatment during the year was 504. Of these, 45 were cared for without charge. This was a larger proportion than in 1912. The number who paid less than the average weekly per capita cost of maintenance was 290, being 57.5 per cent. of the total number treated. The cost to the Society of the care and treatment of these patients was $89,018.74, which is equivalent to the maintenance of 94 free beds. Of this amount $7,591.70 was received from the John C. Green Memorial Fund, which was applied, in accordance with the terms of the Memorial, to the support of 49 women. The average weekly per capita expenditure was $18.22. This includes the cost of maintenance of the properties at White Plains and Oakland Beach, salaries and wages, supplies, ordinary repairs, and all other ordinary expenses. It does not include amounts spent for extraordinary renewals and improvements for which special appropriations were made.

NEEDS OF THE HOSPITAL.

The fund of $100,000 which, in 1912, was made available for improvements will soon be entirely expended. It was applied as follows: The erection of a nurses' dining room, a garage, a dairy building, a barber shop and an addition to the laundry; the renewal of laundry and kitchen equipment and of the kitchen floor; extensive overhauling of the electric wiring and the purchase of a

BLOOMINGDALE HOSPITAL

DEPARTMENT FOR MENTAL DISEASES

WHITE PLAINS, NEW YORK

Completed 1894

dynamo and engine; the plastering, painting, plumbing and partial refurnishing of the nurses' quarters; repainting and renewing carpets and furniture in portions of the patients' quarters; improving the quarters for farm employees; improving the balconies; furnishing a filter for the lake water; additional medical and nursing equipment. By the expenditure of this fund the hospital has been made safer, more sanitary, more comfortable and attractive, and in some respects more efficient. Other uses could have been made of the fund, but those to which it was applied seemed at the time the most important. Large as it was, additional funds are needed to enable the hospital to keep pace with the steadily advancing requirements. The special fund for furniture was scarcely half of what is needed. The plumbing and toilet equipment throughout the hospital are no longer in keeping with modern standards. There is no gas on the property for use in the laboratory and for cooking. The balconies are inadequate for the application of fresh air and sunshine to the extent to which these are now used in the treatment of the sick. As the service grows in activity, the need of rearranging the halls and rooms to provide for classifying the patients in smaller groups becomes more evident. In previous reports I have referred to the need of a new gymnasium for the men, of new work shops for both men and women, of nurses' homes, and of separate buildings for voluntary patients and convalescents. A separate building or "Cure House" for the application of various physical measures of treatment, such as baths, electricity and mechanotherapy, would furnish the means of employing these measures in a more attractive as well as a more efficient manner than is possible with present facilities. Better provision for the social life of the 300 employees would add to their contentment and efficiency. The members of the nursing service organized a Club during the year and were given the use of the men's gymnasium in the evenings. This has worked out very satisfactorily, but better facilities are needed.

OAKLAND BEACH COTTAGE.

The cottage at Oakland Beach was open from June 6th to October 15th. Ninety-one parties, consisting in all of 476 patients, visited the cottage during this period, going over by automobile and remaining during the day. Boating, bathing, fishing, shore dinners and other seaside pleasures were enjoyed and much benefit was derived. The motor boat, which was placed at the disposal of the hospital by Dr. Lyon, added much to the enjoyment and benefit. Thirty-five patients remained at the cottage for several days or

longer, the average number in residence being 6. The amount received from patients for the use of the cottage and for transportation was $979.16, which is much below the cost of maintenance.

CONVALESCENT COTTAGE FOR MEN.

The cottage for convalescent men from the New York Hospital was used for nurses while their quarters at the hospital were undergoing renovation and was not opened for patients until August 18th. It was closed on November 1st and re-opened December 23rd. The number of patients admitted was 53, and the number of hospital days 660.

GENERAL.

The usual social dances and other entertainments for the patients were held during the winter months, and during the summer outdoor sports, picnic parties, drives and long walks were enjoyed. Religious services were conducted as usual by the Chaplain, Rev. Frederick B. Van Kleeck, and his assistants.

The following changes took place in the medical staff:—On May 1st, much to our regret, Dr. C. Macfie Campbell resigned from the position of First Assistant Physician to accept a similar position at the Henry Phipps Psychiatric Clinic and the position of Adjunct Professor of Psychiatry at Johns Hopkins Medical College. On October 1st, Dr. Charles I. Lambert was appointed as his successor. Dr. Lambert is a graduate in science and in medicine of the University of Iowa, and for nine years was a member of the staff of the New York State Psychiatric Institute and of the Manhattan State Hospital in New York City.

On April 1st Mr. Louis D. Ferriss, who for nearly twenty years had served acceptably in the position of steward, resigned from the position because of the condition of his health. He was succeeded by Mr. Earl R. Quackenbush, who for fifteen years had been steward of the Gowanda State Hospital at Gowanda, N. Y.

Several gifts were received by the hospital during the year, among them being an attractive clock from President Rives, a marble lawn seat, pictures for the nurses' sitting room, books, etc., all of which are gratefully acknolwedged.

To the officers and employees of the hospital who, by their earnest and efficient work, have contributed so much to the success with which the hospital has been conducted during the year, I express my acknowledgment and appreciation.

REPORT OF THE ASSISTANT SUPERINTENDENT, CAMPBELL CONVALESCENT COTTAGES, WHITE PLAINS, NEW YORK

To the Board of Governors:

GENTLEMEN:—I herewith submit the report of the Women and Children's service for the year 1913.

The number of admissions to both cottages during the year was practically the same as that of 1912, which appears to be as large a number as can satisfactorily be admitted and given a proper degree of care. It would be possible to admit a larger number of children if our work were of the nature of a summer home, which affords fresh air for a great many children during the vacation season; but, as we receive many children who require constant nursing, their length of stay necessarily depends upon their physical improvement.

With reference to the actual nursing which has been given both women and children, we feel that the past year has been the most successful, there having been many surprising improvements and unexpected recoveries. No changes have been made in the nursing staff, which fact is advantageous to the patients. Nursing convalescents is a branch in itself, and as the nurse's understanding of this work broadens, it becomes more valuable to those placed in her care, and we feel that many of our most conspicuous cases owe much of their improvement to the experienced care of their nurses.

The children's kindergarten and school continue to be a source of instruction and pleasure, and seem to be more necessary every day. The ignorance and helplessness of some of our children are amazing, and, as many children remain in the institution many weeks, such instruction as can be given them in our schoolroom is very useful. The brighter children enjoy the reading-room and can be taught to interest themselves in suitable occupations. There are great distances of intellect separating children of the same age. The winter school work is naturally different from that of the summer, and at the opening of spring the children give a little exhibition of practical work, such as basket-weaving, clay modelling, drawing and sewing. The summer gardening and rides to the beach continue to be a healthful attraction, and are remembered by many older boys and girls, who regret that they have outgrown the Cottages.

The institution was free from contagion eight months out of the year, which is a fortunate circumstance, considering that our children's department is a constantly changing scene, new cases being admitted every week.

IMPROVEMENTS AND REPAIRS.

During the year there were planted additional shade-trees and flowering shrubs. These will not only provide pleasant shade for the children on warm, summer days, but will also contribute their foliage towards beautifying what was originally an uncultivated field, but has been gradually developing into attractive grounds.

A considerable amount of painting was done during the year, including the exterior woodwork of the Cottages and the iron fence. The front road was remade upon a firmer and more level bed, and a new road was laid from one end of the institution to the back road, for the use of heavy wagons. The grass at the rear of the Cottages had always been scant and choked with weeds, but during the autumn the ground was ploughed and leveled and fresh seed sowed, and we are anticipating a great improvement in the appearance of the lawn.

The winter has been unusually mild, and the patients' outdoor hours have seldom been shortened by the cold, so that they have derived all the benefit possible from fresh-air treatment. Even on cold days the children enjoy the air from the depths of cosy sitting and sleeping-bags, into which they are securely tucked.

Christmas was a very happy season, and the Christmas-tree entertainment the most successful we ever had. The children, as usual, trimmed their own little tree, and prepared pretty carols and recitations. The Christmas dinner was greatly enjoyed by all, and was the first of its kind that many, if not all, of our women patients had ever seen. Some of their expressions of gratitude were very pathetic. The children's anticipations were remembered by several friends, whom we wish to thank on behalf of our girls and boys. A complete list of donations for the year is appended.

I wish to express my appreciation of the advice and co-operation with which the Board of Governors have always supported my endeavors to develop this important and interesting undertaking.

Respectfully submitted,

ALICE C. ELLISON,

Assistant Superintendent.

CAMPBELL CONVALESCENT COTTAGES, PLAY GROUND—WHITE PLAINS, NEW YORK

CAMPBELL COTTAGES.

Donations for 1913.

Mr. George L. Rives	$10.00 for Christmas.
Mr. F. K. Sturgis	10.00 for Christmas.
Mr. Waldron P. Brown	10.00 for Christmas. Yearly subscription for nine magazines for nurses.
Mr. David B. Ogden	Christmas toys for all the children.
Mrs. F. K. Sturgis	Christmas post-cards.
Mr. F. Clowes	$10.00 for Christmas.
Mrs. J. Steers	Post-card album.
Mr. R. Fanelli	$5.00.
Mrs. L. B. Chapman	Christmas toys.
Miss A. Blanchard	Books and clothing for children.
Mrs. L. E. Nicholson	$5.00.
Mrs. Charles I. Lambert	Christmas toys.
Mr. Earle D. C. Vendig	Games.
Mrs. Parsons	Hallowe'en post-cards.
Mrs. C. Moore	Post-card albums.
Mrs. E. Forsythe	Christmas gifts for women patients.

GOVERNORS

OF

THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the first of January, 1914, with the date of their respective elections and the length of time they continued in office:

Governors.	Elected.	Resigned.	Served the Institution.	
A.				
Charles Ward Apthorp	1770	1784	14 years	
William Axtell	1770	1784	14 years	
John Alsop	1784	1788	4 years	
Gilbert Aspinwall	1799	1809		
Gilbert Aspinwall	1811	1812	15 years	Died in office, 1819.
Gilbert Aspinwall	1815			
John Atkinson	1800	1809	9 years	
John Aspinwall	1814	1817	3 years	
John Adams	1818	1854	36 years	
Stephen Allen	1823	1830	24 years	Died in office, 1852.
Stephen Allen	1835			
Augustine Averill	1848	1857	9 years	
John Jacob Astor	1860	1864	4 years	
George W. Abbe	1877		2 years	Died in office, 1879.
William W. Astor	1879	1882	3 years	
James W. Alexander	1904	1905	1 year	
B.				
Gerardus William Beekman	1770	1777	7 years	
George Bowne	1770	1784	26 years	
George Bowne	1785	1797		
William Bayard	1777	1784	9 years	
William Bayard	1800	1802		
Robert Bowne	1784		34 years	Died in office, 1818.
Aaron Burr	1784	1792	8 years	
James Beekman	1785	1787	2 years	
Theophylact Bache	1785	1797	12 years	
Thomas Buchanan	1785	1800	15 years	
Francis Basset	1785	1787	2 years	
William Backhouse	1787	1792	5 years	
Nicholas Bayard	1794	1798	4 years	
John Barrow	1795	1807	12 years	
Samuel Bowne	1796	1797	1 year	
Walter Bowne	1800	1805	5 years	
Dr. Samuel Bard	1801	1802	1 year	
Rev. Abraham Beach	1801	1806	5 years	
Thomas Buckley	1802	1842	40 years	
John Bogert	1804	1817	13 years	
John L. Bowne	1810	1815	5 years	
Abraham Barker	1813	1816	3 years	
Robert H. Bowne	1815	1827	12 years	
William Bayard, Jr	1818	1823	5 years	
John L. Buckley	1842	1855	13 years	

Governors.	Elected.	Resigned.	Served the Institution.	
James W. Beekman	1850	1854	23 years	Died in office, 1877.
James W. Beekman	1858			
Nathaniel P. Bailey	1858		33 years	Died in office, 1891.
James M. Brown	1861		29 years	Died in office, 1890.
Theodore B. Bronson	1864	1868	4 years	
James H. Banker	1869	1876	8 years	
James William Beekman	1884		24 years	Died in office, 1908.
Cornelius N. Bliss	1885	1899	14 years	
Cornelius N. Bliss	1901	1908	7 years	
George S. Bowdoin	1887	1903	16 years	
Waldron Post Brown	1887		27 years	Continues in office.
Thomas H. Barber	1898	1903	5 years	
George F. Baker	1899		15 years	Continues in office.
Charles S. Brown	1904		10 years	Continues in office.
Henry G. Barbey	1909		5 years	Continues in office.
Cornelius N. Bliss, Jr	1909		5 years	Continues in office.
C.				
David Clarkson	1770	1777	7 years	
Matthew Clarkson	1792	1822	30 years	
John Campbell	1794	1797	3 years	
John B. Coles	1796	1798	2 years	
Isaac Collins	1800	1808	8 years	
John T. Champlin	1801	1811	10 years	
John G. Coster	1801	1803	2 years	
Samuel Corp	1801	1802	1 year	
Richard Cunningham	1812	1814	2 years	
Cadwallader D. Colden	1812	1827	15 years	
Nathan Comstock	1818	1823	5 years	
Duncan P. Campbell	1818	1827	9 years	
John Clark, Jr	1819	1834	15 years	
Isaac Carow	1826		24 years	Died in office, 1850.
Robert C. Cornell	1832		13 years	Died in office, 1845.
Stacy B. Collins	1846	1864	18 years	
Henry Chauncey	1848	1852	4 years	
James N. Cobb	1855	1861	6 years	
David Clarkson	1856	1865	9 years	
Frederick A. Conkling	1857		34 years	Died in office, 1891.
Henry Chauncey, Jr	1859	1865	6 years	
Israel Corse	1864	1869	5 years	
Joseph H. Choate	1877		37 years	Continues in office.
Hermann H. Cammann	1882		32 years	Continues in office.
John Claflin	1901	1904	3 years	
D.				
Oliver Delancey	1770	1784	14 years	
Elias Desbrosses	1775		3 years	Died in office, 1778.
James Duane	1784	1789	5 years	
William Denning	1784	1792	14 years	
William Denning	1805	1811		
Jacob de la Montagnie	1797	1802	5 years	
Frederick De Peyster	1809	1818	9 years	
Cornelius Dubois	1814	1818	4 years	
James F. De Peyster	1827	1869	42 years	
James Donaldson	1843	1856	17 years	
James Donaldson	1858	1862		

Governors.	Elected.	Resigned.	Served the Institution.	
William Dennistoun	1865		10 years	Died in office, 1875.
Henry J. Davison	1873		17 years	Died in office, 1890.
William Alexander Duer	1890	1901	11 years	
Henry W. de Forest	1890		24 years	Continues in office.
George G. De Witt	1892		20 years	Died in office, 1912.

LEGACIES TO THE HOSPITAL.

The Hospital has been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following clause, however, may be suggested:

"I give to THE SOCIETY OF THE NEW YORK HOSPITAL the sum of.....dollars."

If land or any specific personal property such as bonds, stocks, &c. is given, a brief description of the property should be inserted instead of the words "the sum of.....dollars."

NEW YORK HOSPITAL—Broadway, opposite Pearl Street

TO THE LEGISLATURE OF THE STATE OF NEW YORK

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1914, as required by law.

NEW YORK HOSPITAL AS IT APPEARED IN 1869—BROADWAY, OPPOSITE PEARL STREET

ANNUAL REPORT

OF THE

GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1914.

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III., the Governors of the Society of the New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the department for the treatment of mental diseases, known as Bloomingdale Hospital, and the Convalescent Cottages at White Plains, Westchester County.

The number of individuals who received care and treatment in all departments during the past year was 64,376, as appears in the statistical reports hereto annexed. These numbers may be classified as follows:

Treated in the City of New York:	
In wards and private rooms	17,630
In Out-Patient Departments	37,242
Treated by Ambulance Surgeons and not brought to the Hospitals	7,927
Treated in Westchester County:	
In the Psychopathic Department	551
In the Convalescent Homes	1,026
	64,376

These figures are in a way misleading, because the amount of work done and relief afforded in Westchester County, dealing as it does so largely with convalescent or chronic cases, cannot be measured merely by the numbers of individuals assisted.

The needs of the Society for an increased endowment are as urgent as ever. The following brief statement shows how large are the imperative demands upon its funds:

Current expenditure, 1914	$729,913.43
Current income, 1914	713,201.72
Excess of current expenditure	$16,711.71
In addition, the Society has expended for necessary repairs and renewals and permanent improvements, during 1914	24,491.44
Total excess of expenditures	$41,203.15

The corresponding figures for the three preceding years were as follows:

Total excess of expenditures, 1911	$96,270.72
Total excess of expenditures, 1912	86,602.34
Total excess of expenditures, 1913	95,884.79

The excess of expenditures over receipts thus amounts for four years to no less than $319,961.00, a reduction of course, to that extent, of the invested funds of the institution.

It will be noticed that there has been a very sensible diminution in the amount of the deficit for 1914, as compared to that for the three previous years; a fact which is chiefly due to the allowance by the City of a sum of money towards meeting the cost to the Society of caring for the sick poor. During the early years of its history, the Society was in the annual receipt of considerable sums from the City and State, but for nearly a century it has received nothing from the municipality. As the amounts allowed by the City of New York to other hospitals are not given as gratuities, but as payment (though on a wholly insufficient scale) for services rendered in caring for those who would otherwise become public charges, there seemed to be no reason why this Society should not seek to share in the allowances annually made. The rate paid by the City varies from 45 cents a day for children to $1.25 a day for adult surgical cases, whereas the actual average cost of caring for ward cases, adults and children, for the past year, was $2.46 a day,— or at least double the average City allowance. The City investigates every case in which we claim an allowance, and declines to pay for those who may be found to be in fact able to pay for themselves, or who are not strictly cases of *emergency*, thus limiting public assistance to a very moderate fraction of the poor who come to us for help and

NEW YORK HOSPITAL—West Fifteenth Street

Completed 1877

whom we treat without charge. Nevertheless, in spite of this strictness and in spite of the fact that our bills for October, November and December, had not been audited and paid by the end of the year, the payments actually made by the City in 1914, for patients in the Sixteenth Street and Hudson Street Hospitals, together amounted to $30,600.75; bringing up the total received for board of patients in the two hospitals mentioned, together with Bloomingdale Hospital, to the unprecedented sum of $472,291.86, or nearly 65 per cent. of the current expenses of maintenance for the year.

The expenses of maintenance are believed to be now as low as is consistent with due regard to the welfare of our patients, and it is not apparent, in spite of careful and prolonged inquiry made during the past year, how any important saving can be effected without injury to the service. Nor is it apparent how our income can readily be increased. The rates payable by patients at Bloomingdale have been gradually but materially increased; and the rate payable by such ward patients in our general hospitals has been raised to $2.25 a day, which is less than the actual cost, and materially less than the charge at any respectable hotel quite irrespective of the expense of medical and nursing attendance, etc., but is as much as such patients are generally willing or able to pay. Only a limited number of ward patients pay anything, as appears from the following table:

Fifteenth-Sixteenth Street Hospital.	69 per cent. are free.
Hudson Street Hospital.....	91.4 per cent. are free.
Bloomingdale Hospital.....	16½ per cent. are free, or paying less than half the expense of their support.
Convalescent Cottages.....	100 per cent. are free.

The Society has expended great sums of money in the last four years in keeping its various hospital buildings in repair, or in improving their physical condition, so as to bring them up to the standards of the present day. These efforts have been signally successful with the institutions in the City, as is evidenced by the fact that the State Charities Commission a year ago put the Society's hospitals in Class II. for buildings, but has recently raised them to Class I. At Bloomingdale large amounts have been expended in the effort to improve sanitary conditions and to guard against the dreadful possibilities of fire, involving the necessity of extensive rewiring of the electric light system. Nevertheless, much still remains to be done to put that establishment in a thoroughly satisfactory condition. In particular, the plumbing is still far from what it should be, the bal-

conies should be greatly enlarged in order to afford opportunity for fresh air treatment, a new men's gymnasium, and new workshops for both men and women, and a nurses' home should be provided. A small detached villa for women patients is another need which has long been felt. Some of these smaller buildings could be erected for relatively small sums of money, and could be built as memorials. Three detached villas have already been constructed in this way and named after the donors, the Banker Villa, the Brown Villa and the Macy Villa. It is hoped that the examples thus set may be thought worthy of imitation.

The War in Europe has affected the Society by calling upon us for the service, temporarily, we trust, of physicians and nurses. Five of our surgical staff and fourteen of our nurses have already gone on this errand of mercy, and if the war lasts much longer, we shall doubtless have to give further help. Thus is the New World again called on to redress the balance of the Old.

During the past year, 12,368 ambulance calls were answered, the largest number of any hospital organization in the City, with the possible exception of Bellevue and Allied Hospitals. The average number of calls was over 33 a day.

A most important and interesting part of the work of the Society is the increasing activity of the Social Service Department which seeks to help patients after their discharge from our wards either by finding them work to do, securing them help at convalescent or tuberculosis homes or assisting them in their own homes. The work also extends to "follow-up" cases, where former patients are visited at home after discharge and instructed as to precautions in their convalescence and as to preventing a recurrence of disease. The aid afforded by the Ladies' Auxiliary, a Committee composed mainly of the wives of Governors and physicians of the Society, has been invaluable, and cordial thanks are due to its members for the zealous and intelligent efforts which they have so constantly exerted.

During the past year we have received Five Thousand Dollars from the Estate of the late Dr. Frank Hartley, for many years an Attending Surgeon, given to endow a bed, and also a legacy of One Thousand Dollars from the Estate of Frederick Duhrkop. The Governors of the Society will welcome and gratefully acknowledge gifts in any amount, whether in the form of legacies or otherwise.

The reports annexed exhibit in detail the manifold activities of the Society for the past year. No one, we think, can read them without becoming convinced that we are fully justified in again urging the claims of this ancient charity upon a generous public, whether in consideration of the vast number of distressed and indigent people

whom we have cared for, or of the constant necessity for extensive renewals and repairs to our buildings, or of the steadily increasing cost of meeting the needs of those who apply to us for treatment, or of the great variety of relief we are able to afford both to body and mind. If the Society is to perform its full duty to the community, we must have large additions to our income, which we repeat can best come from an increase in our endowment, and for this we ask with all possible earnestness and urgency.

GEORGE L. RIVES,
President.

HENRY W. CRANE,
Secretary.

New York, March 2, 1915.

TREASURER'S REPORT.

RECEIPTS FOR THE YEAR 1914.

REPORT OF THE SUPERINTENDENT OF THE NEW YORK HOSPITAL AND HOUSE OF RELIEF.

To the Board of Governors:

GENTLEMEN:—The cost of maintaining the New York Hospital in 1914 was $285,835.98, against $260,549.71 in 1913, an increase of $25,286.27.

The increase is accounted for, in part, as follows:

Rent of Nos. 13 and 15 West 16th Street.....	$4,591.73
Replacing Worn-out Laundry Machinery.....	3,845.01
Increase in Insurance Premiums.....	2,479.41
Increased Cost of Drugs and Medicines.....	1,630.46
Increased Cost of X-Ray Supplies.....	2,036.38
Increase in Pay Roll.....	3,936.54
Increase in Heat, Light and Power Plant Expense.....	4,119.28
Cost of Equipping New Record Room.....	600.00

An increase of nearly two cents a pound in the cost of meat.

The cost of maintaining the House of Relief was $55,384.79 against $54,154.97 in 1913, an increase of $1,229.82.

The total number of patients admitted to the wards and private rooms was 5,722 against 5,962 in 1913—a decrease of 240, or about 4 per cent. But, owing to the fact that the average stay in the Hospital was two days longer than in 1913, the daily average population was larger—218 against 209 in 1913. The number of days' care furnished was 94,218 against 92,142 in 1913, an increase of 2,076.

The number of patients cared for in the private rooms was 43 less than in 1913.

Owing to the effects of the depressed industrial conditions and the Workmen's Compensation Law, the number of persons applying at the Emergency Room and in the Out-Patient Department was decreased slightly. On the other hand, the number of return visits made to the Out-Patient Department was larger than ever before. In 1912 the average daily number treated in this department was 238; in 1913 it was 244, and in 1914 it was 249.

The work in the public operating room continues to increase. The number of operations has increased 40 per cent. during the past five years. In 1914 there were 2,503 operations; 2,238 in 1913; 2,071 in 1912; 1,893 in 1911; 1,819 in 1910 and 1,509 in 1909. The number of operations in the private patients' operating room was somewhat less in 1914 than in 1913.

The rate for ward patients was increased from $1.50 to $2.25 a day. In 1914 the operating cost of caring for ward patients was $2.46 a day.

AMBULANCE SERVICE.

The ambulance district, which had been covered by the House of Relief for many years, was divided by the Ambulance Service Board on December 1st. The new district of the House of Relief will have the same northern boundary as at present, running along Canal Street to Bowery to Park Row. From there the boundary line will be the west side of Park Row to Broadway; the west side of Broadway to Battery Park, including the south side of State Street. In the new district all of police precinct numbers two and four and part of precinct number six are included.

No change was made in the district covered by the New York Hospital.

The average daily number of calls responded to from the New York Hospital was 20 plus, the same as last year, and from the House of Relief 13 plus, one less than last year.

ADDITIONS AND REPAIRS.

The expenditures for additions and repairs were unusually heavy.

There was expended for new machinery for the laundry the sum of $6,872.21. Two large metal washers of the most modern type, three over-driven extractors, a small mangle, and three steam pressers were installed. The laundry is now completely equipped with thoroughly up-to-date machinery. The result is that while the work done in this department has more than doubled during the past seven years, the number of hands employed has decreased from 23 to 20.

There was expended in extending and improving the laboratory the sum of $3,918.48. In addition to the laboratory building, this department now occupies the entire second floor of the help's dormitory building.

There was expended in extending and improving the X-Ray Department the sum of $2,824. It now occupies the entire first floor of the help's dormitory building. The work of this department is increasing rapidly, as is indicated by the expenditures for X-Ray plates. In 1910 we spent $375 for these, and in 1914 $4,529.79.

The store-room was moved to the basement of the nurses' home building.

Two residences on the north side of Sixteenth Street opposite the Hospital have been leased for a term of years and are occupied by nurses. It is estimated that the maintaining of these houses will increase the annual expenditures of the Hospital about $7,500.

There was spent for constructing fire escapes on the Fifteenth Street side of the Hospital building and on the two leased houses in West 16th Street, the sum of $1,104.

Connection by means of doors was made between the help's dormitory building and wards G and I. All of the wards on the west side of the Hospital building are now connected with the help's dormitory building. This not only facilitates our work, but would be of great value in case of fire.

A gift of $250, by Col. Francis L. Leland, enabled the Hospital to build a platform outside one of the windows of the children's ward. It is used for giving the children fresh air treatment.

A new system for filing medical records was installed at an expense of $600.

No important improvements were made at the House of Relief.

The usual amount of painting was done at both institutions.

MUNICIPAL AID.

This year, for the first time, the New York Hospital and House of Relief received municipal aid in caring for patients. Only those patients unable to pay their own Hospital expenses, and accepted by the city authorities as emergency cases, are paid for. The rates established by the city are $1.25 a day for adult surgical cases, $1.10 a day for adult medical cases, and 45 cents a day for children. The amount paid to the Society by the City was $30,600.75, of which $24,424.40 was earned by the New York Hospital and $6,176.35 by the House of Relief.

PENSION SYSTEM.

After carefully studying the subject for over a year, the Governors voted to establish a pension system for the New York Hospital, Bloomingdale Hospital for Mental Diseases, the House of Relief and the Campbell Convalescent Cottages.

This action was taken because the Governors felt that it would assist in making Hospital employment more attractive and thereby enable the institution to secure a more efficient and permanent body of workers.

The entire expense is borne by the Society, the employees not being required to contribute to the pension fund.

The plan adopted provides pensions for employees who have reached the age of 65 years and who have been in the service of the Hospital for 15 years; for those who have reached 60 years of age and who have been in the service for 20 years; for those who have reached 55 years of age and have been in the service 25 years; and for those who have completed 30 years of service, regardless of age.

A number of employees coming under the provisions of the pension system have been retired and pensioned.

HOUSE OF RELIEF—67 AND 69 HUDSON STREET

Completed 1894

WORKMEN'S COMPENSATION LAW.

The Workmen's Compensation Law took effect July 1st. It materially increases our clerical work, but it brings in an income to the Hospital more than sufficient to reimburse it for the expense incurred for additional clerks. The New York Hospital and House of Relief being located in districts where there are many factories and great industrial activity, are called upon to care for a great many accident cases. Between 400 and 500 cases, most of them of a trivial nature, are treated each month.

HYDRIATIC DEPARTMENT.

In this department treatment is furnished to ward, private room and out patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number of treatments in 1914 was 8+, the same as in 1913.

The number treated during the year is as follows:

	Male.	Female.	Total.	From Wards.	From O. P. Dept.	Total Treat-ments.	Average Day Treat-ments.
January	17	28	45	..	45	222	8+
February	18	27	45	1	44	167	6+
March	23	31	54	1	53	253	9+
April	24	35	59	2	57	289	11+
May	29	29	58	1	57	267	10+
June	25	26	51	1	50	217	8+
July	23	31	54	2	52	258	9+
August	18	26	44	3	41	139	5+
September	24	27	51	3	48	216	8+
October	29	33	62	5	57	295	10+
November	19	27	46	1	45	232	9+
December	21	25	46	3	43	243	7+
Total	270	345	615	23	592	2,798	8+

DENTAL CLINIC.

The work in this department continues to increase. A dentist is on duty four mornings of each week from 9:30 until 12 o'clock. Adults as well as children are treated, and there are no charges.

The number of patients treated in 1914 was 2,894 against 2,439 in 1913. There were 21 oral surgery cases, 686 alloy fillings, 265 oxyphosphate fillings, 927 extractions and 731 treatments.

Miss Susan V. Gifford, who was connected with the House of Relief for seventeen years, first as Matron and afterward as Assistant Superintendent, resigned December 1st, on account of ill health. Miss Gifford was an efficient officer, and loyal to the institution. Dr. A. H. Wilkinson, Assistant Superintendent at the Hospital, has been assigned to the House of Relief.

Mr. George F. Holmes, Assistant Superintendent at the Hospital, resigned in October to accept the superintendency of the General Memorial Hospital. He had served the Hospital faithfully for many years.

GIFTS.

This Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts, while ordinarily inexpensive, have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under obligations to the Employment Society of St. Thomas's Church and the Friends' Employment Society, and the New York House and School of Industry for a large amount of sewing done without expense to the Hospital. For statistics, see Statistical Report.

Respectfully submitted,

THOMAS HOWELL,

Superintendent.

REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1914.

To the Board of Governors of the New York Hospital:

GENTLEMEN:—The service at the Hospital and at the House of Relief during 1914 was one of activity and, in some directions, was more active than in the preceding year. At the Hospital, fewer patients were admitted to the wards, and there were also fewer new patients in the Out-Patient Department, but it may be noted, by reference to the statistical table, that there was an increase in the total days of hospital care and total visits in the Out-Patient Department respectively.

The surgical service was more active, in that 265 more operations were performed than during the previous year. The ambulance service was equally as active in 1914 as in the previous year.

At the House of Relief there were more admissions to the wards, fewer new patients treated in the Out-Patient Department, and a slight decrease in the number of ambulance calls. The increasing number of dispensaries in the lower section of the city, together with the diminishing area of the surrounding residential district, accounts mainly for the fewer patients treated in the Out-Patient Department. The difficulty also, of obtaining a sufficient number of assistants to work in the dispensary, has handicapped the work of the department, and if moderate salaries could be paid, it would remedy this difficulty and thus increase the activity and efficiency of the work. Owing to the loss of some of our ambulance territory in 1914, the number of ambulance calls will be less in the future, but it is, in a way, an advantage, as it will allow the interne staff to give more attention to the work in the wards.

The genito-urinary class, under the direction of Dr. Seay, continues its activity, and in 1914 there were 1,100 new patients treated, together with 8,074 total treatments. The efficiency of the cystoscopic work in the ward service has been promoted by placing it under the direction of Dr. Seay, since the cystoscopic examinations are now made promptly.

At the Hospital one important change made during the past year has been the installation of a new and improved system of filing the medical records of the Hospital. Such case records have heretofore been collected in chronological order and bound in large volumes, with card indices of the patients' names and of the diagnoses. As a result, the different case histories of any single disease were scattered widely throughout many volumes, and the work

of collecting such histories for the purpose of scrutiny and study was necessarily laborious and difficult. Under the new system histories are filed by diagnosis and placed in filing cases until these are filled; then the histories are bound in volumes, the grouping by diagnosis being retained. By this means, all the histories of each disease are grouped together and are readily accessible. In the indexing and filing of case histories, the system of nomenclature established at Bellevue Hospital, is used. The medical records have been installed in a much more commodious and suitable record room, and the new arrangement not only increases greatly the availability and usefulness of these records but, by its system of checks and controls, adds much to the accuracy of the records and to their security as well.

The plan, inaugurated during the year, of publishing from time to time a small Hospital Bulletin, containing news of the various activities and changes in the different institutions operated by the Society of the New York Hospital, has worked well and serves a useful purpose.

The enlargement of the quarters of the X-Ray Department is a noteworthy improvement, and with the increased area for its work the efficiency of this important department will benefit accordingly. Additional equipment in the way of a new machine, extra tables, as well as illuminating boxes for each medical and surgical division, has added materially in bringing the department to a proper standard. The number of cases examined in 1914 was 4,383, an increase of 239 over the preceding year, and owing to the increased number of gastro-intestinal cases examined there were many more plates used, since in each of these cases a series of plates were taken.

At the House of Relief a new and modern machine has been installed, and the quarters enlarged to meet the demands of the increased yearly work in this department.

The work of the Pathological Department for the year 1914 may be summarized as follows:

Post Mortem Examinations:	1913		1914	
New York Hospital	108	25.4%	82	21.0%
House of Relief	50	27.6%	51	25.1%

	1913	1914
Bacteriological Examinations	1,938	1,940
Histological Examinations	1,039	1,292
Vaccines	110	74
*Hemoglobin Estimations	1,700	1,700
*Red Cell Counts	175	200
*White Cell Counts	6,200	6,300
*Differential Counts	6,700	6,700
*Malarial Examinations	175	150

* Many of these examinations were carried out in the wards by members of the House Staff.

	1913	1914
Widal Examinations	1,200	800
Sulphonephenolthalein Tests	150	100
Stomach Contents Analyses	225	200
Sputum Examinations	1,500	1,800
Urine Analyses	13,000	14,000
Feces Examinations	1,300	1,400
Chest Fluid Examinations	80	80
Abdominal Fluid Examinations	35	30
Cerebrospinal Fluid Examinations	125	75
Milk Analyses	15	10
Nitrogen Partitions	25	20
✱ Wassermann Reactions	1,212	1,076
○Gonococcus Complement Fixation Tests	71	41
Guinea Pigs Inoculated for Diagnosis	60	70

✱ These reactions were performed at Bloomingdale by Dr. G. S. Amsden.
○These tests were performed by Dr. Schwartz at Cornell University Medical College.

Table indicating the total number of deaths, number of Coroner's cases and number of autopsies for the year 1914, compared with the preceding year:

	New York Hospital.		House of Relief.	
	1914	1913	1914	1913
Total number of deaths	389	425	203	181
Total Number of Autopsies	82	108	51	50
Number of Coroner's Cases	120	75	60	59
Number of Coroner's Autopsies	12 (5 by Path.)	7	6	12
Number of Hospital Cases	269	248	143	122
Number of Consent Autopsies	65	92	13	14
Number of Autopsies on Friendless	5	9	32	24

Note—An analysis of the preceding statistics shows that the actual and relative number of autopsies performed during the year 1914 is smaller than in the preceding year. In the New York Hospital proper this is due to the smaller number of so-called "consent" cases, while in the Hudson Street Branch it is due to the smaller number of Coroner's autopsies.

For expenses of the department see statistical report.

During the past year the quarters of this department have been considerably enlarged, an entirely new laboratory has been equipped for the use of the clinical pathologists and the interne staff, and extensive alterations have been made in the old laboratories.

The equipment of this department is now such as to meet all reasonable demands which might be made upon it, and the amount of room assigned to it is sufficient to accommodate several volunteer workers desirous of engaging in research work.

Radical changes have also been made in the work of the junior members of the interne staff. These have been assigned to the department to receive more thorough training in laboratory methods which, in the opinion of the Medical Board would tend

to make them more efficient agents in carrying out the work in the wards during the subsequent periods of their service in the Hospital.

This plan has yielded satisfactory results in so far as the medical branch of the service is concerned, but has fallen short of our expectations in so far as it applies to the surgical members of the staff. The experiences of the past six months have revealed the fact that with so few internes on the surgical divisions only a very limited amount of time can be devoted to special training of its members in the laboratories.

During the year clinical instruction has been given in the wards of the First Division by Drs. Conner, Gibson, and the Associates in their respective divisions. Clinics for medical students have been held in the operating room by Drs. Conner and Gibson. Public clinics have been held by Drs. Johnson, Pool and Turnure.

The creation during the year of the position of Syphilologist to the Hospital, and the appointment to this position of Dr. J. M. Kent, has resulted from a growing recognition of the importance of this subject and of the urgent need of systematizing and standardizing its methods of treatment. A special class in this subject, under the supervision of Dr. Kent, has been established in the Out-Patient Department, and to this all patients requiring such treatment are now sent. The Wassermann blood tests, which have become such an important laboratory procedure, and which hitherto have been made for the Hospital at Bloomingdale, are now made in the Hospital laboratory by Dr. Kent.

In the death of Dr. George L. Peabody the Medical Board has lost one of its most distinguished and most valued members. Dr. Peabody's association with the Hospital began thirty-five years ago when, in 1879, he was appointed to the position of Pathologist. In 1884 he was made an Attending Physician, and in that capacity served the Hospital with the utmost fidelity and with great distinction until his resignation in 1909. From that time until his death, on October 30, 1914, he held the position of Consulting Physician.

After fourteen years of active service as Attending Surgeon, Dr. A. B. Johnson, to the regret of the Medical Board, has resigned from the Attending Staff of the Hospital. His ability in the operative field, as well as his skill in surgical diagnosis, won the esteem and respect of his colleagues. Among his contributions to surgical literature are two important works on surgical diagnosis and operative treatment.

REPORT OF THE TRAINING SCHOOL FOR NURSES FOR THE YEAR 1914

The Staff of the Training School on duty at the close of the year is as follows:

Officers of Instruction:

Directress	1
Assistant Directress	1
Clerical Assistant	1
Night Supervisor	1
In charge of Private Patients Building	1
In charge of Out-Patient Department	1
Operating Room Nurses (day)	4
Operating Room Nurses (night)	1
Head Ward Nurses	9
Graduate Nurses in charge of floors of Private Patients Building	3
Matron Nurses' Home	1
Dietitian	1

Pupils:

Seniors	21
Second Seniors	24
Intermediates	19
Juniors	36

The Training School consists of one hundred nurses distributed as follows:

Hospital wards, public and private	77
House of Relief	13
Lying-in Hospital	6
Sloane Hospital for Women	4

During the year 940 applications were received and considered, with the following result:

Accepted and entered on probationary duty	45
Accepted as pupils in the school	39
Resigned	4
Declined	2

During the year, seven pupils resigned for various reasons.

The general health of the pupils has been excellent. The total days of illness was 785, a decrease of 139 days from last year. The room in the Private Patients Building assigned to nurses during illness was occupied 730 days, of which 405 were by graduate nurses and 325 by pupils of the Training School. The Isolation

NEW YORK HOSPITAL—Nurses' Home

Suite of Rooms

Wards were occupied 98 days, with five cases of Diphtheria and three cases of Measles.

It is with sorrow that we record the death of Miss Amanda Swenson, a graduate of the Class of 1910, which occurred in this Hospital, to which she was brought after being injured by an accident in the discharge of her duty.

Thirty-four pupils finished the course, passed the final examinations and were awarded diplomas in 1914. The graduating exercises were held March 18th in the Governor's Room of the Administration Building. Mr. George L. Rives, President of the Hospital, presided. Professor Henry Fairfield Osborn delivered an address which was listened to with great interest, as he depicted the growth of the nursing profession, and showed an intimate sympathy with many of its aspects.

During the year, Miss Blanche Gibson, Assistant Directress of Nurses, who had been actively connected with this Hospital for seventeen years, resigned to assume the duties of Superintendent of the Training School of the Buffalo General Hospital, Buffalo, N. Y. While we are always glad to have our graduates called to such important positions, we cannot but regret the loss to our own School of such an efficient, broadminded and loyal officer.

At this time of great stress in Europe, our graduates have responded promptly and generously to the call for nurses in the war-stricken countries, and eighteen are now engaged there in various positions. Miss Anna L. Reutinger, who was for five years an officer in our School, was sent in charge of a unit under the auspices of the Red Cross Association.

There are certain urgent needs calling for attention and which seriously impair the effectiveness of the instruction.

First, a room for practical demonstration. This is a most important part of our instruction and worthy of a serious effort to provide accommodation. At present, as for some time past, we are forced to use makeshifts which prove awkward and inconvenient.

Second, increased accommodation for pupils. Perhaps this might be better said more *unbroken* accommodation. At present our pupils are disposed of in three separate buildings. Of these, two are rented dwelling houses outside the Hospital on the opposite side of the street. Such accommodations are inadequate. If the present Nurses' Home could be enlarged by an annex, all the pupils could be properly housed under one roof and the convenience and effectiveness of the School greatly enhanced.

Respectfully submitted,

ADELINE HENDERSON,
Directress of Nurses.

Chairman Tuberculosis Committee.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

To the Board of Governors of the New York Hospital:

Dear Sirs:—I wish to submit to you the following report of the Social Service Department for the past year. You will see by the statement of work that a considerable increase has been made over that accomplished in 1913, and we are glad to have been able to meet these extra demands as satisfactorily as the accompanying report shows.

Although we have not thought it advisable to attempt to raise money for the Department as "we did last year" by means of an entertainment, we hope, by private subscriptions, to collect enough for the expenses of the coming year.

The ladies of the Social Service Committee, and I, hope that you will approve of the work done by the Department as embodied in the report. Very respectfully yours,

ELEANOR ISELIN,
Chairman of Executive Committee.
Social Service Auxiliary to the New York Hospital.

To the Board of Governors of the New York Hospital:

Gentlemen:—I beg to submit the following report of the Social Service Department:

We have endeavored during the past year to make our services of value to the Hospital and doctors, as well as to the patients; continuing our work, in a general way, along the same lines as heretofore. Upon summing up the work (so far as work can be judged statistically) we find most of our figures of 1914 increased over those of 1913. Especially do we notice this in the amount of clothing, surgical appliances, supporters and Thanksgiving and Christmas dinners given, in the number of visits made and in the patients sent to convalescent and fresh air homes. There has been an increase in the number referred to co-operative agencies and a large increase in the number of letters written; also, in the number of calls made for the office and in the follow-up work for the medical staff of the hospital. But, the greatest gain for the year appears to have been made in that important branch—preventive work.

Through the kindness of the heirs of the Van Beuren Estate, the property opposite the Hospital, on 15th Street, was loaned to the Auxiliary for the use of children selected from the clinics. There children met in the garden, under supervision, from early summer to late autumn. They planted and cared for vegetable and flower gardens and were taught to make their own dresses from material supplied them, which they wore on their summer outings. They also made other garments which they cheerfully contributed to the

Social Service Department's stock and supply cupboard. A garden party for a hundred children and their mothers, was given in August by two members of the Auxiliary.

A large number of children were sent to boys' camps, fresh air and convalescent homes, aside from those sent to our own convalescent cottage, and our thanks are extended to the owners and staffs of these homes and camps where the children were so well and hospitably entertained.

At the present time five small boys are being taken care of for several months at private homes in the country. Four of these boys were on the border line of pulmonary tuberculosis, their home conditions were bad and they were, while in town, going rapidly down-hill. They are now attending school regularly and gaining in every way. The fifth boy had been admitted to the Hospital six times between June 29th and December 11th. The doctors came to the conclusion that his trouble (pernicious vomiting) was largely due to hysteria. They advised different home surroundings and careful training, which it was impossible to give him in his own home. He is now attending school and is well and happy.

The Young Women's Christian Association has very generously extended to us the use of a large, light room at a nominal rent, in order that the sewing classes of the summer might not be discontinued during the winter months. They have also put their recreation room at the disposal of the children after classes. Two sewing classes are held each Saturday. It is our aim not only to teach these children how to sew, but to look after their moral and physical condition, and in this we have been greatly aided by our three volunteer workers, who have done such faithful and good service. Thanks are also due the members of the Committee on Tuberculosis, who have given up so much time to prepare the work. About forty children have the benefit of these classes.

The above will show something of what we have accomplished through preventive measures.

June 1, 1914, the Auxiliary assumed the responsibility of paying the salary of the assistant to the head worker. Miss Sutliffe, we are glad to say, still continues the work at the House of Relief. The salary of an additional member of the Staff was provided, from a private source, November, 1913, for one year. We are happy to say this help has been renewed. The workers on the staff, therefore, with the children's clinic and the tuberculosis clinic nurses, remain the same as last year, with the addition of a worker for one day a week, supplied last December through the Auxiliary.

Early in the year a committee was appointed from the Auxiliary to confer with the head worker and nurse of the tuberculosis clinic regarding tubercular patients presenting problems or needing relief.

Dinners were given at Thanksgiving and Christmas to many families connected with our Department. Fifty families were given Christmas gifts of warm clothing. On New Year's Eve a tree, toys, candy and entertainment were given to 440 children.

We wish to express our great appreciation of the co-operation extended by you, the Governors, the Officers and Staff of the Hospital, the head nurses of the dispensary and wards and the Staffs of our Convalescent cottages.

We are glad to make public acknowledgment of the co-operation given by the Relief and other Organizations of the City and by several of the churches. Especially do we thank one church for the giving of employment to several of our men.

The sum of money given to the Superintendent of the Hospital, and to the Chairman of the Tuberculosis Committee, by the Trustees of the Haven Fund has been of the greatest help. We are most grateful for all the aid given our people by friends of the Department, by gifts of clothing, books, toys, etc.

This report would be incomplete without an earnest expression of appreciation of the valuable work done by our Auxiliary. Without their aid and interest the work, which is now steadily growing, could hardly continue.

The following statements of work done during the year include all divisions of the Social Service Department:

Number of new cases		2,091
Visits made to patients, institutions, etc		4,974
Accompanied to trains, homes		160
Clinic sessions attended by workers		509
Referred to co-operative agencies		510
Sent to convalescent and fresh air homes		1,516
Sent to tuberculosis hospitals, sanitoria and preventoria		84
Clothing given to families		335
Eggs dispensed	dozen	2,186
Milk dispensed	quarts	9,488
Referred to hospitals and dispensaries		338
Surgical appliances and supports given to		103
Thanksgiving baskets given		61
Christmas baskets given		73
Letters written		1,002

Received for special cases and causes over and above amounts received from Treasurer of Auxiliary and "Haven Fund" $453.37

Respectfully submitted,

HANNAH LOUISE JOSEPHI,
Head Worker.

THE SOCIETY OF THE NEW YORK HOSPITAL.

ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT OF BLOOMINGDALE HOSPITAL, WHITE PLAINS, NEW YORK.

To the Board of Governors:

GENTLEMEN:—I beg to submit the following report of the operations of Bloomingdale Hospital for the year ending December 31, 1914:

GENERAL STATISTICS.

	Committed Cases.			Voluntary Cases.			Total Cases.
	Men.	Women.	Total.	Men.	Women.	Total.

Average number on parole during the year	2	2	4	1	4	5	9

ADMISSIONS.

The number of admissions was 201. The number is 57 greater than in 1913 and the greatest in many years. Eighty-five were men and 116 were women. Fifteen fewer persons than cases were admitted, some having been received more than once. Ninety-eight,

making over 48 per cent. of the total admissions, were received on voluntary application without certification or commitment. Later commitment became necessary in 10 instances. The proportion of voluntary admissions was 5 per cent. greater than in 1913, and there has been a steady increase for several years. This is in accord with a growing tendency, in dealing with mental disorders, to emphasize the medical needs and not to apply legal procedures unless it is plain that they will serve some really necessary and useful purpose. The New York State laws now recognize the right of a person suffering from mental disorder to apply voluntarily and to be received for treatment without commitment in any chartered or licensed institution or in a State hospital. Many take advantage of this and certification and commitment as an insane person is no longer an indispensable preliminary to hospital treatment. The regulation and expert supervision of institutions by the State Government furnishes ample protection against improper detention or inhumane treatment. Commitment is, of course, still necessary in many instances. Experience indicates, however, that the present methods of receiving patients on voluntary application and under the regulations and expert supervision of the State Hospital Commission could be extended with advantage to the patients and to Society. Of the 186 persons who were received during the year, 63, or about a third, came to the Hospital within three months of the beginning of the disorder, and 92, or nearly half, came within six months. Great reluctance to seek treatment in a hospital for mental disorders is still prevalent. This is based principally upon ignorance and prejudice, but is not without some justification and can be overcome only by means of further elaboration and modification of hospital provision and methods as well as by spreading abroad correct information.

DISCHARGES.

The total number discharged was 188. Twenty-six of these were classed as recovered, 27 as much improved, 37 as improved, 24 unimproved, 23 died, and 36 were transferred to other institutions. One of those who were regarded as recovered had been under continuous Hospital treatment for nearly eight years. She returned to the occupation which she had followed previous to her illness, and is quite efficient. The number discharged to some degree of social efficiency equalled 45 per cent. of the number admitted. Of the 23 who died, 18 were men and 5 were women. The causes of death were: Among the women, organic brain disease in old age, drowning, and meningitis; among the men, cerebral arterio-sclerosis, pleur-

BLOOMINGDALE ASYLUM—1821

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

isy, paresis, pernicious anemia, myocarditis, cerebral syphilis, and alcoholism. The number who died was 4.18 per cent. of the total number under treatment during the year, and 12.23 per cent. of the number discharged.

As noted in the report of last year, the interest of the Hospital in the patients does not cease at discharge. A large proportion of those discharged are retained on the list of patients for varying periods up to six months, during which they may return to the Hospital without formalities. The average daily number who were thus carried was 23, and at the close of the year 21 patients who had left the Hospital were still on the books. By advice to the patient and to the family and, in some instances, by aid in securing suitable employment, treatment is extended beyond the period of Hospital residence. This method of working for the more complete restoration of the patient to social efficiency than can be accomplished by intrahospital treatment only, should, we believe, be looked upon as a definite and necessary part of the work. The patients received at this Hospital belong principally to the more productive classes, and their restoration to usefulness is a distinct contribution to the public good. The following occupations are represented among the men patients received during the year: Physicians 6; lawyers 3; teachers 6; chemists 2; engineers 3; manufacturers 5; writers 2; merchants 6; salesmen 9; musician 1; clerks 3; farmers 3; mechanics 3; dock master 1; dyer 1; gardener 1; restauranteur 1; tradesmen 3; and 12 were students. Only three of those admitted were said to have no occupation. Among the women admitted a very large proportion were wives and mothers who could ill be spared from their home and social duties. The following gainful occupations were also, however, represented among the women: Physicians 2; teachers 9; librarian 1; social workers 5; writers 4; nurses 5; designer 1; art critic 1; actress 1; stenographers 4; saleswomen 4; milliner 1; and 6 were students. The number who had been previously employed in gainful occupations made up 41 per cent. of the total number of women admitted. Better facilities for the supervision and guidance of discharged patients during the period of readjustment to normal contacts and activities are much heeded in the treatment of mental disorders. Especially is the need felt for convalescent homes and opportunities for work under favorable conditions pending complete restoration. Nothing of this kind is, so far as I know, provided in this country, and in no form of illness is such provision more appropriate or more urgently needed.

MEDICAL SERVICE.

The increased number of admissions made the work of the medical staff especially active. The lines of organized work referred to in the report of 1913 were adhered to in 1914. In addition to the regular staff conference, five special evening conferences were held during the year, in which physicians not connected with the hospital were asked to participate. These were well attended by the physicians of White Plains and vicinity and by some from New York and elsewhere. Contributions to the program were principally from members of the hospital staff. We are also indebted to Dr. Hoch, Director of the New York State Psychiatric Institute, to Dr. H. A. Cotton, Medical Director of the New Jersey State Hospital, to Dr. C. Macfie Campbell, Associate Professor of Psychiatry of Johns Hopkins Medical School, and to Dr. C. O. Cheney, Pathologist of the Manhattan State Hospital, for valuable contributions.

Dr. Lambert and Dr. Harrington of the hospital staff have, during the year, furnished the medical service for an out-patient mental clinic which has been established at White Plains under the auspices of the State Charities Aid Association. Most of the work of the clinic, thus far, has consisted in examining backward or otherwise difficult school children, and a room for the clinic has been provided in one of the schoolhouses by the School Board. The work furnishes an opportunity for the Hospital to be of service to the community in which it is located, and it is of advantage to the physicians to study the beginnings and earlier periods of mental disorders.

The laboratory work has been carried on as heretofore. The usual routine clinical and post-mortem work has been attended to. More than 1,000 Wasserman tests have been made for patients at the New York Hospital, and about 200 laboratory examinations have been made for patients at the Campbell Cottages. Some new equipment was added during the year, especially a high grade microscope, a projection apparatus, and a renal efficiency apparatus. The technique of the Abderhalden test was acquired, and the employment of the gold chloride reaction in the examination of spinal fluid was introduced. Ten autopsies were made, representing 63 per cent. of the deaths, and 580 slides were prepared from these for microscopic examinations.

The number of major surgical operations required during the year was unusually small, there being only three. There were twenty minor operations of noteworthy importance, and the usual number of dressings and other minor surgical procedures. The more important work has, as heretofore, been attended to by Dr. J.

Fielding Black of White Plains. The need of better facilities for surgery continues to be plainly felt.

A considerable number of cases of general paralysis have been treated by intra-spinal injections of Salvarsanized serum, with favorable results. At one of the quarterly conferences of medical superintendents with the State Hospital Commission held in Albany in November, Dr. Amsden, by invitation, presented a report of the results in the six cases which had been treated longest. This report will be published in the State Hospitals' Bulletin.

The dental work has, as heretofore, been attended to by Dr. D. Austin Sniffen of White Plains. The dentist makes systematic examinations of the patients and attends to whatever work may be needed to keep all mouths in sanitary condition, and to any other necessary work which may be authorized or requested by those responsible for the finances of the patients. During the year 318 different patients were examined by the dentist, the number of examinations being 637. A large amount of operative and conservation work was attended to.

The sanitary condition of the Hospital has been satisfactory during the year.

OCCUPATIONAL AND PHYSICAL TREATMENT.

Occupational and certain forms of physical treatment which require for their efficient application specially equipped and organized departments are among the most distinctive and important features in the Hospital treatment of mental disorders. Special attention has been given to the development of these departments and further development is still needed. For this reason it seems advisable to invite special attention to them in the report.

Although occupation, especially handwork, has from the beginning of systematic attention to the treatment of mental disorders been looked upon as one of the most helpful measures, it is only within recent years that it has been applied with much system or attempt at precision. At this Hospital, the first reference in the annual reports to an occupation department as at present organized was in that for 1908. It was stated that a small department for fancy manual occupation had been established for women patients under the charge of Mrs. Amsden, and that it was still in the nature of an experiment. In the report for 1909 it was stated that the occupation department had proved valuable and less expensive than was expected. In the 1910 report the value of the department was again referred to and it was stated that 52 patients were employed and a list of 587 articles made by them was given. The

report for 1911 stated that 70 patients had been given special training and 886 articles had been made. In 1912 the report showed that 125 patients had been employed. No mention was made of the number of articles made. The report for 1913 showed that 183 patients received attention in the department and that 10,452 articles were made and 5,719 were mended. During the year 1914 the number of patients who received attention in the department was 216; the number of articles made was 11,014 and the number mended 7,208. The number of articles made during 1913 and 1914 includes some plain sewing of which even before the department was organized, a certain amount was done by the patients, but was not recorded. This brief review of the development of this department fails to convey any adequate impression of what the work has done for the patients who have engaged in it. This cannot be presented statistically. The way in which it has developed shows, however, that it must supply a felt want and fulfil a useful purpose in the Hospital system of treatment.

The occupational department for men is of much more recent development than that of the women. After a preliminary attempt with a teacher who remained for a few weeks only, the work was fairly started on September 1, 1912. The annual report of that year gave the average number of patients who worked in the department to be 25. The report for 1913 stated that 69 men had received attention, and that 614 articles had been made and 409 mended. During the year 1914 the number of individual patients who received attention was 84; the number of articles made was 1,239, and the number mended 280. In addition, 16,861 pieces of printed matter were produced in the printing shop against 5,604 in 1913. A book repairing and binding department was also started in connection with the printing shop, with an output of 63 articles. Twenty-two patients also engaged in mechanical drawing and a party of eight or ten patients were employed in outdoor work. It is more difficult to find suitable occupation for the men than for the women, who have, as a rule, been always accustomed to some kind of handwork. A smaller proportion of men than women are occupied, and the men's department has not yet been developed as fully as we believe can be made possible. It is interesting to note that valuable assistance in the work has been given by some of the patients, two of whom have, through the year, conducted classes for women, and two of the men who are teachers by profession are now giving instruction in school work to some of the younger male patients.

In the report for 1913 attention was directed to the fact that the occupational department had outgrown the space available for

BLOOMINGDALE ASYLUM—1881

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

workrooms. It is gratifying to be able to add now that the Bloomingdale Committee has very kindly voted to set aside the Dexter Cottage for the sole use of the women's department, and to permit the transfer of the printing shop to a large room in the basement under Hall 7, Men, providing it with equipment at a cost of $300. The appropriation of $15,000 for new workshops for the men, which was kindly voted by the Governors, will go far to provide for their needs.

In the physical treatment of the patients much benefit is derived from the therapeutic use of water, massage, outdoor air and sunshine, formal physical exercises and games, and invigorating and enlivening measures generally. In providing for the application of these with system and precision considerable organization and equipment are necessary. In the treatment of excitement, water is employed in the form of prolonged baths and wet packs. Special equipment is needed for these and this is provided. The treatment is applied by the nurses. Other methods of using water are by means of douches, sprays and vapor, which requires special apparatus for their application. The Hospital is equipped with this apparatus, which is placed in specially prepared rooms, there being separate departments for the men and for the women. Excellent work is done in these departments, each of which is under the direction of a trained hydrotherapeutist. The apparatus was, however, installed years ago, and improved types are now obtainable. The rooms are too inadequate for present standards and needs, and those for the men especially are not well located. It would add much to the value of these departments if they could be furnished with better quarters and equipment. A separate building, to be called a "Cure House," such as may be found in European institutions, was suggested in the report for 1913. By providing separate homes for the nurses, however, the quarters now occupied by employees of the domestic force could be vacated and used for the departments of hydrotherapeutics and other forms of physical treatment in the application of which the Hospital is somewhat limited by lack of facilities. The extent to which the use of water is employed in the special forms of treatment mentioned may be gathered from the following statistics for the year: The prolonged bath was used in the treatment of 132 patients who received in all 1,297 baths; wet packs were used for 75 patients, the number of packs given being 694; in the hydrotherapeutic rooms for treatment with sprays, douches, hot cabinet, etc., 120 patients were treated; the number of treatments was 3,564; massage was employed with or without hydrotherapy in the treatment of 106 patients, and 2,477 treatments were given.

In the annual report for 1912 mention was made of the employment of directors of physical training and games for the men and for the women. These departments have developed and the work during the past year is the best that has thus far been done. Each of the directors has been given an assistant, and in the women's department excellent help has been rendered by one of the patients and by the pupil nurses, who receive some instruction in physical exercises during their course of training. The number of patients who received attention in the departments during the year was 308, of which 161 were men and 147 were women. The following exercises and games are employed: Calisthenics with and without dumbbells, striking-bag, medicine-ball, Indian clubs, chest-weights, ring and bar stalls, basketball indoor and outdoor, handball, tennis indoor and outdoor, bowling, golf, field-hockey, baseball in and outdoor, roque, croquet, quoits, skating, skiing, etc. The physical directors and their assistants also take patients for country walks and picnics, and join with them in social parties and dances. The women have a good gymnasium but are much in need of a bowling alley. The men's gymnasium is quite dilapidated and inadequate and, just as the year had closed, their bowling alley was destroyed by fire. There is scarcely anything that would contribute more to the welfare of the men patients than a new gymnasium fully equipped with all modern improvements, including a swimming pool and a new bowling alley.

The grounds of the Hospital furnish for all the patients who are able to be out of doors facilities for access to fresh air and sunshine under attractive and favorable conditions. The halls and rooms are also arranged so as to secure the maximum of light and air. There are, however, always some patients who are too ill to walk or drive out and, in bad weather, all the patients are more or less restricted. In certain nervous states the sedative and soporific effect of outdoor air has a definite therapeutic value, so much so that even outdoor sleeping is desirable. Direct exposure to the sun's rays may also be applied for its invigorating effect. As the activity of the service increases and as the necessity of more precision in treatment becomes more apparent, the present facilities for outdoor treatment seem scarcely adequate. Roof gardens or more balconies, and open pavilions would add much to the resources of the Hospital in the application of the healing powers of outdoor air and sunshine.

THE NURSING SERVICE.

Owing to the increased number of admissions to the Hospital and the greater activity of the service, and also with a view to re-

ducing the working hours, the number employed in the nursing service has, during the year, been gradually increased towards the limit set by the budget. Progress has been made in the development of the school of nursing, though it has not been as rapid as is desired or needed. At the beginning of the year there were 2 pupils taking the three-years' course, and 35 the two-years' course. During the year 4 entered the former course and 42 the latter. At the close of the year there are 6 in the three-years' course and 40 in the two-years' course. Two graduate nurses were received during the year for the four months' post-graduate course. The Mt. Sinai Training School of New York affiliated during the year for three months' elective work in the nursing of mental disorders for third-year pupil nurses. Three of these pupils have been received thus far. Other schools have expressed interest in securing this advantage for their nurses, but we are unable to accommodate them for lack of room. The need of homes for the men and women of the nursing service is more than ever plainly felt. These homes would do much to facilitate progress in the development of the school and in advancing the nursing standards. Another advantage to the Hospital would be the release for the use of patients of at least twenty rooms which are now occupied by members of the nursing staff. Beginning January 1, 1915, two members of the school who are taking the three-years' course will take up that portion of the training which is given at the New York Hospital. A special assistant to the Directress of Nurses for technical nurse teaching was established during the year and the position filled by the appointment of Miss Gertrude Trefry, a graduate of the White Plains Hospital. Instruction in dietetics was given by Miss Theodoria Root, dietician of the New York Orthopedic Hospital. The lack of a special diet kitchen both for the purposes of nurse instruction and for the preparation of sick diet is much felt. Besides the lectures given by members of the resident medical staff, lectures to the senior class were given by Dr. Black, the Hospital surgeon, and by Dr. Sniffen, the dentist.

The graduation exercises were held on June 6th. Diplomas were presented by President Rives to eight graduates. The address to the graduates was made by Mr. George P. Ludlum, Emeritus Superintendent of the New York Hospital.

On the same day the Board of Governors made the annual inspection of the Hospital.

IMPROVEMENTS ON EQUIPMENT AND PLANT.

The most important piece of construction work attended to during the year was a barber shop and smoking room attached to the

department for men. This was designed and erected by our own employees at a cost of $3,500, which was provided from the appropriation of $100,000 made by the Board of Governors two years ago. The building is not yet quite ready for use. The sleeping quarters for farm employees, over the carriage house, were completed at a cost of $3,500. They accommodate 22 men and are entirely comfortable, sanitary and attractive. A wire and iron fence with brick gate posts topped by lanterns was erected at the rear of the service buildings at a cost of $475. New and larger standpipes were placed in the Hospital buildings at a cost of $2,300. The toilet rooms of Hall 4 on each side of the house were remodelled so as to dispense with the wooden stalls, and new plumbing fixtures were installed. An additional toilet room was provided for the employees' quarters over Hall 8, Men, and modern equipment installed. One of the toilet rooms in the quarters over Hall 3, Men, was enlarged and furnished with new fixtures. The employees' quarters over Halls 3 and 8 on each side of the house were rewired for electric lights and new fixtures installed at a cost of $890.17. The Dexter Cottage was reshingled, repainted, all the metal work replaced, and considerable alterations made in the building to render it suitable for use as an occupation department for the women. The work is not yet complete. The stables and cow barns were repainted and the gutters and leaders replaced in part with others of copper. The dormitory for farm men attached to the farmhouse was torn down and the exposed end of the house was renovated. The silo was removed from the garden and attached to the hay barn. Quite an attractive piece of road, made necessary by the sale of land to the Burke Foundation, was constructed near the southern boundary of the property. The old garage was remodelled for use as a paint shop and machine shop at a cost of $400. Two rustic summer houses were erected in the women's recreation grounds, and six rustic lawn benches were purchased. One of the small dynamos was replaced at a cost of $500. A room in the basement under Hall 7, Men, was fitted up and equipped as a printing shop at a cost of $350. The men's workshop at the gymnasium was also improved by dividing off from the main shop a room for joinery and adding some equipment. The Nurses' Club Room in the Men's Gymnasium was improved by additional furniture, rugs and curtains. A filter for the lake water was installed at a cost of $1,500. The medical library was improved by some additional shelving and furniture and new books. A moving picture machine was added to our resources, and on summer evenings pictures were displayed on an outdoor curtain for the benefit not only of our own patients but those from the convalescent homes and the crippled children from

B

St. Agnes' Hospital. Four pianos were purchased. A gas main was laid to connect the hospital with the Westchester Light and Power Company's system, at an expense of $1,500. Much shrubbery which had become overgrown was thinned out and removed. A number of dead trees were cut down and much pruning done. Wheeled stretchers, operating tables, cabinets, screens, and other medical and nursing equipment were added during the year. Much interior painting was done and some new carpets and furniture added in the patients' quarters.

FINANCIAL.

The total number of patients treated during the year was 551. Of these 58 were cared for free, and 227 paid less than the average weekly cost of maintenance. The number thus cared for was 41.1 per cent. of the total number treated. The cost to the Society of the care and treatment of these patients was $78,597.35, which is equivalent to the maintenance of 87 free beds. The John C. Green Memorial Fund furnished $7,606.41 towards this expense, and was applied in accordance with the terms of the Memorial, to the support of 46 women. The average weekly per capita cost of maintenance was $17.31. This includes the cost of maintenance of the properties at White Plains and Oakland Beach, which are used for the purposes of Bloomingdale Hospital, salaries and wages, supplies, ordinary repairs, and all other ordinary expenses. It does not include capital charges and amounts spent for extraordinary renewals and improvements for which special appropriations were made.

OAKLAND BEACH COTTAGE.

The Cottage at Oakland Beach was open from June 17th to October 15th. Ninety-one parties, consisting in all of 591 patients, visited the Cottage during this period, going over by automobile and remaining during the day, enjoying seaside pleasures and healthful exercises. Ninety patients remained at the Cottage for more than a day at a time, the average daily number in residence being eight. The motor boat gave much enjoyment, making 66 trips and carrying in all 442 passengers. One trip was made for the children of the Campbell Cottage. The amount received from patients for the use of the Cottage and for transportation was $1,758, which scarcely pays the interest on the cost of the property.

CONVALESCENT COTTAGE FOR MEN.

The Cottage for convalescing men from the New York Hospital was, for the first time, kept open throughout the entire year. The

number of patients admitted was 212, and 7 remained from the previous year, making 219 who received treatment. The number of Hospital days was 3,351. The cost of maintenance for the Cottage for supplies and service was $4,461.

NEEDS OF THE HOSPITAL.

During the coming year it will be necessary to replace three of the steam boilers at an expense of $10,000. Some of the hot water boilers also require renewal at a cost of $1,000. At the same time it would be advisable to make some changes in the pumping station at the lake, in the indirect heating and ventilating system, and to make provision for burning the garbage. The condition of the Hospital plant, considering its age and use, is generally good. Ordinary repairs and minor renewals and improvements are being constantly made out of the funds provided by the annual budget. Special funds are, however, required for changes and improvements which are needed to bring the structural conditions, the equipment, and facilities for treatment into harmony with the present-day standards, which are different from those of twenty years ago when the buildings were erected and furnished. The wooden stalls and trim in the bath and toilet rooms are in marked contrast with the type of construction employed now, and should be replaced with impervious material. Modern plumbing fixtures should also be installed. Some additional bath rooms would place the Hospital in position to supply more frequently the requests for private baths, which are increasing in number. The total expense for the bath and toilet improvements needed would be about $25,000. Pantries, food lifts, and food conveyors should be made more sanitary and efficient. Woodwork should be replaced with metal and tile. Steam tables and cabinets should be installed, and the more expeditious electric power should take the place of hand power for the food lifts. The total expenditure required would be at least $10,000, though if electric lifts were omitted the larger part of the expense would be avoided. The improvement of the employees' quarters begun two years ago should be completed. The expense would be about $8,000. The hydrotherapeutic departments require better facilities. A small surgical operating room for each side of the house is much needed. The cost for each would be about $4,000. Some additional expenditure for fire protection would also be advisable, though not urgently needed. An expenditure of about $4,000 would provide for fire-proof doors at all stairway exits and at openings in division walls. A clock system to take the place of the present unreliable and expensive collection of clocks would facilitate good

order and efficiency. We are advised that the tower clock is worn out and will have to be replaced at a cost of about $400. The cost of an electric clock system would probably be about $3,500. An officers' call system would save much time and effort for the physicians and employees and for the patrons of the Hospital. The need of a new gymnasium for the men to take the place of the present inadequate building has been mentioned in previous reports. This has been accentuated by the loss of the bowling alley by fire and the damaged condition of the rest of the building. The cost of a suitable building in addition to the appropriation already made for a workshop would be about $25,000. A bowling alley for the women's gymnasium is also desired, and would cost for building and equipment not over $4,000.

One of the greatest needs of the Hospital is for Nurses' Homes. Encouraging progress has been made in the development of the training school and in raising the standard of nursing. The lack of suitable provision for the comfort and social life of the members of the nursing force is felt now to be the greatest obstacle.

In the further development of this department of the work of the Society of the New York Hospital it can be plainly seen that, the needs of the mentally sick, as they come to our attention, require, in addition to the provision already made, three lines of development: (1) Better provision in the city for receiving patients and for the treatment of acute conditions; (2) better separation of the different types of cases on the property at White Plains; (3) better provision for convalescence and a period of after-care. Practical plans for development in these lines could very readily be formulated, and though they would require large funds, they are so clearly what is needed to provide for wants that are widely felt that, if adopted by your Honorable Board, they would, I am sure, be carried into effect.

GENERAL.

The usual social dances and other entertainments for the patients were held during the winter months, and outdoor sports, picnic parties, drives and other outdoor exercises and pleasures were enjoyed throughout the year. Religious services were conducted as usual by the Chaplain, Rev. Frederick B. Van Kleeck, and his assistant, Rev. William H. C. Lylburn.

The following changes took place in the medical staff: Dr. Albert Durham resigned from the position of second assistant physician July 1. He had served the hospital with remarkable fidelity and ability for twenty-two years, and is much missed. On July 1 Dr. M. Louise Frazee, a graduate of Johns Hopkins Medical School, and

on September 23 Dr. James L. Tower, a graduate of Queen's University in Arts and Medicine, were appointed to the position of medical interne.

On July 1 Mr. Earl R. Quackenbush resigned from the position of Steward. He was succeeded on September 1 by Mr. Emil Strateman, who for fourteen years had served the Hospital acceptably in the positions of stenographer and Chief Clerk.

On June 20 Miss Mary C. Blanchard, who had for twelve years served the Hospital efficiently in the position of housekeeper, resigned. On September 15 she was succeeded in the position by Miss Rye Morley, who had just previously been Superintendent of Nurses of the Mt. Sinai Training School for Nurses in New York. On July 1, on account of a serious injury, Mrs. Medora Amsden, who had for six years conducted the occupational department for women, resigned. It was she who, as a labor of love, started the department in 1908, and by her unselfish earnest capability built it up to its present proportions. She was succeeded by Miss Pauline Gunderson, who had been her assistant. On August 18 Mr. R. Ellinger Blithe resigned as director of the men's occupational department. He was succeeded by Mr. Joseph H. Vertrees, a graduate of the Teachers' College of Columbia University. During the year the position of librarian and musician was established, and Miss Natalie M. Ashley, a graduate of the New England Conservatory of Music of Boston, was appointed. This position will, we believe, lead to the utilizing with more efficiency and precision the libraries and musical equipment. Forty-four volumes were added to the patients' library during the year. Miss Annie Purcell, who had been a faithful member of the nursing service for thirty-two years, died at the Hospital on August 17, 1914.

We are indebted to Miss Elizabeth Jordan and Miss Kate Douglas Wiggin for gifts of books, and to other friends in White Plains and New York for musical entertainments during the year.

Acknowledgment is due the members of the medical staff, the executive officers, and the employees for the loyal and efficient service which they rendered during an unusually active and, in some respects, an unusually difficult year.

To the Bloomingdale Committee and to your Honorable Board I beg to express again my appreciation of the wise guidance and support which I have unfailingly received.

Respectfully submitted,

WILLIAM L. RUSSELL,

Medical Superintendent.

REPORT OF THE ASSISTANT SUPERINTENDENT, CAMPBELL CONVALESCENT COTTAGES, WHITE PLAINS, NEW YORK.

To the Board of Governors:

GENTLEMEN:—I respectfully submit the following report of the convalescent women and children for the year 1914:

The cottages continue their activity of service, and there have been many interesting recoveries. While the number of patients admitted was somewhat less than that of last year, this is accounted for in the fact that a greater proportion of patients made a more or less lengthy stay, fully fifty per cent. of the women having been kept three weeks. Many of these women were too sick to improve noticeably in a fortnight, while others who were recovering from major operations were given every opportunity to return home with wounds entirely healed. Twelve cases were transferred to the Hospital during the year.

In several surgical instances the recoveries were very gratifying, proving what pure air, nourishing food and complete rest can accomplish. One woman who had undergone a serious operation and had been in the Hospital ward for five months, made the remarkable gain of seventeen pounds in three weeks. Her treatment consisted of daily dressing of the wound, extra nourishment and outdoor rest.

Contagion visited the institution several times, but with the exception of a somewhat severe form of measles in February, the various attacks were brief and mild.

It would be difficult to decide whether it is more gratifying to see a child gradually recover from a wound which had threatened to remain permanently unhealed, or to contemplate the case of a child whose condition would not justify a necessary operation, but who was so fully restored to health in the country that the operation was finally declared unnecessary.

The children who respond least satisfactorily to the labor spent on their behalf are marasmus babies and feeding cases. The older children are able to reap the full benefit of country air in all seasons, but the advantages of fresh air in cold weather are lost to the very young children who have no vitality. At intervals there are periods of many weeks during which there is no baby who could be discharged in good condition. Our experience in this particular coincides with the growing opinion of those who have interested themselves in various methods of infant care and feeding.

The automobile rides to the beach are one of the summer's greatest attractions, and on more than one occasion they have been supplemented by a ride in the Bloomingdale boat. The children also enjoyed motion pictures on the Bloomingdale lawns on the Fourth of July and other occasions.

The kindergarten and school department continues its pleasant instruction. Very few of our children have absorbed even a moderate amount of education, and their backwardness is painfully evident. The patient efforts of the teacher to develop their minds along individual lines are sometimes quite encouraging, particularly in the instances of children who remain in the cottages a considerable length of time. All the children join in the practical class work and show very pretty results in the spring exhibition of basket-weaving and drawings, and in the Christmas decorations.

Repairs to the hedge and the addition of rose bushes to the shrubbery have added to the attractiveness of the grounds. The annual indoor painting has been done, and the walls of the entire institution have been washed. The exterior woodwork and the iron fence have been given a fresh coat of paint. A few pictures purchased and others given to the institution have brightened several cottage walls.

Further protective measures against danger from fire have taken the form of a fire-proof ceiling in the cellar. The electric wiring has been overhauled by competent men, and is in good condition.

The winter brought many needy cases among both women and children, and the cry of poverty and distress was heard on all sides. Many friends had our women and children generously in mind at Christmas time, and perhaps it was because we were thus enabled to give so much pleasure to those who had expected so little that the past Christmas was the happiest the cottages have ever seen.

The institution is indebted to a number of friends for kindness which is shown in many forms from time to time, and which is a source of encouragement to those who have the welfare of the institution at heart.

The sympathetic advice of the Committee continues to encourage me in all my efforts.

Respectfully submitted,

ALICE C. ELLISON,

Assistant Superintendent.

CAMPBELL CONVALESCENT COTTAGES.

December 31, 1914.

Donations for 1914.

Mr. George L. Rives	$10.00 for Christmas books for women and children.
Mr. Howard Townsend	$10.00 for Christmas.
Mr. Edward W. Sheldon	Case of grape fruit for Christmas.
Mr. Waldron P. Brown	$20.00 for Christmas.
	Yearly subscriptions for nine magazines for nurses..
Mr. Frank K. Sturgis	$10.00 for Christmas.
Mr. Augustine J. Smith	$5.00 for Christmas.
	Tennis balls for children.
Mr. David B. Ogden	Toys for Christmas.
Mr. J. Woodward Haven	$25.00.
Mrs. George De Witt	$8.00.

GOVERNORS

OF

THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the first of January, 1915, with the date of their respective elections and the length of time they continued in office:

Governors.	Elected.	Resigned.	Served the Institution.	
A.				
Charles Ward Apthorp	1770	1784	14 years	
William Axtell	1770	1784	14 years	
John Alsop	1784	1788	4 years	
Gilbert Aspinwall	1799	1809		
Gilbert Aspinwall	1811	1812	15 years	Died in office, 1819.
Gilbert Aspinwall	1815			
John Atkinson	1800	1809	9 years	
John Aspinwall	1814	1817	3 years	
John Adams	1818	1854	36 years	
Stephen Allen	1823	1830	24 years	Died in office, 1852.
Stephen Allen	1835			
Augustine Averill	1848	1857	9 years	
John Jacob Astor	1860	1864	4 years	
George W. Abbe	1877		2 years	Died in office, 1879.
William W. Astor	1879	1882	3 years	
James W. Alexander	1904	1905	1 year	
B.				
Gerardus William Beekman	1770	1777	7 years	
George Bowne	1770	1784	26 years	
George Bowne	1785	1797		
William Bayard	1777	1784	7 years	
Robert Bowne	1784		34 years	Died in office, 1818.
Aaron Burr	1784	1792	8 years	
James Beekman	1785	1787	2 years	
Theophylact Bache	1785	1797	12 years	
Thomas Buchanan	1785	1800	15 years	
Francis Basset	1785	1787	2 years	
William Backhouse	1787	1792	5 years	
Nicholas Bayard	1794	1798	4 years	
John Barrow	1795	1807	12 years	
Samuel Bowne	1796	1797	1 year	
William Bayard	1800	1802	2 years	
Walter Bowne	1800	1805	5 years	
Dr. Samuel Bard	1801	1802	1 year	
Rev. Abraham Beach	1801	1806	5 years	
Thomas Buckley	1802	1842	40 years	
John Bogert	1804	1817	13 years	
John L. Bowne	1810	1815	5 years	
Abraham Barker	1813	1816	3 years	
Robert H. Bowne	1815	1827	12 years	
William Bayard, Jr	1818	1823	5 years	
John L. Buckley	1842	1855	13 years	

Governors.	Elected.	Resigned.	Served the Institution.	
James W. Beekman	1850	1854	23 years	Died in office, 1877.
James W. Beekman	1858			
Nathaniel P. Bailey	1858		33 years	Died in office, 1891.
James M. Brown	1861		29 years	Died in office, 1890.
Theodore B. Bronson	1864	1868	4 years	
James H. Banker	1869	1876	8 years	
James William Beekman	1884		24 years	Died in office, 1908.
Cornelius N. Bliss	1885	1899	14 years	
Cornelius N. Bliss	1901	1908	7 years	
George S. Bowdoin	1887	1903	16 years	
Waldron Post Brown	1887		27 years	Continues in office.
Thomas H. Barber	1898	1903	5 years	
George F. Baker	1899		16 years	Continues in office.
Charles S. Brown	1904		11 years	Continues in office.
Henry G. Barbey	1909		6 years	Continues in office.
Cornelius N. Bliss, Jr	1909		6 years	Continues in office.
C.				
David Clarkson	1770	1777	7 years	
Matthew Clarkson	1792	1822	30 years	
John Campbell	1794	1797	3 years	
John B. Coles	1796	1798	2 years	
Isaac Collins	1800	1808	8 years	
John T. Champlin	1801	1811	10 years	
John G. Coster	1801	1803	2 years	
Samuel Corp	1801	1802	1 year	
Richard Cunningham	1812	1814	2 years	
Cadwallader D. Colden	1812	1827	15 years	
Nathan Comstock	1818	1823	5 years	
Duncan P. Campbell	1818	1827	9 years	
John Clark, Jr	1819	1834	15 years	
Isaac Carow	1826		24 years	Died in office, 1850.
Robert C. Cornell	1832		13 years	Died in office, 1845.

1913	Miss Louise Zabriskie	Private Nurse	Nashville, Tenn.
1914	Miss D. Zimmermann	Private Nurse	New York City.

LEGACIES TO THE HOSPITAL.

The Hospital has been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following clause, however, may be suggested:

"I give to THE SOCIETY OF THE NEW YORK HOSPITAL the sum of.....dollars."

If land or any specific personal property such as bonds, stocks, &c. is given, a brief description of the property should be inserted instead of the words "the sum of.....dollars."

The Society of the New York Hospital

WITHDRAWN

NEW YORK HOSPITAL—Broadway, opposite Pearl Street

Opened for Patients January 3, 1791

TO THE LEGISLATURE OF THE STATE OF NEW YORK

The Governors of the Society of the New York Hospital respectfully present their Annual Report of the state of the Institutions under their charge for the year 1915, as required by law.

MINUTE ADOPTED

BY THE

BOARD OF GOVERNORS, DECEMBER 7, 1915,

UPON THE RETIREMENT OF

GEORGE L. RIVES

FROM THE OFFICE OF

PRESIDENT OF THE SOCIETY OF THE NEW YORK HOSPITAL

After eight years of service as President of The Society of the New York Hospital, Mr. George L. Rives has declined to permit his re-election to that office. It is with the deepest reluctance that the Governors have acquiesced in his decision. They desire to record here this minute of their grateful appreciation and keen admiration of all that he has accomplished for the Society.

In December, 1907, when Mr. Rives was first chosen President, a memorable chapter in the corporate history began. To those of us who were then members of the Board, it is a pleasure to recall the systematic way in which he assumed his duties. He brought to their performance a lofty civic spirit, wide experience in many forms of philanthropic endeavor, profound learning, a judicial openness of mind, rare judgment and unwearying industry. The reorganization and co-ordination of the entire field of the institution's work were his manifest and unswerving purpose. Possessing a broad knowledge of medical standards and practices, familiar with the development and proper functions of hospitals in their relation to metropolitan life, comprehending the value of the educational as well as the humane side of their work, gifted with consummate administrative capacity and with a genius for understanding and dealing with men, his efforts have been rewarded with distinguished success. We can look back with pardonable pride on the long series of important steps which have been taken during these eight years. The reconstitution of the medical and surgical staff, the constant improvement of the plant of the main hospital in Fifteenth and Sixteenth Streets, the similar betterment

NEW YORK HOSPITAL AS IT APPEARED IN 1869—BROADWAY, OPPOSITE PEARL STREET

of the House of Relief in Hudson Street, the expansion of the teaching facilities of both hospitals through the alliance with the Cornell Medical School, the institution and enlargement of our social service activities, the further valuable addition to our city work of the children's convalescent hospital at White Plains, the improvement of the medical and physical facilities for the scientific and curative treatment of mental diseases at Bloomingdale Hospital, and the inception and guidance of the larger plan for the construction of a new group of modern hospital buildings in this city, constitute an aggregate of corporate progress which make Mr. Rives' incumbency of the presidency an epoch in the life of this ancient institution.

While we thus regretfully consent to relieve him of the great burden of leadership which he has so commandingly borne, we look forward with heartfelt satisfaction to the opportunity, which his presence on our Board will give, of continuing to avail of his wise counsel and service in the future conduct of the Society's affairs; and we extend to him our earnest and affectionate wishes for the early restoration of his health.

ANNUAL REPORT

OF THE

GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1915.

In conformity with the provisions of its charter, granted by Royal authority, June 13, 1771, in the reign of King George III., the Governors of the Society of the New York Hospital present their Annual Report and a statement showing receipts and expenditures for the year 1915 of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, including the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the department for the treatment of mental diseases known as Bloomingdale Hospital, and the Convalescent Cottages at White Plains, Westchester County.

The detailed reports hereto annexed, which deal with the many and varied activities of the Society for the twelve months recently ended, relate to the history of a remarkably successful and useful year. Never in the history of the Society have we been able to afford care and treatment to so many sufferers, never have our receipts been larger, and never of recent years have our expenditures been proportionately more moderate in comparison with the relief we have extended.

While our apparent deficit, that is, the excess of expenditures over current receipts for 1915 ($16,491.90), was almost the same as for 1914 ($16,711.71), a more complete statement of our financial condition must take into account the amounts paid during the year 1915 for extraordinary repairs and renewals and for permanent improvements, which came to $41,953.21, all at Bloomingdale. This shows an improvement over 1914 amounting to $42,173.02, and, as the average deficits for the preceding three years were even larger, we have abundant cause to be thankful.

These extraordinary expenses at Bloomingdale have consisted of a much-needed storehouse, a building for the Occupation Department for male patients, and many improvements in the main buildings. The water supply improvements have also been carried forward as well as extensive and important changes in the living rooms of the employees. But the need for a men's gymnasium,

NEW YORK HOSPITAL—West Fifteenth Street

Completed 1877

a home for nurses, and a small detached villa for women patients, still exists.

Bloomingdale, however, is not the only department of our work where extensive renewals and repairs are, or shortly will be, seriously and even imperatively needed. At the main hospital (Fifteenth Street) the boilers and machinery will, before long, require extensive overhauling or renewal, and the same is true of other features of these old buildings. The vast amount of work done by the House of Relief is being carried on in very inadequate quarters; and though its buildings are relatively modern—being only about twenty-five years old—it is certain that some extensive work of renewal will soon have to be undertaken.

The Dispensary attached to the main hospital has been far outgrown, owing partly to the natural increase of applicants and partly to the demands of new cases growing out of the Workmen's Compensation Law—nearly eighty thousand treatments being given there in 1915. It is hardly possible to increase the capacity of this department so long as it is housed in the basement of the present Administration Building, and what is urgently needed is, therefore, a new and much larger building. Not only do we need more room and better facilities for the physicians and surgeons constituting our present Out-Patient Staff, but we must also provide opportunities for specialists in diseases of the eye, ear, nose, throat, skin, nervous system, and so forth, who are not represented at all on our present staff. The help of specialists in making diagnoses and in instituting the appropriate treatment has become imperatively necessary, owing to the rapid progress made of late years in the science of medicine. At the present time, patients applying at the New York Hospital who are suffering from diseases usually treated by specialists, must necessarily be sent elsewhere. It is needless to dwell on the injury thus caused to our hospital, and on the urgency of putting our Out-Patient Department on a par with that of other institutions of the same rank, or of making it one where ambulant patients suffering from diseases and infirmities of all kinds, not contagious, might apply for and receive relief.

There are many other directions in which money might very well be expended, if it were available, but this use of it is one of the most needed.

The Governors, some five years ago, after long deliberation, determined on the purchase of a new and, in many respects, excellent site for the main hospital, which was to constitute the entire block between Fifty-fourth and Fifty-fifth Streets, and Eleventh and Twelfth Avenues, fronting for its whole length on De Witt Clinton Park. The exact cost of the property purchased was $1,437,481.94, but a part of the land is still subject to five

mortgages, aggregating $125,000. Architects were employed and plans were drawn for the buildings, but nothing was actually done toward improving the property. This was due to the passage of an act of the Legislature, approved by the Governor, July 29, 1911, which authorized an agreement between the City of New York and the New York Central Railroad Company, relative to tracks on the westerly side of the city (see Chapter 777, Laws of 1911).

Under this Statute, negotiations were begun which produced much uncertainty as to the probable future development of property in the neighborhood of Fifty-fourth Street and the Hudson River. The building of long piers in the vicinity was under consideration, involving the excavation of slips far back of the present water front, and also the re-location of the railway through the middle of the block, or on a viaduct adjoining the Hospital property. So far as this difficulty is concerned, it may be stated that the City and the Railroad Company are reported to have recently reached a tentative agreement; but until the details are settled and the agreement itself is concluded, it will not be possible to say how it affects the availability for hospital purposes of the plot in question.

Reference may be made to the recent inquiry instituted by the State Legislature into the conduct of the Bloomingdale Hospital. By a resolution of the Assembly, passed February 21, 1913, at the request of authorities of White Plains, a joint committee was created to investigate the property holdings of the Society; the number of patients treated; the charges made for their board and treatment; and the annual income of the Society and of the Bloomingdale Hospital. After slumbering for a year, the project was revived and the time of the Committee to report was extended until February, 1915, and after numerous hearings, the Committee finally submitted its report near the beginning of the last session of the Legislature. Although originated in hostility to the Society, the Committee chose to follow the example of Balaam, the son of Beor, and instead of cursing the Society, it blessed us altogether. The report of the Committee commended the management of the hospital, declared it a charitable institution notwithstanding some of the patients paid for their board, upheld the Society in declining (under the statute) to pay local taxes, and concluded by some discussion of the propriety of requiring charities, whose main office was in one County, to pay taxes in other Counties where they had lands, even though devoted to charitable purposes. This principle they commended to the late Constitutional convention, in which (it need scarcely be said) no notice was taken of the suggestion.

During the year, the following changes have taken place in the Board of Governors: Mr. Rives, President since December, 1907, declined a re-election, and the Vice-President, Mr. Townsend, was

elected in his place. Mr. Sheldon, the Treasurer, was chosen in place of Mr. Townsend, and Mr. Tuckerman was elected Treasurer.

Mr. Waldron P. Brown, noted for his careful industry and his interest in the affairs of the Bloomingdale Hospital, died on May 15, 1915, and Mr. Henry A. C. Taylor resigned. Mr. Henry R. Taylor was elected to succeed his father.

In the Medical Staff, Dr. Francis W. Murray resigned as Attending Surgeon after twenty-two years of loyal and devoted service; he was appointed Consulting Surgeon November 3, 1915.

We have also had the misfortune to lose by death Miss Adeline Henderson, who had served for many years as Directress of Nurses. She had graduated at our own School in 1892, and died at the Hospital on November 24, 1915, after a long illness, greatly loved and mourned by all the nurses of the Hospital.

We have received and gratefully acknowledge a gift of $5,000.00 from Mrs. Fordham Morris, the widow of a former Governor, given to endow a bed to his memory; also $6,950.07 in cash and certain securities (the value of which has not yet been ascertained) under the will of Frank J. Ransom, deceased; and of $1,000 under the will of Wilson M. Powell, deceased, who was for many years the principal legal adviser of this Society.

The history of the past year, we think, fully justifies us in asserting that this venerable charity has never been more successful, or more capable of carrying out the purposes of its founders, and has never done more and better work in caring for the needs of those who are in any wise afflicted or distressed in mind or body. Our opportunities in this great community are hardly measurable and are increasing far beyond our power to deal with them. If we are to continue to provide for even a modest proportion of the work which is lying ready at our hand, it can only be by large additions to our funds; and these we urge with all earnestness.

HOWARD TOWNSEND,
President.

HENRY W. CRANE,
Secretary.

New York, February 1, 1916.

We have verified the above Statement of Receipts and Disbursements for the New York Hospital for the year 1915, from the report of that year, as audited by us, and certify same as correct.

Townsend & Dix, *Accountants.*

In Memoriam

WALDRON POST BROWN

Died May 15, 1915.

The Governors of The Society of the New York Hospital, desiring to pay tribute to the memory of Waldron Post Brown, for more than twenty-seven years associated in the management of this venerable charity, place upon their records the following minute:

"Mr. Brown was born in the city of New York on the 16th of January, 1848, and was therefore in his sixty-eighth year at the time of his lamented death, which occurred after a long illness on the 15th of May, 1915. His father, the late James M. Brown, for many years a member of the Board of Governors, was President of the Society from June 7, 1887 to July 19, 1890. In the first year of his presidency, Mr. Waldron Post Brown was elected a member of the Board, on December 6, 1887. After six years' service on the Board, he was chosen a member of the Bloomingdale Committee, with which he remained closely and conspicuously identified until his death. He was Chairman of that Committee for thirteen years, and served with the greatest faithfulness and the most constant appreciation of the duties of his position. In this, as in all other relations to the Hospital, he was always scrupulously regular, in his attendance, so long as the condition of his health permitted, and by his gentle courtesy and his unfailing interest endeared himself to all the officers and employees of the Institution. His associates on the Board of Governors will greatly miss his advice and experience, and they fully realize the loss they suffer in being deprived of the companionship of a man so truly unselfish and so uniformly influenced by a high conception of duty.

"Resolved, That the foregoing minute be entered in full in the records of this meeting, and that a copy suitably engrossed be sent to the widow and family of our late associate."

[Extract from the Minutes of the Board of Governors, July 6, 1915.]

REPORT OF THE SUPERINTENDENT OF THE NEW YORK HOSPITAL AND HOUSE OF RELIEF.

To The Board of Governors:

GENTLEMEN: The cost of maintaining the New York Hospital in 1915 was $293,140.57 against $285,835.98 in 1914, an increase of $7,304.59. This increase was due largely to the purchase of a new ambulance, and the payment of salaries to the physicians of the Out-Patient Department.

The cost of maintaining the House of Relief was $58,033.80, against $55,384.79 in 1914. The increased cost in this case was due largely to payment of salaries to Out-Patient physicians.

The receipts at both institutions showed gratifying increases over those of 1914. The increase at the New York Hospital was $26,-013.65, and at the House of Relief, $18,375.67.

Factors contributing to the increases were, larger income from private patients, twelve monthly payments from the City contrasted with nine in 1914, and larger receipts from patients treated under the Workmen's Compensation Law.

IMPROVEMENTS AND REPAIRS.

The old bath tubs in the Nurses' Home were replaced with new ones.

The X-Ray Room at the House of Relief was enlarged.

All the refrigerators in the Hospital were altered in order to make it possible to refrigerate with ice in case the refrigerating plant for any reason is temporarily out of service. In the past owing to the peculiar construction of the refrigerators it has not been practicable to satisfactorily cool them with ice.

Gas ranges have been substituted in place of coal ranges, and for nearly a year all cooking has been done by gas. We have found it perferable to coal because it does away with dust, dirt, and noise caused by the delivery of coal and the removal of ashes, it is more convenient, it simplifies the labor problem, and it is no more expensive. As the Gas Company regularly inspects and repairs the ranges there is also less care and responsibility.

The usual amount of painting was done at the New York Hospital and House of Relief, four painters having been employed throughout the year.

A dish washing machine was provided for the serving room connected with the Nurses' Dining Room.

MUNICIPAL AID.

The City of New York continues to partially reimburse the Hospital and House of Relief for caring for emergency cases, residents of the City, who are themselves unable to pay. The rates paid by the City in 1915 were $1.25 per day for persons over five years of age, and $.55 for those under five years. The amount received from the City was $43,598.27. of which $34,618.25 was earned by the Hospital and $8,980.02 by the House of Relief. We wish to express our appreciation to the Departments of Finance and Charities for many courtesies extended to the Hospital.

INCREASED COST OF DRUGS AND CHEMICALS.

The war has resulted in greatly increased prices for chemicals and pharmaceuticals, thus increasing the operating expense of hospitals. Germany is the leading manufacturer and exporter of many medicines in common use, and when this source of supply was shut off prices immediately began to advance by leaps and bounds. At the present time many of the most useful drugs are almost unobtainable.

The advance in prices is illustrated by the appended table, contrasting prices paid in 1914, before the outbreak of the war, with those we are paying now.

	1914	1915
Sodium Benzoate, per pound	$.27	$3.77
Mercury Bichloride, per pound	.61	1.50

Thymol Iodide, per pound	3.75	10.00
Carbolic Acid, per pound	.085	1.85

AMBULANCE SERVICE.

The amount of work done by the New York Hospital was just about the same as in 1914. There was a falling off in the number of calls received at the House of Relief owing to the fact that late in the year 1914 the ambulance territory of that Institution was cut down.

HOUSE OF RELIEF—67 AND 69 HUDSON STREET

Completed 1894

A new electric ambulance was purchased and placed in service.

The daily average number of calls responded to from the New York Hospital was 20 plus, the same as in 1914 and 1913, and from the House of Relief 11 plus, two less than last year.

HYDRIATIC DEPARTMENT.

In this Department treatment is furnished to ward, private room and out-patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number of treatments in 1915 was 6 plus.

The number of new patients treated during the year was 475, and the total number of treatments 2,244.

DENTAL CLINIC.

The work in this Department continues to increase. A dentist is on duty four mornings of each week from 9:30 until 12 o'clock. Adults as well as children are treated, and there are no charges.

The number of patients treated in 1915 was 3,121 against 2,894 in 1914. There were 160 cleanings, 663 amalgam fillings, 380 cement fillings, 1,035 extractions, 1,070 treatments, 157 root treatments, and 8 oral surgery cases.

ELECTROCARDIOGRAPHIC APPARATUS.

The Hospital received from an anonymous donor the gift of a complete electrocardiographic apparatus. The string galvanometer of this outfit is an exceptionally fine type, and was made according to the design of Dr. H. B. Williams, Associate in Physiology at the College of Physicians and Surgeons of Columbia University.

The apparatus has been installed in a room on the third floor of the dormitory building, and an insulated cable led from there to the Wards and to the Private Patient Building, so that records of the patients may be taken while they are resting in their beds.

The Medical Staff will thus have at their disposal this new method of diagnosis of cardiac disease, the value of which is becoming increasingly evident.

OUT-PATIENT DEPARTMENT.

The Board of Governors decided early in the year to pay salaries to the Medical and Surgical Out-Patient Staffs of the Hospital and House of Relief. While the individual salaries are small yet the

aggregate is considerable, and adds materially to the cost of operation of this Department of the Society's activities.

It is felt, however, that the results obtained amply justify the increased expenditure. We formerly had some difficulty in securing physicians in this Department, but since the plan of paying salaries was introduced there has been no difficulty in this respect, and the work of the Department has been more satisfactory to all concerned.

During the year 1915, 16,500 new patients applied for treatment in this Department, and the total number of treatments given was 79,544, against 75,489 in 1914, an increase of 4,055.

MISS HENDERSON'S DEATH.

Miss Adeline Henderson, Directress of Nurses, died November 24th, after an illness of several months' duration. Miss Henderson was a graduate of the class of 1892, and had been in charge of the Training School for Nurses for over eight years. She served the Hospital and the School faithfully and efficiently and was loved and respected by all. Her interest in the welfare of the Institution was maintained throughout her long illness, and her great regret was that she had to leave the work she loved so well.

Throughout Miss Henderson's illness and since, Miss Bertha H. Lehmkuhl, Assistant Directress of Nurses, has efficiently carried on the work.

Dr. A. H. Wilkinson, Assistant Superintendent in charge at the House of Relief, resigned December 1st to accept the superintendency of St. Luke's Hospital, Jacksonville, Florida.

Dr. G. W. Zulauf, First Assistant Superintendent at the Hospital, was transferred to the House of Relief.

Dr. G. W. Vannatta, Second Assistant Superintendent at the Hospital, succeeded Dr. Zulauf as First Assistant Superintendent at the Hospital.

Dr. George A. Parker was appointed Second Assistant Superintendent at the Hospital.

ACKNOWLEDGMENTS.

Dr. Tracy Farnum, House Surgeon, presented a Hawley fracture table to the Hospital.

For the past twenty-five years Miss Elliott has visited the Hospital twice a week, and spent a couple of hours entertaining the little patients in the Children's Ward. This service has been given so

quietly and unobtrusively that even some of the Hospital officials are unacquainted with her. She has endeared herself to countless scores of our children. All this service has been rendered gratuitously, without any hope of reward and without hope of recognition or any expectation of it.

Last year a gift of $250 from Col. Francis L. Leland enabled the Hospital to build a balcony outside of one of the windows of the Children's Ward. A gift from Col. Leland of a like amount this year was used in building a second balcony. These balconies have proved very useful, and contributions for building additional balconies would be much appreciated.

Large contributions of dressing gauze and bandages were received from organizations organized to furnish temporary employment to unemployed persons.

The Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts, while ordinarily inexpensive, have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under obligations to the Employment Society of St. Thomas's Church and the Friends' Employment Society, and the New York House and School of Industry for a large amount of sewing done without expense to the Hospital. For statistics, see Statistical Report.

Respectfully submitted,

THOMAS HOWELL, M.D.,
Superintendent.

REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1915.

To the Board of Governors:

GENTLEMEN:—As a consideration of the figures of the Statistical Report will prove, the medical and surgical activities of the Hospital and the House of Relief during the year 1915 shows no material change from those of the preceding year. Whereas the total number of in-patients treated at each institution has been somewhat less, the total number of days of hospital care shows a slight increase. At the Hospital the number of new out-patients treated and the number of ambulance calls correspond closely with those for the year 1914. At the House of Relief there has been a reduction of 18 per cent. in the number of ambulance calls, which, obviously, is due to the smaller size of the allotted ambulance district.

In addition to the routine medical and surgical work, ward conferences have been held weekly throughout most of the year by the joint staffs of the two medical divisions, at which obscure and interesting cases have been presented and studied and problems in diagnosis and treatment discussed. These conferences have been well attended not only by members of the attending and interne staffs but also by the physicians of the Out-Patient Department, and have been most interesting and profitable. On each surgical division complete "field rounds" have been made each week by the entire staff, and a weekly pathological conference has been held by Dr. Elser with the staff of the second surgical division. At the House of Relief a class has been organized by Dr. Barringer for the treatment of patients convalescent from cardiac insufficiency by a system of graduated exercises, which thus far has yielded very gratifying results.

The resources of the Hospital have been utilized for medical teaching more extensively than ever before. Fourth year students of the Cornell Medical College have served as clinical clerks in the wards of the first medical and surgical divisions and students of the College of Physicians and Surgeons in the wards of the second surgical division. In addition, weekly amphitheatre clinics in surgery and bedside classes in pediatrics have been given to the Cornell students by Drs. Gibson and Roper, respectively, and weekly medical ward clinics have been held by Dr. Williams for practising physicians. At the House of Relief ward classes in medicine have

been given by Dr. Cussler to students of the College of Physicians and Surgeons.

A development of much importance in the direction of increasing the efficiency of the work of the Hospital has been the introduction of a system of "following up" patients that have been discharged from the hospital and of having them return at stated intervals for examination and advice. Only in this way can the permanent results of treatment be determined and the welfare of the patients be properly safeguarded. Such a system is now fully established on both surgical divisions and arrangements have been made for its introduction on one of the medical divisions. Up to this time, however, the responsibility for this work has not been assumed by the Hospital and the burden of carrying it on has fallen upon individual members of the Medical Board. In view of the widespread recognition of this work as a proper and necessary function of a modern hospital it is to be hoped that it will soon be taken over by the Hospital and extended to all four divisions.

In the Out-Patient Department the most important event of the year has been the adoption of the policy of paying small salaries to the members of the medical and surgical staffs. This has made it possible to obtain a greater number of well-trained workers and to secure more regular attendance and the prompter and more efficient handling of patients.

The system of history records has been reorganized and is now uniform for both medical and surgical patients. The policy of establishing a special class for the treatment of all cases of syphilis has more than justified itself. The class has increased so rapidly as to have outgrown entirely its original quarters and it has been found necessary to provide an additional room for its use.

The difficulties met with in finding this additional space brings home forcibly the fact that every inch of available space in the Out-Patient Department is now fully occupied, and no further expansion or development can be made until some means are found of providing additional room.

Through the generosity of a friend of the Hospital and the active interest of Dr. J. C. Greenway there has been installed, during the year, a complete electrocardiographic apparatus of the latest and most approved type. The charge of this instrument, and its operation, has been assigned to Dr. Harold E. B. Pardee, whose training and experience have made him exceptionally well fitted for the work. This very important addition to our scientific armamentarium will unquestionably be of great value as an aid to the thorough study and the rational treatment of disorders of the heart.

The work of the Pathological Department for the year 1915 in

comparison with that of the preceding year, is shown in the following summary:

	1914		1915	
Number of Post Mortem Examinations:				
New York Hospital	82	21.0%	96	24.24%
House of Relief	49	24.1%	58	34.93%
Number of:				
Bacteriological Examinations	1,940		1,808	
Histological Examinations	1,292		1,463	
Vaccines	74		40	
*Hemoglobin Estimations	1,700		1,500	
*Red Cell Counts	200		500	
*White Cell Counts	6,300		6,000	
*Differential Counts	6,700		6,200	
*Malarial Examinations	150		300	
Widal Examinations	800		800	
Sulphonephenolthalein Tests	100		150	
Stomach Contents Analyses	200		250	
Sputum Examinations	1,800		2,000	
Urine Analyses	14,000		15,000	
Feces Examinations	1,400		1,500	
Chest Fluid Examinations	80		125	
Abdominal Fluid Examinations	30		30	
Cerebro-Spinal Fluid Examinations	75		150	
Milk Analyses	10		10	
Nitrogen Partitions	20		5	
Wassermann Reactions	1,076		1,700	
†Gonococcus Complement Diviation Tests	41		5	
Guinea Pigs Inoculated for Diagnosis	70		128	

* Many of these examinations were carried out in the wards by members of the House Staff.

† These tests were performed by Dr. Schwartz at Cornell University Medical College.

During the year the surgical staff of the Hospital has been augmented by the appointment of Drs. Charles E. Farr and Frederic W. Bancroft as Assistant Attending Surgeons to the first and second divisions respectively, and has suffered the loss of Dr. Francis W. Murray, whose resignation as Attending Surgeon the Board records with much regret. Dr. Murray's career as Attending Surgeon covers an unbroken period of twenty-three years of active surgical work and faithful and loyal service to the Hospital, to the value of which his colleagues in the Medical Board bear willing testimony.

Lewis A. Conner, *President.*

Hughes Dayton, *Secretary.*

A list of publications during the year by the physicians and surgeons of the Hospital is given below:

Dr. C. L. Gibson: "The Belgian Red Cross Hospitals of Dr. Depage." *Medical Record*, April 24, 1915.

"Occlusion of the Pylorus" (with Dr. Fenwick Beekman). *Annals of Surgery*, April, 1915.

"The Tongue Depressor Gastroenterostomy Clamp." *Annals of Surgery*, May, 1915.

"Cancer." *American Journal of Surgery*, October, 1915.

Dr. C. E. Farr: "Preparation of Patients for Operation." *Johnson's Operative Therapeusis*, Vol. I, 1915, 143.

Dr. N. B. Foster: "Accumulation of Nitrogen in the Tissues in Renal Disease." *Proc. of the Soc. for Exper. Biol. and Med.*, 1915, XIII, 33.

"The Isolation of a Toxic Substance from the Blood of Uraemic Patients." *Proc. of the Assoc. of Amer. Phys.*, 1915.

REPORT OF THE TRAINING SCHOOL FOR NURSES FOR THE YEAR 1915.

The Staff of the Training School on duty at the close of its thirty-ninth year is as follows:

Officers of Instruction:

Directress (acting)	1
Assistant Directress	1
Clerical Assistant	1
Night Supervisor	1
In Charge of Private Patients' Building	1
In Charge of Out-Patients' Department	1
In Charge of House of Relief (day)	1
In Charge of House of Relief (night)	1
Operating Room Nurses (day)	4
Operating Room Nurses (night)	1
Graduate Nurses in Charge of Wards	9
Graduate Nurses in Charge of Floors of Private Patients' Building	3
Matron of Nurses' Home	1
Dietitian	1

Pupils:

Seniors	39
Intermediates	33
Juniors	33

Owing to the increased service in the various departments it has been determined to raise the average number of pupils to 110. At present the Training School consists of 105 nurses, distributed as follows:

Hospital Wards, Public and Private	82
House of Relief	13
Lying-In Hospital	6
Sloane Hospital for Women	4

During the year 900 applications were received and considered, with the following result:

Accepted and entered on Probationary Duty	63
Accepted as Pupil Nurses in the School	52
Resigned	5
Declined	6

During the year four pupils resigned for various reasons.

The general health of the nurses has been excellent. The total number of days of illness amounted to 896; the rooms in the Private Patients' Building assigned to the nurses' use were occupied 653 days; of these, 279 days by pupils, 374 days by graduate nurses. A case of measles necessitated the use of the Isolation Ward for 18 days.

The Graduation Exercises were held in the Governors' Room, in the Administration Building, on Wednesday, March 4th; 43 pupils were awarded diplomas. In the absence of Mr. George L. Rives, Mr. Howard Townsend, Vice-President of the Hospital, presided. A most interesting resume of the Life of Florence Nightingale and excerpts from her book "Florence Nightingale to Her Nurses," were presented by Mr. Sheldon to an appreciative audience. The exercises were followed by a reception in the nurses' home, largely attended by the graduates and their friends.

A great sorrow has been experienced by the school in the loss of its beloved directress and friend, Miss Adeline Henderson, who after eight years' leadership entered into rest on November 24th. Her high ideals, her loyalty, her undaunting courage, were always an inspiration to those who received their training under her guidance and to those who had the privilege of working by her side; her great heart and her love for humanity did evermore strengthen the fibres that knit our nurses to their Alma Mater. "We feel, as perhaps it was impossible to feel before, how at every moment influences from the past enter our souls, and how we in turn scatter abroad that which will be fruitful in the distant future."

Respectfully submitted,

BERTHA H. LEHMKUHL,
Acting Directress of Nurses.

Chairman Tuberculosis Committee.

REPORT OF THE SOCIAL SERVICE DEPARTMENT.

To the Board of Governors of the New York Hospital:

DEAR SIRS:—I take pleasure in presenting to you the report of the Social Service Department for the year 1915.

We feel that the work has grown and developed during the past year and that taken as a whole the results have been very satisfactory.

With your permission we have engaged another worker for the purpose of carrying on the follow-up work and to attend the clinic.

We have succeeded in raising money for the payment of her salary for the coming year by means of a bazaar, which was held on January 27th. We feel that in adding this new worker to our staff we shall be able to accomplish a great deal in this most important branch of the work.

In accordance with your request we have prepared a statement, which is being printed under separate cover, showing just what the department is doing, its methods and aims. The different branches of work are illustrated by a short description of various cases where satisfactory results have been obtained.

The ladies of the Social Service Committee and I wish to thank you for your support and encouragement and hope that the report of the work as carried on in the past year will meet with your approval.

Very respectfully yours,

ELEANOR ISELIN,

Chairman of Executive Committee.

Social Service Auxiliary to the New York Hospital.

To the Board of Governors of the New York Hospital:

GENTLEMEN:—We are glad to be able to report a broadening and development of our work during the past year, as well as an increase of co-operation and enthusiasm.

We have been able to trace actual results in our preventive and convalescent work. Through the generosity of the heirs of the Van Buren estate, we again had use of the property opposite the Hospital for the benefit of children selected from the clinics. The play-ground thus obtained, was put in good order and made very attractive by two members of the Auxiliary Committee. It was opened during the summer and through the kindness of the Parks and Play-ground Association, a worker was furnished daily during the months of July and August. The average daily attendance in July was 79; in August, 106. Most of these children were also sent on Fresh Air Outings. Of 280 Fresh Air Children, only three have returned to the Hospital because of serious illness and these three returned on account of surgical conditions.

The convalescent work has been large, 1,378 patients having been sent either to our own cottage or to various other convalescent homes.

With the exception of some chronic cases and of cases sent away for the purpose of being built up for operations, very few of these patients have since returned to the wards of the Hospital.

It is also gratifying to feel that the work of the Social Service Department at the House of Relief is now receiving regular attention through the worker whom you have provided. The work here is gradually growing and we hope that in the future, much will be accomplished there.

We are very grateful to Miss Sutliffe who still continues her valuable volunteer services and who at present is carrying on the work at the House of Relief, during the temporary absence of the regular worker.

On the first of January, the Auxiliary Committee assumed the responsibility of paying the salary of a nurse for the "follow-up" work, which is connected with the "follow-up" clinics. Her work, however, is not confined to the patients of these clinics, but includes the looking up of any patients concerning whom a doctor may desire a report or a return.

The work of the Tuberculosis and Childrens' Clinic has progressed favorably. The workers, aside from the one at the House of Relief and one who is on duty only for the Tuberculosis Evening Clinics, which occur twice each week, now number six, viz.: the head worker; her assistant (who is provided by the Auxiliary Committee); the nurse of the Children's Clinic; the nurse of the Tuberculosis Clinic; the "follow-up" nurse and a worker, not a nurse, who is provided from a private source.

We are glad to report that four of the graduate nurses of the Hospital have done regular volunteer service with us during the year, in order to acquire some knowledge of Hospital Social Service work.

We feel the keenest appreciation of the Auxilliary Committee to our department, without whose splendid help and co-operation much of the work we have been able to do must have gone unaccomplished, and because of whom the workers have found encouragement and inspiration. Through the efforts of this committee many self-respecting families, undesirous of accepting charity, have been supplied with sewing, etc., while the wage-earner was ill in hospital. Through the generosity of this committee over 4,000 quarts of milk have been dispensed.

Dinners were provided at Thanksgiving and at Christmas to families connected with the Hospital. Gifts of warm clothing were given out on Christmas Eve and on New Years' Eve the usual tree, with its gifts and an entertainment, were provided for the benefit of about 400 children.

We owe thanks to the Y. W. C. A. for the room which was given at a nominal rental for the weekly sewing classes, and we wish to

express our appreciation of the valuable aid given by the volunteers who are supervising these classes.

We are also glad to make public acknowledgment of the valuable co-operation given us by the Social Service Exchange Relief, and other organizations in the city.

We feel deeply grateful to the Convalescent Homes, Boys' Camps, Fresh Air Funds, and Homes, wherein such good care has been taken of our children and other patients. And we are especially indebted to the Burke Foundation wherein so many of our patients have made remarkable convalescence.

The sums of money given to the Superintendent of the Hospital and to the Chairman of the Tuberculosis Committee for our work, from the Haven Fund, have been of the greatest assistance to us.

Furthermore we wish to thank the friends of the Department who have sent us clothing to dispense, toys for the tree at New Years', Christmas dinners and other benefits. And we are glad of the co-operation from the officers and staff of the Hospital, the wards, dispensary and our convalescent cottages.

The following statement of work done during the year includes that of all divisions:

Number of new cases	2,100
Visits made to patients, institutions, etc.	5,314
Accompanied to trains, homes, etc.	145
Clinics attended by workers	557
Referred to co-operative agencies	486
Sent to convalescent homes	1,378
Sent to fresh-air homes	280
Sent to tuberculosis hospitals, sanatoria and preventoria	78
Sent to permanent homes	10
Clothing given to families	283
Eggs dispensed from New York Hospital. . dozen	2,564½
Milk dispensed from New York Hospital. . quarts	10,240
Milk dispensed from Social Service Department.	4,164
Referred to hospital and dispensary	340
Surgical appliances and supports given	133
Thanksgiving baskets given	80
Christmas baskets given	94
Letters written	1,044
Received for special cases and causes over and above amounts received from Treasurer of Auxiliary and Haven Fund	$1,078.72

Respectfully submitted,

HANNAH LOUISE JOSEPHI,
Head Worker.

THE SOCIETY OF THE NEW YORK HOSPITAL.

ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT OF BLOOMINGDALE HOSPITAL, WHITE PLAINS, NEW YORK.

To the Board of Governors:

GENTLEMEN:—I beg to submit the following report of the operations of Bloomingdale Hospital for the year ending December 31, 1915:

ADMISSIONS.

The total number of admissions during the year was 193, of which 85 were men and 108 were women. There were nine less persons than cases, this number having been admitted more than once during the year. Ninety-nine, of whom 38 were men and 61 were women, were admitted on their own application. These constituted 51 per cent. of all the admissions; 45 per cent. of the men, and over 60 per cent. of the women. Fourteen who had applied voluntarily were afterward placed under legal detention. Seven of the cases were admitted by direct transfer from other institutions for mental dis-

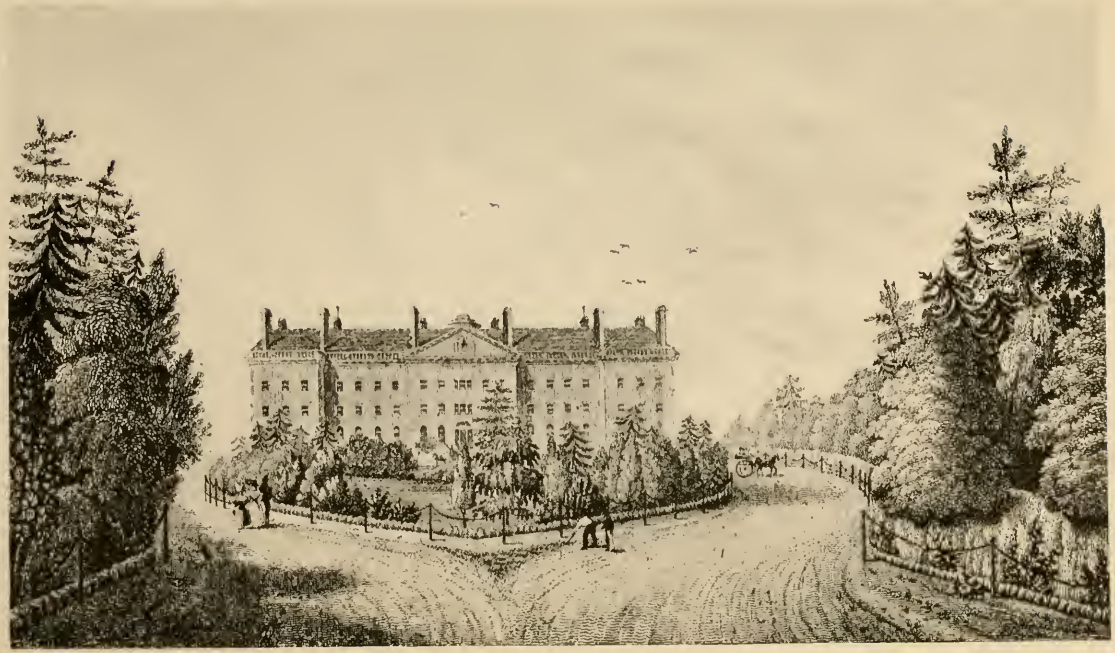
orders. Sixty-two others, constituting 32 per cent. of the total admissions, had, at some time previously, been under Hospital treatment, 13 of them at this Hospital. One hundred and fifty-seven of those admitted were suffering from the first attack, and 108 had never received Hospital treatment. Thirty of the latter, however, constituting 27.7 per cent., had been recognized as mentally disordered for more than a year before admission, and only 34, constituting 31 per cent. of the admissions, had been ill for as short a period as 3 months or less. In over 75 per cent. of the patients admitted, the forms of disorder were of the types which are regarded as functional. Among the recognized organic types of disorder presented, there were 18 cases of paresis. These were all men and constituted 31 per cent. of the male admissions. A great increase in the number of cases of this disease in the admissions has occurred during the past two years, as a result of the introduction of the intra-spinal method of treatment. This treatment has been employed with some measure of success, but in many instances the good results obtained are not lasting and the exact value of the treatment has not yet been determined.

Four of the patients admitted were cases of alcohol or drug habit. They were committed under the inebriety provision of the insanity law which was enacted in 1913. This provision permits of detention for a period not to exceed one year. The hospitals for mental disorders are not in all respects suitable for the treatment of this type of patients, nor are the patients always desirable inmates. There is, however, no other equally good provision for their treatment under detention, and it seems necessary to receive a few. Some are willing to apply voluntarily for admission, but they are seldom willing to remain longer than the time required to sober up and to regain a fair return of the feeling of physical vigor. It is, therefore, more satisfactory to have papers permitting of their detention

The ages of the patients admitted ranged from 14 to 80. Slightly more than half, 52 per cent., were under 40 years of age, and slightly more than a quarter, 37 per cent., were under 30. About 11 per cent. were over 60, and about 61 per cent. were between 30 and 60.

DISCHARGES.

The total number discharged was 208. Of these, 30 were classed as recovered, 29 as much improved, 56 as improved, 22 unimproved, 14 died, and 35 were transferred to other institutions. Of the 14 who died, seven were of each sex. The causes of death were pneumonia with brain disease or senility, heart disease, paresis, septicaemia, chorea, and acute mental disorder with complications in the circulatory system. The number of deaths constituted 7 per cent. of the total discharges, and 2.7 per cent. of the total number of cases treated.



BLOOMINGDALE ASYLUM—1821

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

The practice of carrying patients on the books for a period after they leave the Hospital and extending advice and treatment while an adjustment is made to the requirements of ordinary life was continued during the year. For this service no charge is made. The average daily number thus carried on the books was 23, and at the close of the year there were 33. Many of these patients visit the hospital or call at the New York office, and efforts are made to aid them in shaping their lives and becoming socially adequate. This is looked upon as an extension of the treatment begun at the Hospital and as preventive work. Assistance in this work has been given by the Social Service Department of the New York Hospital and by the State Charities Aid Association. Most of the patients discharged from the Hospital have friends who are able and willing to provide whatever assistance they may need. In many instances, however, steady work and a special environment, often quite away from well-meaning but unwise friends, is a therapeutic and hygienic necessity. Many patients are, when they leave the Hospital, temporarily or permanently handicapped in their capacity for adaptation or in their working ability, and unless they are given intelligent and sympathetic guidance and suitable conditions of life and work they are sure to come to grief. It is difficult for them to find work through the ordinary channels, and a quite special development for their benefit would be a great boon. Their capability as a class may be gathered from an examination of the quality and quantity of the products of the hospital occupation departments. An industrial colony, managed as a partly self-supporting benevolence, the products of which would be marketed, would be a unique and remarkably useful addition to the present organized agencies for the relief of this most appealing and least understood class of sick persons.

MEDICAL SERVICE.

The organized medical work of the Hospital has, during the year, been carried on along the lines described in previous reports. Although the needs of the patients under immediate study and treatment absorb the best efforts of the physicians of the medical staff, the opportunities presented for rendering the Hospital useful as a means of advancing psychiatric knowledge and its application to the broader medical and social problems continue, as far as possible, to be utilized. The evening conferences to which physicians from the immediate vicinity and elsewhere are invited, have been continued as heretofore and have been well attended. Contributations to the programmes were made by Dr. Louis Cassamajor, Dr. Walter Timme, Dr. Morris Karpas and Dr. John Rogers, of New York, and by Dr. F. Lyman Wells, of McLean Hospital, Waverly,

Mass. The Hospital continued to furnish the medical service for the mental clinic which is conducted in White Plains, under the auspices of the State Charities Aid Association. The work has been carried on by Dr. Lambert and, as during the preceding year, was confined almost entirely to the examination of children presented by teachers in the public schools or by county social workers. Many of the school children showed such a degree of intellectual defect or such peculiarities of behavior as to render them unsuitable for the ordinary school classes. The facts revealed by the work of the clinic enabled the school authorities to secure funds with which to establish an ungraded class for these children and a second class is contemplated. In bringing this about valuable assistance was given by Miss Elizabeth Farrell and Dr. L. Pierce Clark, of the New York City Department of Education, who, at the invitation of the hospital, kindly addressed a meeting of teachers, physicians and others, which was held at the high school.

Dr. Amsden's work in the treatment of paresis by intravenous and intra-spinal medication brought him several invitations to present papers on the subject before medical societies, some of which were accepted. The Medical Superintendent made an address at the mental hygiene conference which was conducted at Albany by the State Charities Aid Association. He also appeared before the Constitutional Convention and the Legislature in regard to legislation relating to the care of the insane and mentally deficient, and, as a member of the Executive Committee of the National Committee for Mental Hygiene, of the Mental Hygiene Committee of the State Charities Aid Association, of the New York City Committee on Provision for the Mentally Deficient, and of the New York Psychiatrical Society, he has given considerable time and effort to constructive psychiatric work.

The laboratory work has been carried on as heretofore. No special studies have been undertaken. A remarkably small number of deaths occurred at the Hospital during the year and only six autopsies were made. Besides the routine clinical and post-mortem work for the Hospital, Wassermann tests have been made for patients at the New York Hospital, and the usual work has been done for the Campbell Cottages. Several examinations of the water supply of the Hospital were made, the bacteriological work being attended to by Dr. Elser, of the New York Hospital Laboratory, and the milk from the Hospital dairy was examined regularly.

Nine major surgical operations and sixteen minor operations of noteworthy importance were performed during the year. Two of the cases were attended to at the New York Hospital. Most of the important surgical work of the Hospital has, however, as heretofore, been attended to by Dr. J. Fielding Black, of White Plains.

Dr. D. Austin Sniffen, of White Plains, has continued to attend to the dental work required by the patients. The number of patients examined by him during the year was 317, and a large amount of operative and conservation work was attended to. Dr. Sniffen reports that the general condition of the mouths of the patients in the Hospital is much better than three years ago, when systematic examinations were begun.

Dr. Frank N. Irwin, as Ophthalmologist, and Dr. Louis B. Chapman and Dr. Walter W. Mott, of White Plains, as consultants in internal medicine, have rendered helpful service during the year.

THE NURSING SERVICE.

The average daily number of persons employed in the nursing service during the year was 183, of whom 97 were women and 86 were men. Thirty-three included were employed as ward and pantry maids, and men, and as porters, in connection with the nursing service and the comfort and care of the patients and their quarters. The report of the Directress of Nurses shows that steady progress is being made in developing the courses in nurse training which have been established. Fourteen were received into the three-year course during the year and eleven remain. Three have taken up the second-year work at the New York Hospital and the Manhattan Maternity. There are at present 48 in the two-year course, 34 of whom are men. One graduate took the post graduate course of four months. The Mt. Sinai training school of New York has continued its affiliation with the Hospital, and one third-year pupil from that school is constantly at this Hospital, the course here being three months. A larger number of these pupils could be secured by means of an exchange system, which would be mutually advantageous. The instruction in dietetics was given by Miss Jessie Bloomfield, of the German Hospital, New York. The lectures and instruction given by the school instructors and the members of the resident medical staff have been supplmented by lectures given by Dr. Black in surgery, Dr. Irwin in diseases of the eye, ear and throat, and Dr. Sniffen in dentistry.

The graduation exercises were held on May 27th. Diplomas were presented by Mr. Townsend, Vice-President of the Board, to seven graduates. The address to the graduates was made by the Hon. William Church Osborn, formerly State Hospital Commissioner. The exercises were well attended, among those present being eighteen former patients.

The development of the occupational and physical treatment resources of the hospital continues to receive special attention. The use of the Dexter Memorial Cottage as an occupational building for

the women has proved most satisfactory and useful. There has been an increase in the number in attendance, the additional space has permitted some elaboration of the methods and resources, and the complete change from the halls to the greater openness and attractiveness of the Cottage workrooms is most beneficial to the patients. The new building for the men will soon be completed, and will, we believe, accomplish similar results for them. The annual report of the women's occupation department shows that 212 different patients received the attention of the department during the year. This was 70 per cent. of the total number of women patients treated in the hospital. The largest number occupied on any day was 134, and the largest attendance at the Dexter Cottage on any day was 48. The average daily number occupied was 116. The number of articles made was 11,152, and the number mended was 6,683. The report of the men's department shows that 93 patients received attention, constituting 36 per cent. of the total number of men treated in the hospital during the year. The average daily attendance at the workrooms was 35. The number of articles made was 1812, and the number mended 185. Among the articles made were 192 brooms and 59 brushes. The output of the printing and bookbinding shops was 201,112 pieces of printed matter, and 1,175 books, magazines and pads bound. During the year preceding, the output was 16,861 pieces of printing, and 63 books bound. In addition to the work referred to above, a number of patients were employed at gardening and other outdoor occupations. They were especially interested and active in preparing the new golf links. The output of occupation departments is a guide to their activity, but it is merely incidental to their invaluable usefulness in the treatment of the patients. In the women's department, courses of instruction were given, during the year, to four instructors from other hospitals, and to ten members of the School of Nursing.

In the department of physical education attention has, as heretofore, been given to games, both indoors and outdoors. The number of patients who received the attention of the departments was 178 in the department for men and 168 in the department for women. In the women's department, courses of instruction were given to six members of the school of nursing. The bowling alley is much missed by both men and women, and a new gymnsaium for the men is much needed.

In the departments of hydrotherapy and massage, the number of prolonged baths given was 2,315, the number of treatments in the hydriatic rooms 6,526, the number of packs 1,137, and the number of massage treatments 3,597.

The Nurses' Club, a self-governing organization which was formed three years ago, furnishes a centre for social life and mutual im-

BLOOMINGDALE ASYLUM—1881

DEPARTMENT FOR MENTAL DISEASES

Site now Occupied by Columbia University

provement, and is worthy of better club rooms than are at present available.

OAKLAND BEACH COTTAGE.

The Cottage at Oakland Beach was open from June 4th to October 18th. The actual benefit received by the patients from the use of the Cottage seemed more manifest this year than during any other season. Ninety-seven day parties, consisting in all of 622 patients, visited the Cottage. Twenty-eight remained for extended periods. The number of days board given was 1,060. The motor boat made 25 trips, carrying 151 patients, up to August 3rd, when, during a heavy storm, it foundered at its moorings. The loss is very keenly felt. The amount received from the patients for board at the Cottage and for transportation was $2,288, which was much less than the expense incurred in maintaining the Cottage.

FINANCIAL.

The average weekly per capita cost of maintenance during the year was $18.29. This includes the cost of maintaining the properties at White Plains and Oakland Beach, salaries and wages, supplies, ordinary repairs and renewals, and all other ordinary running expenses. It does not include capital charges and amounts spent for extraordinary improvements and renewals, for which special appropriations were made.

The total number of patients treated during the year was 556. Of these 52 were cared for free and 211 paid less than the average weekly per capita cost of maintenance mentioned above. The cost to the Society for the treatment of these patients was $68,750.98, which is equivalent to the maintenance of 72 free beds. The income of the John C. Green Memorial Fund, amounting to $7,696.60 was, in accordance with the terms of the Memorial, applied to the partial support of selected patients.

IMPROVEMENTS IN EQUIPMENT AND PLANT.

Two important pieces of construction work were undertaken during the year, a store, and an occupation pavilion for the men patients. Both of these buildings are now nearing completion. The store is attached to the west wall of the corridor leading from the kitchen to the basement of Hall 7, Women. It is a one-story, fireproof structure, large enough to contain most of the supplies and stores, except such bulky articles as coal, farm feed, etc. The building is divided into four rooms: a large general store room, a housekeeper's store, a sewing room, and a meat-shop. There are also four

cold-storage rooms. The new store will permit the bringing together of many supplies and stores which are now kept in rooms which are inconveniently located and widely separated from one another. Better supervision, greater economy of time and labor, and more precision in the care and distribution of supplies will, it is believed, be made possible by the new arrangement. Another advantage will be the possibility of having all deliveries to and from the hospital made at the rear of the buildings and of making it unnecessary for heavy delivery wagons to use the front drive. The cost of the building will, when completed, be $20,000.

The Occupation Pavilion is located at the highest point of the men's recreation grounds. It is made of brick to correspond with the other buildings of the hospital. It is of one story, E shape, with the court facing South. The north frontage is 89 feet long and the wings extend backward for 63 feet. The building contains 12 rooms to be used for the following purposes: A director's office and library, a drawing and modelling room, a room for fine metal work, a forge room, a joinery shop, a cement and pottery shop, a mat, brush and caning shop, a broom shop, a basketry shop, a printing shop and bookbindery, a miscellaneous room for special patients, and a large central room to be used for finished products and exhibits. In the basement will be an oven for pottery, a developing room for photography, and a dyeing room. A fuller description of the building and its purposes was published in the General Bulletin of the Society of December 15th last. The cost of the building and of its connections and equipment will be $24,000.

Among other noteworthy improvements made during the year may be mentioned the renovation and alteration of the employees' quarters over Halls 3, on each side of the house. These quarters are now equal in comfort and attraction to those over Halls 6. The amount expended for each was $5,500. The Assembly Hall was redecorated, altered structurally, and partly refurnished. The work is not yet completed, but the hall is again in use and it is already evident that its value as a source of benefit and pleasure to the patients who use it has been greatly increased. The cost of the improvements will be about $5,500. The large Corliss engines were overhauled during the year at an expense of $800. An automobile was purchased for $1,650, and a vacuum cleaner for $350. The farmer's cottage and the three-family house occupied by the mechanics were renovated and repainted at a cost of $1,000. The pantry adjoining the staff dining room was enlarged and refitted, and the bath room in the first assistant's apartments was tiled and the fixtures renewed, the expense of the two items being $900. The wooden porches on the villas and the medical superintendent's residence were extensively repaired at an expense of $450. The fences around the vegetable

garden and along the Mamaroneck Avenue driveway were renewed at a cost of $1,000. Four Hundred Dollars were spent for conservation work on the trees, and about the same amount in straightening and paving the brooks. The refrigerating plant was overhauled at an expense of $150. About the same amount was spent in placing guards around the machinery in the mechanics' shops and engine room. Automatic fire doors and steel lockers were installed in various places to increase protection against fire. The expense was about $550. Two tennis courts were constructed in the nurses' recreation grounds at a cost of $650. A multitude of less important repairs and renewals were attended to and the number of these increase with the age of the buildings and equipment.

GOLF COURSE.

The Bloomingdale Committee, during the year, authorized the use of a tract comprising about twenty acres for a golf course, and $1,000 was appropriated for its development. The course was laid out by Mr. Peter Clark, Golf Professional at the Gedney Golf and Country Club. Much of the work of removing boulders and building the greens was done by the patients. There are nine holes, the longest distance between holes being 300 yards, the shortest 82 yards, and the total length 1,520 yards. Before the season closed the course was in condition to be used, and it was played over a number of times by about twenty of the patients There seems every reason to believe that the course will form a useful and attractive addition to the resources of the hospital.

NEEDS OF THE HOSPITAL.

The needs of the Hospital relating to the physical condition and development may be divided into three classes: (1) Repairs and renewals required by depreciation; (2) improvements for the purpose of increasing the efficiency of the present plant and equipment; (3) extensions to enable the Hospital to take up new lines of usefulness for which the need can be seen. The more important needs in each class were mentioned in the annual report for 1914, and only a few will be selected with a view to emphasis and fuller presentation.

(1) Of the renewals needed, the most expensive item is the boilers. New boilers have been recommended by the engineers and by the insurance inspector. An advantage claimed is a reduction in the expense of operation. When the new installation is made, it would be advisable to make, at the same time, some improvements in other portions of the steam plant. The total expense involved would probably be $30,000. It would be possible, though probably more

expensive, to renew the two batteries of boilers separately, and a part only of the total amount required would in that case be sufficient for the coming year.

Many other items of needed repairs and renewals might be mentioned, but as needs of this class must sooner or later be attended to whatever else is done, it seems advisable to invite attention especially to needed improvements and extensions.

(2) Among the improvements needed to increase the efficiency of the present plant and equipment, one which would give most satisfaction would be to replace the present electric food warmers in the pantries with steam tables and steam cabinets. The food is prepared in the central kitchen and is conveyed through the basements to the lifts by which it is raised to the dining-rooms. It is sometimes difficult to deliver it at as warm a temperature as is desirable, and more facilities for heating in the pantries would be helpful. In order to prevent damage from leaks, and for sanitary reasons, the pantries should be tiled. There are 23 dining-rooms, and the total expense would be $5,000.

Another improvement which would contribute much to the satisfaction of the patients would be a motor bus for the beach parties. About 100 trips are made to the Oakland Beach Cottage, besides picnic parties in other places, during the season. At present the trips to the Cottage are made in the Chase motor truck which always conveys the supplies. The trips are much enjoyed but a more comfortable and attractive bus would add to the pleasure. It would cost $3,000.

A new gymnasium for the men is much desired. The present building is used to much advantage, but a need is felt for more room, more equipment, and additional features. The building is of frame and stucco, and is becoming dilapidated. It was somewhat damaged by the fire which destroyed the bowling alley. A new building might be regarded as a renewal, but should present so many improvements that it would appreciably increase the efficiency of the present plant and equipment. An adequate building, with the connections, equipment, and furnishings would cost $75,000.

A Nurses' Home would contribute materially to the needs of the nursing service. The advantages of a separate home for Hospital nurses are generally recognized. In no class of work could there be greater need of an opportunity for complete relief from the strain and responsibility of the duty hours than in the nursing of mental disorders. The nurses are now in quarters over the patients' halls, and while these have been made quite comfortable and attractive they are in too close proximity to the patients and do not provide the homelike environment of a separate building. They are also insufficient for all the nurses, some of whom are in rooms on the patients'

halls which, if a home were provided, would be released. The number of nurses is also gradually increasing. A Nurses' Home of sufficient capacity to accommodate a hundred nurses, with the necessary recreation rooms, class rooms, additional dining-room space and the needed connections, furnishings, and equipment would cost $200,000.

Another improvement which would be of advantage to the nursing service would be a dining-room for the men. At the present time there is one general dining-room for all the men employees, except the farm hands, who take their meals at the farm house. It would be advisable to provide for the male nursing force in a separate room. This would cost $5,000.

Need is felt for better facilities for surgical work. The number of major operations required by the patients is small, but frequently the mental condition of the patient is such that removal to a general hospital, as is now customary, is inadvisable or even dangerous. A small surgical operating-room attached to one of the corridors in a central location would be of great service. In the same building provision might be made for the dentist who is now located near the business office; for the many surgical dressings which are now required by patients and employees; and for examinations and treatments which require special equipment. The cost of such a building would be $10,000.

An additional Villa for women has long been looked upon as a desirable addition. The advantages that would accrue have been demonstrated in the men's division since the erection of the Banker Villa. Better facilities for wider separation between different groups of patients would be a distinct improvement. A suitable Villa could be erected and equipped for $100,000.

It is not to be expected that all of the many improvements which are desirable can be provided from the funds which are ordinarily available for maintenance. Let us hope that kind friends of the mentally sick, may see in some of those proposed, especially the Gymnasium, the Nurses' Home, and the Villa, opportunities to aid a conspicuously useful agency for the relief of a class of sick persons who, singularly, have received relatively little attention from private philanthropy.

(3) In the annual report for 1914, it was suggested that, in the further development of the work of the relief of persons suffering from mental disorders which is carried on by the Society, it could be plainly seen that "the needs of the mentally sick, as they come to our attention, require, in addition to the provision already made, three lines of development: (1) Better provision in the city for receiving patients and for the treatment of acute conditions; (2) better separation of the different types of cases on the property at White Plains; (3) better provision for convalescence and a period of

after-care." It is generally recognized by physicians and others who are called upon to attend to persons suffering from mental disorder in New York City that adequate Hospital care for emergency private cases is not available. Such cases are met with in hotels, boarding houses, on arriving trains and steamers, and in homes in which the conditions are such that the removal of the patient is imperative. There is, at present, no place except the public wards at Bellevue Hospital where special hospital provision is made for their care. In regard to no other class of sick persons for whom hospital care is necessary is this the case. The result must necessarily be that treatment by sedatives to an objectionable extent is sometimes resorted to, or that the patients are subjected to methods of restraint and to indignities which are prejudicial to their welfare and recovery. It would seem to be eminently fitting that the first development to meet the need in the city should be made by the New York Hospital, which because of its long experience in the work and its present provision at White Plains is best prepared. The most satisfactory provision would be a specially designed building, detached from other buildings but in close proximity to the general hospital, set back from the street, well protected from the sight and sound of passers-by and neighbors, attractive and homelike, with every evidence of precautionary measures masked as much as possible. The facilities should include those needed in the treatment of acute deliriums and other excitements, as such cases are the most difficult to remove out of the city, and respond favorably to appropriate treatment and die if deprived of it. Provision should, however, also be made for other types of cases which could be received, and, if advisable, removed later to White Plains. Earlier treatment for mental disorders would be encouraged by the accessibility and advantages of a department of this kind. The quality of work in psychiatry done by Bloomingdale Hospital would also be improved. It would be brought into close relations with the other work of the hospital, and access would be gained for the patients to the diagnostic and treatment resources of the whole hospital equipment and organization. This advantage could also be extended to any of the patients at the White Plains branch, who could, when it seemed advisable, be temporarily transferred to the city department for such examinations or treatment as could best be attended to there. A suitable building for 25 patients with the accessories and equipment needed would probably cost $150,000 or $200,000.

CONVALESCENT COTTAGE FOR MEN.

The use of the Cottage, near the North Street entrance to the grounds, for convalescing men patients from the New York Hospital,

was discontinued on April 30th. This was made possible by the opening of the Burke Foundation Home, by which the work was taken over. During the period from January 1st to the closing, seventy patients were cared for, of whom 63 were admitted during the period. The number of Hospital days was 881, and the expenditure for service and supplies $1,321.50. The Cottage had been used for the purpose since 1902, during the summer only, except in 1914, when it was open for the whole year. The number of patients cared for was 1,173 and the number of Hospital days about 17,000. The cost to the Society was approximately $25,000.

GENERAL.

Two serious losses of equipment were sustained during the year. On January 2d the bowling alley attached to the men's gymnasium was destroyed by fire, the origin of which was not discovered. By this loss the patients were deprived of one of their most highly appreciated and useful indoor games. On August 3d, the motor boat which was presented to the Hospital in 1911, by Dr. Lyon, former Medical Superintendent, foundered and broke up at her moorings during a severe storm. The boat was used during the summer in taking parties of patients for trips on the Sound. There had been no accident and it was a source of benefit and pleasure. The purchase of another boat has been authorized by the Bloomingdale Committee.

The usual social dances and other entertainments for the patients were given during the winter months, and, throughout the year, social parties indoors and out, games and sports, walks and drives, and other recreations and pleasures were engaged in. Several dramatic and musical entertainments prepared by home talent were given for the benefit of the patients. The improvement in the nursing force and the building up of special departments have added much to the social and entertainment features of the hospital life.

Religious services were conducted as usual, except during the period when the Assembly Hall was being altered. The death of Rev. Frederick B. Van Kleeck, Chaplain of the hospital, which occurred on August 1st, occasioned much sorrow and regret. He had been Chaplain for more than twenty years and was deeply interested in the Hospital. His last official act and the last clerical office he performed was his prayer at the graduation exercises of the training school, which he had made a great effort to attend.

The following changes took place in the medical staff: Dr. Milton A. Harrington, assistant physician, resigned on May 20th to accept a position on the medical staff of the New Hampshire State Hospital, Dr. James L. Tower, medical interne, resigned on July 16th, Dr.

Karl M. Bowman was appointed medical interne on June 10th, and Dr. John H. Moss was appointed medical interne on July 26th.

On September 1st, Miss Rye Morley resigned from the position of housekeeper. Her place was filled by the appointment of Miss Martha Washburn on September 1st. On August 26th Mr. Joseph V. Vertrees resigned as Director of Occupations, and on October 15th Mr. Louis J. Haas, a graduate of the State Normal School at Oswego, N. Y., was appointed to succeed him. Miss Natalie M. Ashley resigned as librarian and musician on August 5th, and on October 1st Miss Eliza A. Stearns, a graduate of Mount Holyoke College, was appointed to the position.

Two hundred and sixteen volumes were added to the libraries during the year; 136 to the patients' library, 14 to the nurses' library, and 66 to the medical library. The establishment of the position of musician and librarian has been distinctly advantageous.

The annual inspection of the Hospital by the Governors was made on May 27th.

A gift of a dozen golf clubs and two dozen balls was received from Mr. Edward W. Sheldon, a cement lawn bench and a bird bath from the patients' work rooms of the Burke Convalescent Home, a Victrola and records from Mrs. L. E. Longstreet, a mirror from Mrs. Dora L. Goldsmith, a cash donation for the purchase of malted milk from Mrs. Morris J. Lewi, and a cash donation for the Nurses' Club from Mrs. Isabel Irving Thompson, all of which are gratefully acknowledged. The Hospital is also indebted to several kind friends for musical and other entertainments.

Acknowledgment must again be made of the extent to which the success of the Hospital is due to the efficiency and faithfulness of the members of the medical staff, the executive officers, and the employees generally.

For the continued confidence and generous support of the Bloomingdale Committee and of your Honorable Board, I beg to express my deep appreciation.

Respectfully submitted,

WILLIAM L. RUSSELL,

Medical Superintendent.

BLOOMINGDALE HOSPITAL

DEPARTMENT FOR MENTAL DISEASES

WHITE PLAINS, NEW YORK

REPORT OF THE ASSISTANT SUPERINTENDENT, CAMPBELL CONVALESCENT COTTAGES, WHITE PLAINS, NEW YORK.

To the Board of Governors:

GENTLEMEN:—I beg to submit the report of the Campbell Convalescent Cottages for the year 1915.

There has been more nursing required this year than at any previous time in our history. Many children required a nurse's care for quite long periods, but this is never regretted if a happy recovery is finally attained. We have had little contagion of importance since the early part of the year. At that time a serious form of measles prevailed, but the contagion that followed was light German measles and chicken-pox, which passed off quickly and did not require a period of quarantine.

The most important event of the year was the discontinuation of the care of women patients, who are now admitted to the Burke Foundation, White Plains, and the remodelling of their cottage for the reception of girls from ten to sixteen years of age. The necessary alterations were in progress three months, and included the addition of nine new rooms and enlarging two others. The present facilities provide four rooms for semi-isolation, which had always been one of our greatest needs. The cottage was furnished with new beds, chairs and pictures. The old section of the cottage was painted both inside and outside.

With the new arrangement we are able to accommodate twenty-eight girls in the place of sixteen women, and as they require more individual attention, and the household duties were increased, it became necessary to add to our staff of helpers a nurse and a maid. The new cottage was quickly filled with young patients, and the demand for admissions has been steady. The average length of a girl's stay was thirty days, but in a few instances a longer stay was made.

Certain valuable preventive work is accomplished among these girls. Not a few have a tendency towards tuberculosis, but are not eligible for admission to a preventorium. These patients are always greatly benefited by a protracted stay in the country. Our medical and surgical service has also been very successful, and many—if not most—of the girls in the Cottage gained from eight to sixteen pounds.

It will hardly be necessary to say that it is very important to provide suitable and acceptable occupation for the older girls. This

we have made an effort to do, not only by means of books, music, games and out of door exercise, but their nurse has spent much time and thought in teaching these girls such useful occupations as bed-making, mending, personal and home hygiene, first aid to the injured, care of babies' feeding and utensils, the preparation of poultices, mustard paste and similar home remedies. These girls are also given a certain amount of instruction in school work and basketry. It will be seen that much can be done for girls of this age, and we feel the obligation of making the most of the time they are in our care, generally at least one a month.

With the increased number of children came the problem of table linen, and it was finally decided to cover our tables with Carrara glass, which is not only comparatively easily cared for, but has a good appearance.

Our protection in case of fire has been made more secure by the addition of a 200-foot hose attached to the rear hydrant.

This was the first Christmas to be planned for so large a number of children, and with the generous support of both old and new friends, we were able to provide even more liberally than usual. Our Christmas needs seem to be appreciated. One of the children's many friends arranged that each of the girls in the new Cottage should be given a dollar for herself. The girls went in a body to the village, filled with excitement. One child announced that it was "the first big shopping she had ever done!" The gift of a new Victrola added greatly to their Christmas happiness.

We appreciate and are grateful for the evidences of kindness extended to us by friends, which assist in the broadening and developing of this interesting and necessary work.

To the Bloomingdale Committee I offer my expression of appreciation of their constant support and advice.

Respectfully submitted,

ALICE C. ELLISON,

Assistant Superintendent.

CAMPBELL CONVALESCENT COTTAGES.

Donations for 1915

Mr. George L. Rives.....$10.00 for Christmas, books.
Mr. Howard Townsend.....$10.00 for Christmas, Victrola.
Mr. Edward W. Sheldon.....$10.00 for Christmas, case of oranges for Christmas.
Mr. Augustine J. Smith.....$30.00 for girls' Christmas, tennis balls for children.
Mr. Frank K. Sturgis.....$10.00 for Christmas.
Mr. and Mrs. David P. Ogden.....Toys for Christmas.
Mrs. Waldron Post Brown.....$20.00 for Christmas.
Mrs. Paul Tuckerman.....$10.00 for Christmas.
Mrs. L. J. Smith.....Post cards for the children.
Miss Dorothy J. Smith.....Clothing, games, books, toys.
Miss Mary Smith.....Clothing, dolls, balls, books, toys.
Mrs. L. B. Chapman.....Toys for Christmas.
Mrs. J. Longstreet.....55 pairs woolen slippers.
Miss Frances Cobban.....Candy, games.
Mr. Guy Ward.....Books.
Miss P. Gunderson.....Dolls.
Mrs. A. Forsythe.....Christmas gifts for the girls.
Master Jack Lambert.....Toys for Christmas.

STATISTICS FOR 1915.

Children's Service.

Children remaining December 31, 1914	41		
Children admitted (girls) during 1915	194		
Children admitted (boys) during 1915	277—	512	
Children discharged during 1915		468—	
Children remaining December 31, 1915			44
Of those discharged there were:			
Cured	97		
Improved	354		
Unimproved	17		
The number of hospital days for children	16,553		
Average length of stay per child	32 days		

Girls' Service.

Girls remaining December 31, 1914	None		
Girls admitted during 1915	150		
Girls discharged during 1915	119—		
Girls remaining December 31, 1915			31
Of those discharged there were:			
Cured	17		
Improved	99		
Unimproved	3		
Number of hospital days for girls	4,528		
Average length of stay per girl	30 days		

Woman's Service.

Women remaining December 31, 1914	16		
Women admitted to May 1, 1915	73—		
Women discharged during 1915		89	
Of those discharged there were:			
Cured	13		
Improved	69		
Unimproved	7		
Number of hospital days for women	1,677		
Total number of patients treated	751		
Total number of hospital days	22,758		—
Total number of patients remaining December 31, 1915			75

GOVERNORS

OF

THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the first of January, 1916, with the date of their respective elections and the length of time they continued in office:

Governors.	Elected.	Resigned.	Served the Institution.	
A.				
Charles Ward Apthorp	1770	1784	14 years	
William Axtell	1770	1784	14 years	
John Alsop	1784	1788	4 years	
Gilbert Aspinwall	1799	1809		
Gilbert Aspinwall	1811	1812	15 years	Died in office, 1819.
Gilbert Aspinwall	1815			
John Atkinson	1800	1809	9 years	
John Aspinwall	1814	1817	3 years	
John Adams	1818	1854	36 years	
Stephen Allen	1823	1830	24 years	Died in office, 1852.
Stephen Allen	1835			
Augustine Averill	1848	1857	9 years	
John Jacob Astor	1860	1864	4 years	
George W. Abbe	1877		2 years	Died in office, 1879.
William W. Astor	1879	1882	3 years	
James W. Alexander	1904	1905	1 year	
B.				
Gerardus William Beekman	1770	1777	7 years	
George Bowne	1770	1784	26 years	
George Bowne	1785	1797		
William Bayard	1777	1784	7 years	
Robert Bowne	1784		34 years	Died in office, 1818.
Aaron Burr	1784	1792	8 years	
James Beekman	1785	1787	2 years	
Theophylact Bache	1785	1797	12 years	
Thomas Buchanan	1785	1800	15 years	
Francis Basset	1785	1787	2 years	
William Backhouse	1787	1792	5 years	
Nicholas Bayard	1794	1798	4 years	
John Barrow	1795	1807	12 years	
Samuel Bowne	1796	1797	1 year	
William Bayard	1800	1802	2 years	
Walter Bowne	1800	1805	5 years	
Dr. Samuel Bard	1801	1802	1 year	
Rev. Abraham Beach	1801	1806	5 years	
Thomas Buckley	1802	1842	40 years	
John Bogert	1804	1817	13 years	
John L. Bowne	1810	1815	5 years	
Abraham Barker	1813	1816	3 years	
Robert H. Bowne	1815	1827	12 years	
William Bayard, Jr	1818	1823	5 years	
John L. Buckley	1842	1855	13 years	

Governors.	Elected.	Resigned.	Served the Institution.	
James W. Beekman	1850	1854	23 years	Died in office, 1877.
James W. Beekman	1858			
Nathaniel P. Bailey	1858		33 years	Died in office, 1891.
James M. Brown	1861		29 years	Died in office, 1890.
Theodore B. Bronson	1864	1868	4 years	
James H. Banker	1869	1876	8 years	
James William Beekman	1884		24 years	Died in office, 1908.
Cornelius N. Bliss	1885	1899	14 years	
Cornelius N. Bliss	1901	1908	7 years	
George S. Bowdoin	1887	1903	16 years	
Waldron Post Brown	1887		28 years	Died in office, 1915.
Thomas H. Barber	1898	1903	5 years	
George F. Baker	1899		17 years	Continues in office.
Charles S. Brown	1904		12 years	Continues in office.
Henry G. Barbey	1909		7 years	Continues in office.
Cornelius N. Bliss, Jr	1909		7 years	Continues in office.
C.				
David Clarkson	1770	1777	7 years	
Matthew Clarkson	1792	1822	30 years	
John Campbell	1794	1797	3 years	
John B. Coles	1796	1798	2 years	
Isaac Collins	1800	1808	8 years	
John T. Champlin	1801	1811	10 years	
John G. Coster	1801	1803	2 years	
Samuel Corp	1801	1802	1 year	
Richard Cunningham	1812	1814	2 years	
Cadwallader D. Colden	1812	1827	15 years	
Nathan Comstock	1818	1823	5 years	
Duncan P. Campbell	1818	1827	9 years	
John Clark, Jr	1819	1834	15 years	
Isaac Carow	1826		24 years	Died in office, 1850.
Robert C. Cornell	1832		13 years	Died in office, 1845.
Stacy B. Collins	1846	1864	18 years	
Henry Chauncey	1848	1852	4 years	
James N. Cobb	1855	1861	6 years	
David Clarkson	1856	1865	9 years	
Frederick A. Conkling	1857		34 years	Died in office, 1891.
Henry Chauncey, Jr	1859	1865	6 years	
Israel Corse	1864	1869	5 years	
Joseph H. Choate	1877		39 years	Continues in office.
Hermann H. Cammann	1882		34 years	Continues in office.
John Claflin	1901	1904	3 years	
D.				
Oliver Delancey	1770	1784	14 years	
Elias Desbrosses	1775		3 years	Died in office, 1778.
James Duane	1784	1789	5 years	
William Denning	1784	1792	14 years	
William Denning	1805	1811		
Jacob de la Montagnie	1797	1802	5 years	
Frederick De Peyster	1809	1818	9 years	
Cornelius Dubois	1814	1818	4 years	
James F. De Peyster	1827	1869	42 years	
James Donaldson	1843	1856	17 years	
James Donaldson	1858	1862		

Governors.	Elected.	Resigned.	Served the Institution.	
William Dennistoun	1865		10 years	Died in office, 1875.
Henry J. Davison	1873		17 years	Died in office, 1890.
William Alexander Duer	1890	1901	11 years	
Henry W. de Forest	1890		26 years	Continues in office.
George G. De Witt	1892		20 years	Died in office, 1912.
E.				
Andrew Elliott	1770	1784	14 years	
Lawrence Embree	1784	1796	12 years	
William Edgar	1787	1798	11 years

1909	Miss B. A. Anderson	New York City.
1915	Miss A. M. Anderberg	New York City.
1880	Mrs. A. S. Burd	Flushing, L. I.
1887	Miss M. K. Brown	New York City.
1890	Miss E. Bowe	Roseville, N. J.
1894	Miss E. Benz	New York City.
1894	Miss M. Bellinger	Stamford, Conn.
1896	Miss C. T. Birdsall	Philadelphia, Pa.
1902	Miss E. I. Boyd	New York City.
1903	Miss F. Buchan	New York City.
1905	Miss D. Browning	New York City.
1906	Miss S. A. Baldwin	Brooklyn, N. Y.
1907	Mrs. E. E. Bennett	New York City.
1910	Miss H. M. Backus	New York City.
1910	Miss E. D. Bennett	New York City.
1910	Miss L. M. Barber	Detroit, Mich.
1911	Miss E. A. Baldwin	New York City.
1911	Miss F. E. Barber	New York City.
1911	Miss E. M. Blake	New York City.
1910	Miss M. S. Brock	New York City.
1912	Miss A. M. Brown	New York City.
1913	Miss Helena I. Boyd	New York City.
1915	Miss H. A. Bronson	New York City.
1915	Miss F. L. Butler	New York City.
1904	Miss F. M. Creighton	New York City.
1906	Miss M. Collins	New York City.
1906	Miss M. Creighton	New York City.
1907	Miss J. Crane	High Bridge, N. J.
1911	Miss M. A. Cramer	New York City.
1914	Miss M. Cameron	New York City.
1914	Miss A. Cronemeyer	New York City.
1914	Miss Sarah Constable	New York City.
1915	Miss E. C. Chappell	New York City.
1880	Mrs. E. J. Davenport	New York City.
1884	Miss R. A. Day	San Diego, Cal.
1890	Miss E. A. Davis	Orwell, N. Y.
1895	Miss E. M. Dinehart	New York City.
1895	Miss E. N. Danaher	New York City.
1899	Miss J. L. deFreest	New York City.

PRIVATE NURSES—*Continued.*

Year of Graduation.	Name.	Address.
1904	Miss M. E. Davis	New York City.
1910	Miss H. A. Du Mond	New York City.
1911	Miss E. A. Dean	New York City.
1914	Miss Orpha Durland	New York City.
1908	Miss M. Devereaux	Portland, Oregon.
1913	Miss Eva Dunne	New York City.
1900	Miss A. E. Earle	New York City.
1913	Miss Elsie M. Ernst	New York City.
1897	Miss W. Fligg	New York City.
1899	Miss A. Fletcher	New York City.
1900	Miss L. Finney	New York City.
1902	Miss S. E. M. Ferguson	New York City.
1902	Miss A. C. Fraser	New York City.
1908	Miss M. K. Falconer	New York City.
1911	Miss W. Fraser	New York City.
1911	Miss B. Francis	New York City.
1913	Miss A. Modjeska Foote	New York City.
1914	Miss Ethel Fenemore	New York City.
1913	Miss Patti W. Foster	New York City.

1879	Mrs. I. Waldron.	
1886	Miss L. W. Westcott.	

LEGACIES TO THE HOSPITAL.

The Hospital has been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following clause, however, may be suggested:

"I give to THE SOCIETY OF THE NEW YORK HOSPITAL the sum of.....dollars."

If land or any specific personal property such as bonds, stocks, &c. is given, a brief description of the property should be inserted instead of the words "the sum of.....dollars."
